Decentralization, Local Governance, and Localizing the Sustainable Development Goals in Asia and the Pacific Bruno Carrasco, Hanif A. Rahemtulla, Rainer Rohdewohld, 2022-10-12 Since its adoption in 2015 the 2030 Agenda on Sustainable Development has shaped not only international development cooperation but also the design of national trajectories for social and economic development In tandem with other global agendas adopted that year such as the Paris Agreement on Climate Change and UN Habitat s New Urban Agenda it remains the global and regional blueprint for sustainable development despite the COVID 19 pandemic The term localizing the Sustainable Development Goals SDGs has been used to capture the importance of

subnational governments for achieving national SDG agendas However there is little deeper analysis of the required nexus between fiscal political and legal arrangements for SNGs their involvement in national policy arenas which discuss and decide on national SDG strategies and the need for locally disaggregated data systems on the one hand and effective SDG localization strategies on the other hand It is this aspect which the present publication explores in greater detail by using country examples and conceptual analyses The text will be of interest to policymakers scholars students and practitioners in public policy and public administration decentralization and sustainable development with a focus on the Asia and Pacific region The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivative License CC BY NC ND 3 0 IGO

Good Governance in Asia Linda Chelan Li, 2016-03-22 The international aid community has advocated governance reforms as a necessary complement to economic aid to developing countries The resultant Good Governance Agenda has been criticised for its ahistorical bias The empirical case studies reported in this book further illustrate the limitations by showing the complex logics of governance reforms and their relations with development in the Asian context The analysis highlights the importance of taking full notice of the Asian reform experiences in the ongoing reflection over the global institutional and development agenda The message is not to deny the need for governance reforms or the utility of international learning and sharing of experiences Global development will benefit however from a better understanding of the linkages between governance reforms and the diverse historical conditions they are embedded in both developing or the advanced economies This book was published as a special issue of *Journal of Contemporary Asia*

Resource Guide on Decentralisation and Local Government Zoë Scott, Munawwar Alam, 2011 Provides practical guidance for designing implementing and evaluating decentralisation reforms and local government practices to ensure they are as

effective as possible. It also synthesises and presents current debates on the impact of decentralisation and local government on poverty reduction service delivery and conflict. *Decentralization in South Indian States* G Palanithurai, 2015-06-06. The 73rd Constitutional Amendment is a milestone in the modern history of India and it has taken democracy to the grassroots. It aims to transform the characteristics of our democracy from representative to representative and participatory democracy. Before going into the details of the process of decentralization of powers in the states over a period, it is necessary to explain the basic framework of decentralization of powers. To operationalise the basic framework both letter and spirit, the state governments have to take an array of steps that are fundamental and basic for the establishment of a local governance system. By keeping the above framework in the last twenty years, how decentralization took place in south Indian states Tamil Nadu, Karnataka, Andhra Pradesh and Kerala has been evaluated in this volume. The four chapters have been written by G Palanithurai, M Gobinath Reddy, M Sivanna and Jos Chathukulam. Along with the above state specific chapters, there are a few chapters covering Panchayat finance in South Indian States and democratization in this volume written by B Devendra Babu and G Palanithurai respectively. S N Sangita has written a chapter on Political regime, Decentralized Governance and social security in south Indian states. It is also included in this volume. Further, the chapter written by V N Alok on Devolution of Powers to Local Bodies has been incorporated in the present work. Finally, yet another paper on Decentralization of Powers, Acceleration and Deceleration by G Palanithurai for a different journal has also been included. Thus, totally nine papers have been accommodated.

Decentralised Planning and Panchayati Raj Institutions S. N. Mishra, Sweta Mishra, Chaitali Pal, 2000. *The Role of Governance in Asia* Yasutami Shimomura, Institute of Southeast Asian Studies, 2003. This is Volume 2 of a 3 volume study Asian Development Experience which is expected to contribute to research as well as policy making in Asia and elsewhere. An earlier version of this study was supported by the Japan ASEAN Solidarity Fund. Governance in Asia Revisited investigates the missing link, the complicated realities of the relations between governance and development through case studies of ASEAN countries. Its main objective is to explore a theoretical framework to overcome the limitation of mainstream approaches by employing case studies on decentralization, crisis management, corporate governance and foreign aid management of both public and private entities. From the beginning of the 1990s onwards, the international aid community has increasingly stressed that good governance together with democracy and protection of basic human rights is indispensable for sustainable economic development. The terms, however, are complex, broad and vague. They largely refer to discipline of government, institution, capacity of public sector. While a wide variety of empirical studies has been done on the relations between good governance and development, it is still unclear how to

