Decentralization and Self-Government in Russia, 1830-1870 Frederick S. Starr, 2015-03-08 The turbulent period of renewal and innovation that followed Russia's crushing defeat in the Crimea has been interpreted historically in terms of the emancipation of the serfs and the evolution of the gentry class But contends Frederick Starr such an approach underestimates the breadth and intensity of the impulse for local reforms per se After tracing the ideological sources of the reform Mr Starr examines in detail the legislative process by which administrative decentralization and public self government were instituted Originally published in 1972 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Decentralization in Regional Fiscal Systems in Russia Lev M. Freinkman, Plamen Yossifov, 1999

Local Politics and Democratization in Russia Cameron Ross, 2008-10-27 This comprehensive study of local politics in Russia shows that the key reforms of local government and the struggle to forge viable grassroots democracies have been inextricably linked to the wider struggle for power between the regions and the Kremlin and to the specific nature of Russia's highly politicized and negotiated form of asymmetrical federalism During the Yeltsin era all attempts to create a universal and uniform system of local self government in the federation were a failure Under the protection of their constitutions and charters and the extra constitutional rights and powers granted to them in special bilateral treaties regional leaders particularly in Russia's 21 ethnic republics were able to instigate highly authoritarian regimes and to thwart the implementation key local government

reforms Thus by the end of the Yeltsin era the number of municipalities their type status and powers varied tremendously from region to region Putin s local government reforms also need to be viewed as an integral component of his wider centralizing political agenda and his assault on the principles and practices of federalism With the instigation of his dictatorship of law and power vertical Putin has thwarted the development of grassroots democracy and overseen the creation of local electoral authoritarian regimes Putin s new system of local self government marks a victory for the proponents of the statist concept of local self government over those who championed the societal concept codified in Article 12 of the Russian Constitution Overall this book is an important resource for anyone seeking to understand politics in Putin s Russia

Federalism and Local Politics in Russia Cameron Ross, Adrian Campbell, 2008-10-27 This book examines federalism and regional and local politics in Russia Many commentators have alluded to the unique nature of Russia s dual transition and its difficult task of simultaneously reforming its economy and polity But there is in fact a third transition under way in Russia that is of no less importance the need to reconfigure central local relations and to create a stable and viable form of federalism Federal states are much more difficult to set up than unitary ones and forging a new federal system at the same time as privatising the economy and trying to radically overhaul the political system has clearly made Russia s transition triply difficult The book discusses how Vladimir Putin has re asserted the power of the centre in Russia and tightened the federal government s control of the regions It shows how contrary to his rhetoric about developing Russia as a free and democratic state authoritarianism has been extended through his reorganisation of the Federation Council his usurpation of powers to dismiss regional assemblies and chief executives and his creation of seven unelected super governors The book explores a wide range of issues related to these developments including a comparative study of Russian federalism and local politics ethnic federalism the merging of federal units regional governors electoral and party reforms and regional and local politics It also includes case studies of local and regional politics in specific regions

The History of Liberalism in Russia Victor Leontovitsch, 2012-01-15 Foreword by Aleksandr Solzhenitsyn Translated by Parmen Leontovitsch The influence of liberalism in tsarist Russia is deeply problematic to most historians In this highly original study Victor Leontovitsch offers a reinterpretation of liberalism in a uniquely Russian form He documents the struggles to develop civil society and individual liberties in imperial Russia up until their ultimate demise in the face of war revolution and the collapse of the old regime From Catherine the Great's proposal of freedom for serfs born after a predetermined year through the creation of zemstvos by Alexander II and the emergence of the State Duma and a quasi constitutional monarchy under Nicholas II Leontovitsch chronicles the ebb and flow of liberal thought and action in the difficult circumstances of tsarist Russia He cites numerous examples of debates over civil rights property laws emancipation local jurisdiction political rights and constitutional proposals Focusing on liberal reforms and reformers within the governing elite Leontovitsch draws important distinctions between factions of radical but fundamentally illiberal progressives and true but often concealed liberalism This is the first English language translation of Leontovitsch's monumental work which was originally published to critical acclaim in German in 1957 Aleksandr Solzhenitsyn sponsored a Russian edition in 1980 and his introduction is translated for the foreword of this edition With a wide readership in today's Russia *The History of Liberalism in Russia* continues to resonate as a penetrating analysis of the historical precedents of liberal thought and its potential as a counterweight to current autocratic tendencies and the uncertainties of Russia's political future

