*Decision-making in Geography* Keith A. Cowlard, 1998      *Learning to Teach Geography in the Secondary School* Mary Biddulph, David Lambert, David Balderstone, 2015-05-20

Learning to Teach Geography in the Secondary School has become the widely recommended textbook for student and new teachers of geography. It helps you acquire a deeper understanding of the role, purpose and potential of geography within the secondary curriculum and provides the practical skills needed to design, teach and evaluate stimulating and challenging lessons. It is grounded in the notion of social justice and the idea that all students are entitled to a high quality geography education. The very practical dimension provides you with support structures through which you can begin to develop your own philosophy of teaching and debate key questions about the nature and purpose of the subject in school. Fully revised and updated in light of extensive changes to the curriculum as well as to initial teacher education, the new edition considers the current debates around what we mean by geographical knowledge and what is involved in studying at Masters level. Key chapters explore the fundamentals of teaching and learning geography, Why we teach and what to teach, Understanding and planning the curriculum, Effective pedagogy, Assessment, Developing and using resources, Fieldwork and outdoor learning, Values in school geography, Professional development. Intended as a core textbook and written with university and school based initial teacher education in mind, Learning to Teach Geography in the Secondary school is essential reading for all those who aspire to become effective, reflective teachers. Praise for previous editions of Learning to Teach Geography in the Secondary School: This is a practical and visionary book as well as being superbly optimistic. It has as much to offer the experienced teacher as the novice and could be used to reinvigorate geography departments everywhere. Practical activities and ideas are set within a carefully worked out authoritative conceptual framework. The Times Educational Supplement. This is a modern, powerful, relevant and comprehensive work, a standard reference for many beginning teachers on geography initial teacher training courses. Educational Review.

*Effective Innovation in the Secondary Geography Curriculum* Charles Rawding, 2013-05-29

How up to date is your geographical thought? Are parts of your curriculum becoming tired and out dated? Effective Innovation in the Secondary Geography Curriculum will help training and practising secondary school teachers understand how to evaluate and refresh their curriculum in order to ensure that what they teach is relevant, topical and creative. Considering the latest developments in both the school geography curriculum and the field of geography as an academic discipline, this exciting new book explores how geography teaching and learning can be developed to engage secondary school pupils and better reflect contemporary society. Illustrated throughout with ideas and practical examples of how to update your curriculum easily and effectively, key topics covered include: Understanding curriculum theory and development, Auditing and developing your own dynamic interactive curriculum, Critiquing textbooks and resources to ensure relevance, Constructing and analysing schemes of work, Incorporating the latest developments in the field into your teaching, How to create innovative, enduring curricula for human

physical and environmental geographies Providing insights into the latest thinking in geography in a concise and accessible manner Effective Innovation in the Secondary Geography Curriculum will ensure motivating lively and successful geography teaching and learning *Learning to Teach Geography in the Secondary School* David Lambert, David Balderstone, 2012-08-21 *Learning to Teach Geography in the Secondary School* has become the widely recommended textbook for student and new teachers of geography It helps them acquire a deeper understanding of the role purpose and potential of geography within the secondary curriculum and provides the practical skills needed to design teach and evaluate stimulating and creative lessons This fully revised and updated second edition takes account of new legislation and important developments in geography education including literacy numeracy citizenship and GIS Brand new chapters in this edition provide essential guidance on fieldwork and using ICT in the context of geography teaching and learning Chapters on teaching strategies learning styles and assessment place the learner at the centre stage and direct advice and activities encourage successful practice Designed for use as a core textbook *Learning to Teach Geography in the Secondary School* is essential reading for all student teachers of geography who aspire to become effective reflective teachers Praise for the first edition of *Learning to Teach Geography in the Secondary School* This is a practical and visionary book as well as being superbly optimistic It has as much to offer the experienced teacher as the novice and could be used to reinvigorate geography departments everywhere Practical activities and ideas are set within a carefully worked out authoritative conceptual framework The Times Educational Supplement This is a modern powerful relevant and comprehensive work that is likely to become a standard reference for many beginning teachers on geography initial teacher training courses in England and Wales Educational Review **Issues in Geography Teaching** Chris Fisher, Tony Binns, 2016-01-28 *Issues in Geography Teaching* examines a wide range of issues which are of interest to those teaching geography from the early years through to higher education including the role of research and the use of ICT in teacher training the significance of developing critical thinking skills broader educational issues such as citizenship and development the importance of environmental education the position and role of assessment the present state and status of geographical education and issues that are likely to be of concern in the future *Issues in Geography Teaching* details the contexts presents the facts and raises thought provoking questions which should stimulate further interest and discussion *Teaching Primary Humanities* Russell Grigg, 2014-05-22 As primary subjects are increasingly being taught on an interdisciplinary level Russell Grigg and Sioned Hughes have created an innovative new text *Teaching Primary Humanities* This new text explores current debate encourages reflection and provides clear guidance on planning teaching and assessing the humanities from the Early Years to Key Stage 2 Through a blend of theory and real life examples Grigg and Hughes demonstrate the contribution that history geography and religious education can make to enhancing children s thinking literacy numeracy and ICT skills Whether you are a trainee or a practitioner this book will develop your knowledge of how young children s understanding of place time