Decentralised Governance and Planning Abdul Aziz, 2002. This book is a comparative study of decentralisation processes in the three southern states viz Andhra Pradesh, Karnataka and Tamil Nadu. The book attempts at understanding the nature of Panchayati Raj system in these states. The case study method has been employed to analyse the experiment of decentralisation. A useful book for planners.

policymakers and researchers of Indian politics *Central-Local Relations in Asia-Pacific* Mark Turner, 2016-07-27 A source of perennial tension in states is the degree to which decision making power and authority should be concentrated in central institutions and individuals At present the conventional wisdom of central local relations has swung in favour of decentralisation This book investigates whether such convergence is taking place through detailed examination in Asia Pacific The results of the survey reveal a complex picture in which divergence is still evident in the region s patterns of central local relations *Grassroots Governance in Germany and India* G. Palanithurai, Niclas D. Weimar, Sonkhogin Haokip, 2014-01-01 Local Governance assumes significance in the present context of globalization It is important in the developing countries particularly in the Afro Asian countries Because the present dispensation of decentralization of powers is meant for empowerment of the marginalized The current wave of decentralization is to involve and engage the marginalized in governance and development activities Local governance is seen as a tool and mechanism to achieve inclusive development and inclusive governance In this context an attempt is made to compare the grassroots institution namely the lowest unit of governance in India and Germany It is almost a comparison of working of Gram Panchayat in India and a equivalent unit in Germany It has been done through a case analysis It gives a picture about how a village life is organized and administered through an institutional mechanism Less government more governance can be seen when ours is compared with the western countries Decentralization and Health Policy in South Asia Nisha Bellinger, 2024-09-02 This ambitious and insightful book provides a unique regional perspective on health policy across South Asia focusing on how the decentralization of policy and governance leads to differing health outcomes across different countries in the region Comparing the contexts and outcomes in Sri Lanka Pakistan India Nepal and Bangladesh the book asks how power sharing arrangements between central and subnational layers of government nevertheless result in varying levels of success across issues such as infant and under five mortality rates The book argues that it is the role of central government in formulating policy and how this feeds into regional implementation that partly explains the disparities in health outcomes across the region The book will interest students and scholars of South Asia politics global health and health policy more generally *Decentralisation, Need for Reforms* D. N. Gupta, 2004 With special reference to India Pro-poor Growth and Governance in South Asia Ponna Wignaraja, Susil Sirivardana, 2004-01-01 This important volume advocates a pro poor growth strategy where the poor also participate directly as subjects in development The contributors maintain that a critical element in this process is social mobilization where organizations of the poor work in partnership with a restructured state and a socially responsible private sector They see a new political space for this in the current attempts at decentralization which are also aimed at developing power to the people To illustrate these possibilities the volume presents six case studies from India Pakistan Sri Lanka Nepal and Bangladesh Together they show how new social movements and organizations of the poor are converging with efforts to decentralize and to share power at the local level This volume breaks new ground by

investigating in depth the three important agendas of governance decentralization devolution and poverty eradication and by highlighting how they can be coordinated to fashion a genuinely pro poor macro micro development strategy

Decentralised Governance, Development Programmes and Elite Capture D. Rajasekhar, M. Devendra Babu, R. Manjula, 2018-10-05 This book discusses the elite capture taking place in the development programmes implemented through Grama Panchayats GPs the lowest tier in the rural local self government structure in India Inclusive growth being the cherished goal of all the developing countries including India the book assesses whether checks and balances incorporated in development programmes prevent elite capture and promote inclusive development It also highlights the role of community based organisations such as SHGs in ensuring development benefits reach marginalized groups The policy makers in India introduced decentralised governance to facilitate the participation of marginalized groups in the planning and implementation of development programmes at the local level and to ensure that development benefits reach them International agreements such as the Hyogo Framework for Action Millennium Development Goals and Sustainable Development Goals also call for decentralised governance for inclusive growth The issue of elite capture has traditionally been studied mainly from the sociological perspective i.e. how the local upper dominant castes and classes garner the positions and benefits But with the new and structured governance system that is in place at the local level in contemporary India this book explores how decentralised governance is addressing the issue of elite capture The study closely analyses micro processes of decentralisation to understand how elite capture is taking place Additionally it examines

this concern from both governance and economic perspectives The scope of the book is wide and encompasses several aspects such as the functioning of the local government decentralised governance checks and balances in development programmes community based organisations the upward political linkages and elite capture It is equally relevant to researchers from several social science disciplines civil society policy makers and implementers from the grassroots to national level government
