Falleti,2010-04-12 Is it always true that decentralization reforms put more power in the hands of governors and mayors In post developmental Latin America the surprising answer to this question is no In fact a variety of outcomes are possible depending largely on who initiates the reforms how they are initiated and in what order they are introduced Tulia G Falleti draws on extensive fieldwork in depth interviews archival records and quantitative data to explain the trajectories of decentralization processes and their markedly different outcomes in Argentina Brazil Colombia and Mexico In her analysis she develops a sequential theory and method that are successful in explaining this counterintuitive result Her research contributes to the literature on path dependence and institutional evolution and will be of interest to scholars of decentralization federalism subnational politics intergovernmental relations and Latin American politics **AHEC The Decentralization and Regionalization of Health Professional Education and Training** United States. Health Manpower Bureau,1975 **Technical Consultation on Decentralization for Rural Development** Food and Agriculture Organization of the United Nations,1999 **Why Regional Tier Form of Decentralization Governance's Implementation Is a Preliquist for Uganda's Better Service Delivery of 21st Century** Deo Rwangoga, The book looks at Decentralization governance of president Museveni era that was registered in Uganda of the local government status 1987 resistance councils status 1993 as well as into the 1995 constitution operationalized by the local government act 1997 that devolved legislative fiscal planning budgeting functions to districts Municipal councils as well as their lower tier levels whose idea was to involve the people in a way they were governed the dream that have not been achieved looking at what the cries of people are as expressed in all sectors This book analyses Decentralization from 1997 to 2019 and deduces that the first phrase of it 10 years that is up to 2005 was a success that time the district were 69 in number but beyond that time it was not at all and up to now as it is continuously becoming harder to manage those very many administrative units that jumped

from just 39 districts in 1991 to 134 Districts in 2020 as well as municipalities created alongside districts that now stand at 41 2018 all contributing to formation of a Member of Parliament that total to 459 MPs 2018 All this has led Uganda to have a very poor governance system as even primary sectors of health education agriculture and economy are in a dilemma state leave alone local revenue collections that are directed from source to Centre before expenditure and the districts have to request back to do any activity including emergencies like garbage management repairs and salaries making services delivery impossible to be efficient and effective in all ways at these levels The book is based on secondary data that reported on governance issues of the day as written in Ugandan media that were people s feelings as issues of the time as well some Journals observations and interviews The book introduces decentralization governance of Uganda identifies current state of affairs of service delivery presents why there was need for many new administrative units and their state now looks at history of parliament feudalism identifies lost pride of Ugandans proposes what regional tier governance can address as well as linking the past with today s Ugandan governance Finally the book proposes prerequisite regional tier power centres relevant to today s Uganda and concludes with models that can help us achieve vision 2040 and therefore proposes immediate need to implement regional tier governance that will establish all three arms of government at regional centres of Uganda remember it was agreed to be implemented by those that deemed it under article 178 3 It is apparent that all regions should therefore implement it as a solution to service delivery that is very poor now

Decentralization and School-based Management Daniel J. Decentralisation and Reform in Latin America Giorgio Brosio,Juan Pablo Jimenez,2012-01-01 This volume provides a splendid and wide ranging collection of studies analyzing the political economy of decentralization in Latin America It s a fascinating story with numerous and profound insights into how fiscal decentralization actually works in the context of a variety of fiscal institutions and in a setting with a high degree of inequality in the distribution of income and territorial disparities Wallace E Oates University of

Maryland US The volume on Decentralization and Reform in Latin America is an important addition to the growing literature on decentralization Some of the issues in the implementation and effectiveness of decentralization are similar all over the world but there are issues of particular salience to Latin America a region where decentralization reforms have come sometimes in the wake of major political reforms This volume pays special attention to the complexity of issues both relating to equity and efficiency arising in the context of vertical fiscal imbalance and inter governmental transfers in the delivery of social services or investment spending in the sharing of rent from natural resources among social and regional groups and in macro fiscal stabilization I expect the volume to receive widespread attention Pranab Bhardan University of California Berkeley US When it comes to fiscal decentralization in developing countries Latin America has long led the way In the two decades prior to the mid 1990s some countries in the region extensively decentralized expenditures especially social expenditures and to a much lesser extent revenues to subnational governments Some excesses and distortions resulted from these initial efforts and over the next decade major attempts were made to offset such problems primarily by changing fiscal rules and transfer systems The recent boom in natural resource revenues has again exacerbated pressure on the intergovernmental fiscal system in many countries leading to further attempts to adjust the flow of finance between governments in order to maintain macroeconomic balance while achieving both more effective service delivery and greater social cohesion This book which provides both description and analysis of the rich Latin American experience should be required reading not only for all those interested in the region but for scholars and policy makers anywhere who are concerned with the complex and many faceted issues associated with decentralization Richard M Bird University of Toronto Canada Giorgio Brosio and Juan Pablo Jim nez have made a remarkable job in preparing the best comprehensive treatment of comparative decentralization experiences in Latin America The volume reviews all aspects of the decentralization process its constitutional roots and its contribution to social cohesion the provision of social services and infrastructure taxation sharing in natural resource revenues and the design of the intergovernmental transfers and its macro financial implications and associated fiscal rules It will be essential reading for analysts of fiscal and local government issues in the region and a very useful tool for Latin Americanists in general Jos Antonio Ocampo Professor Columbia University Former Executive Secretary of the Economic Commission for Latin America and the Caribbean and Finance Minister of Colombia Decentralisation and Reform in Latin America analyses the process of intergovernmental reform in Latin America in the last two decades and presents a number of emerging issues These include the impacts of decentralization and the response of countries in the region to challenge such as social cohesion interregional and interpersonal disparities the assignment of social and infrastructure expenditure macrofinancial shocks fiscal rules and the sharing of natural resources revenue The main aim of the book is to assess the effective working of decentralized arrangements and institutions with a view of suggesting corrections and reforms where the system is not working according to expectations Policymakers researchers and academics

with an interest in subjects related to public policy fiscal rules intergovernmental relations governance and decentralization will find this book invaluable **Indonesia's Sustainable Development in a Decentralization Era** Indonesian Regional Science Association. International Conference, 2002 **Decentralization in South Indian States** G Palanithurai, 2015-06-06 The 73rd Constitutional Amendment is a milestone in the modern history of India and it has taken democracy to the grassroots It aims to transform the characteristics of our democracy from representative to representative and participatory democracy Before going into the details of the process of decentralization of powers in the states over a period it is necessary to explain the basic framework of decentralization of powers To operationalise the basic framework both letter and spirit the state governments have to take an array of steps that are fundamental and basic for the establishment of a local governance system By keeping the above framework in the last twenty years how decentralization took place in south Indian states Tamil Nadu Karnataka Andhra Pradesh and Kerala has been evaluated in this volume The four chapters have been written by G Palanithurai M Gobinath Reddy M Sivanna and Jos Chathukulam Along with the above state specific chapters there are a few chapters covering Panchayat finance in South Indian States and democratization in this volume written by B Devendra Babu and G Palanithurai respectively S N Sangita has written a chapter on Political regime Decentralized Governance and social security in south Indian states It is also included in this volume Further the chapter written by V N Alok on Devolution of Powers to Local Bodies has been incorporated in the present work Finally yet another paper on Decentralization of Powers Acceleration and Deceleration by G Palanithurai for a different journal has also been included Thus totally nine papers have been accommodated