operation assisted the Indian program Operation Flood to develop the dairy industry in India This study examines the policy changes instituted to support the aid flow to the dairy sector and discusses the lessons learned and benefits realized through improved dairy production It also presents suggestions for improvement This program differs from other Bank efforts in that it focuses on a single commodity to alleviate poverty and raise living standards Toward a United States of Russia Dimitri Sergius Von Mohrenschildt, 1981 A comprehensive survey of the federal regional trend in nineteenth century Russian political and social thought and action The author shows conclusively that the decentralizing federal democratic trend in the nineteenth century was stronger than is generally realized *Decentralization in Client Countries*, 2008-01-01

Decentralization in Client Countries assesses the effectiveness of Bank support for decentralization between fiscal years 1990 and 2007 in 20 countries seeking to inform the design and implementation of future support Given the difficulties of measuring the results of decentralization the evaluation uses intermediate outcome indicators such as strengthened legal and regulatory frameworks for intergovernmental relations improved administrative capacity and increased accountability of subnational governments and functionaries to higher levels of government and to local citizens to assess the results of Bank support in these 20 cases To examine potential lessons at a sectoral level the evaluation also assesses whether Bank support for decentralization improved intermediate outcomes for service delivery in the education sector in 6 of the 20 countries

Governance, Decentralization and Reform in China, India and Russia Jean-Jacques Dethier, 2000-09-30 The papers in *Governance Decentralization and Reform in China India and Russia* which were presented at a ZEF conference in May 1999 deal with three critical aspects of governance in China India and Russia political reforms at the local level fiscal reforms in intergovernmental relations and legal reforms The volume collects contributions from 24 outstanding economists political scientists and legal specialists including Vito Tanzi Daniel Treisman Pranab Bardham Jean Dr ze Katharina Pistor and Kathryn Hendley Distorted economic and political incentive structures capture of the state by powerful elites and inoperative legal systems are factors that have greatly complicated the political economy of reform in these three large countries with heterogeneous populations Addressing these political and institutional issues is essential to designing good policies One particular goal of this volume is to bring together new analytical insights and empirical evidence on governance a new and growing field of research The volume is divided into three parts fiscal federalism decentralization and provision of local public goods and legal reforms Part I discusses the role of incentives in fiscal federalism The papers analyze the effects of different revenue sharing mechanisms between different levels of government in particular the effects on regional growth and inequality and the incentives that local politicians may have to provide public goods depending on fiscal arrangements with the central government In adapting their governance structures all three countries have been striving for increased decentralization But the theoretical literature suggests that in a decentralized setting second best solutions must prevail it is not possible to ensure incentive compatibility simultaneously with optimal allocation of resources and a balanced budget in

providing public goods Part II discusses taxation and public expenditure management both as a political and as a budgetary process Two questions which the papers address are Does participation of stakeholders and accountability of public authorities improve economic and social outcomes Does better governance in the provision of basic goods such as health care and education improve equity While decentralization is often seen as a way to improve the quality of public services rule based governance is viewed as a safeguard against the arbitrariness of public officials and weaknesses in law enforcement The five papers in Part III focus on the rule of law the role of the judicial system in establishing a rule based economy and the effectiveness of legal institutions during the transition from socialism to a market economy They present overviews of current legal reform issues in the three countries and discuss various conceptual approaches to addressing legal reform issues
