Deceptive Lights The History And Imminent Collap:

Deceptive Lights Steven Pacey, 2004-10 The battle between Satan and human beings began in the Garden of Eden and continues to this day Running conflicts between Christians and the dark lords perfected the skill and cunning of mankind's most dreaded enemies as the pages of history steadily advanced The endless acts of madness and insanity that broadcast themselves through everything from the major media to neighborhood conversations continually reveal that Satan and his demonic legions have indeed crowned themselves in the knighthood of evil The imminent emergence of the third Elijah and the dwindling time that precedes the Second Coming of Jesus will escalate the battle to its climactic conclusion Your survival will largely depend on your ability to learn to battle the evil monstrosities that will seek the destruction of all mankind an ability that can only come through the knowledge provided by God Neutrality and indifference will not protect you In the years that remain prior to the Second Coming of Jesus nature and many human beings will seemingly go insane as the evil ones throw every last desperate punch It will indeed be a time of fear and dread such as has never been seen in the history of mankind

Murders and Acquisitions Alzena MacDonald, 2013-08-29 The serial killer has become increasingly prevalent in popular culture since the term was coined by Robert Ressler at the FBI in the mid 1970s *Murders and Acquisitions* explores the social and political implications of this cultural figure The collection argues that the often blood chilling representations of the serial killer and serial killing offered in TV series films novels and fan productions function to address contemporary concerns and preoccupations Focusing on well known popular culture texts such as *The Wire* *Kiss the Girls* *Monster* *The Saw* series *American Psycho* *The Strangers* *CSI* and *Dexter* this eclectic anthology engages with a broad spectrum of cultural theory and performs critical textual analysis to examine the sophisticated ways the serial killer is deployed to mediate and or work through cultural anxieties and fears

World History in Real Light, *The Making of Terrorism in Pakistan* Eamon Murphy, 2013 This book explains the origins and nature of terrorism in Pakistan and examines the social political and economic factors that have contributed to the rise of political violence there Since 9 11 the state of Pakistan has come to be regarded as the epicentre of terrorist activity committed in the name of Islam The central argument of this volume suggests that terrorism in Pakistan has in essence been manufactured to suit the interests of mundane political and class interests and effectively debunks the myth of Islamic terrorism A logical consequence of this argument is that the most effective way of combating terrorism in Pakistan lies in addressing the underlying political social and economic problems facing the country After exploring the root causes of terrorism in Pakistan the author goes on to relate the historical narrative of the development of the Pakistani state to the theories and questions raised by Critical Terrorism Studies CTS scholars The book will therefore make an important contribution to CTS scholarship as well as presenting an analysis of the many complex factors that have shaped the rise of Pakistani terrorism This book will be of great interest to students of Critical Terrorism Studies Asian history and politics Security Studies and IR in general

Perception and Reality in the Modern Yugoslav

Conflict Brendan O'Shea, 2012-10-12 In this book the author has tried bridge the gap between the common perception of the Yugoslav conflict as portrayed in the media and the actual grim reality with which he was dealing as an EU monitor on the ground Drawing on original material from both UN and ECMM sources he has identified the true origin of Former Yugoslavia's wars of dissolution and critically examines the programme of violence which erupted in 1991 and eventually culminated in 1995 in the vicious dismemberment of a sovereign federal republic with seat at the United Nations In doing so he highlights the duplicitous behaviour of all parties to the conflict the double standards employed throughout by the United States in its foreign policy the lengths to which the Sarajevo government manipulated the international media to promote a victim status the contempt in which UN peace keepers were ultimately held by all sides and the manner in which Radovan Karadzic was sacrificed at the altar of political expediency when the real culprits were Slobodan Milosevic and his acolyte General Ratko Mladic This book the first by an EU Monitor with actual experience of the conflict tells the real story of the modern Yugoslav conflict 1991 1995 **The Collapse of Palatial Society in LBA Greece and the Postpalatial Period** Guy D.

international civil war Such perspective appeared even more plausible in the aftermath of the Second World War and of revolution in China which paved the way for the expansion of communism in the post colonial world Communism challenged the West in the Cold War by means of anti capitalist modernization and anti imperialist mobilization showing itself to be a powerful factor in the politicization of global trends However the international legitimacy of communism declined rapidly in the post war era Soviet power exposed its inability to exercise hegemony as distinct from domination The consequences of Sovietization in Europe and the break between the Soviet Union and China were the primary reasons for the decline of communist influence and appeal Since communism lost its political credibility and cultural cohesion its global project had failed The ground was prepared for the devastating impact of Western globalization on communist regimes in Europe and the Soviet Union

While Rome Burned Virginia M. Closs, 2020-05-06 While Rome Burned attends to the intersection of fire city and emperor in ancient Rome tracing the critical role that urban conflagration played as both reality and metaphor in the politics and literature of the early imperial period Urban fires presented a consistent problem for emperors from Augustus to Hadrian especially given the expectation that the princeps be both a protector and provider for Rome s population The problem manifested itself differently for each leader and each sought to address it in distinctive ways This history can be traced most precisely in Roman literature as authors addressed successive moments of political crisis through dialectical engagement with prior incendiary catastrophes in Rome s historical past and cultural repertoire Working in the increasingly repressive environment of the early principate Roman authors frequently employed figured speech and mythopoetic narratives to address politically risky topics In response to shifting political and social realities the literature of the early imperial period reimagines and reanimates not just historical fires but also archetypal and mythic representations of conflagration Throughout the author engages critically with the growing subfield of disaster studies as well as with theoretical approaches to language allusion and cultural memory
