Basic Theory of Criminal Law Michiaki Ozaki, 2025-09-27 This book examines the underlying principles of criminal law both substantive and procedural law In continental law countries the analysis of substantive criminal law has relied heavily on concepts such as retribution and free will under the strong influence of German legal thought However these concepts often lack a scientific basis and mean little for the function of criminal law in the real world Norms prohibiting criminal conduct are not mere ideas but intersubjectively existent objects that affect human behavior and function in unique ways As such their force naturally depends on their enforcement These norms function as a determinant factor in the decisions made through human consciousness otherwise criminal law would have no deterrent effect However this does not mean that the freedom guaranteed in liberal democracy can be violated arbitrarily its protection must be the second principle of criminal law Based on these discussions this book proposes to take normative determinism and utilitarianism as the basis of analysis and to establish normative deterrence and the protection of freedom as the two pillars of criminal law With regard to procedural criminal law this book argues that we should look at the adversarial and inquisitorial systems in their actual function rather than focusing on their respective ideological doctrines and try to identify the common practical principles to be followed from a utilitarian point of view In these discussions the book extensively examines the historical background of the two systems and examines as an example the serious deficiencies of the current criminal justice system in the United States What is argued and proposed in this book is a creative application and development in the field of criminal law of the theory elucidated by H L A Hart and Jeremy Bentham

wildlife includes large mammals such as white rhinos elephants and lions Wildlife is a key revenue generator for the economies of many southern African Countries It supports local communities for traditional uses such as food medicine fuel and clothing Wildlife tourism is an important industry that brings benefits to private sector tourism businesses and local people alike Unfortunately wildlife in southern Africa is under increasing threat from illegal activities such as poaching and illegal wildlife trade Countries in the region are currently faced with a sharp increase in wildlife crime levels perpetuated by organized criminal syndicates mainly from south east Asia These syndicates work together with local counterparts and have established highly organised ways to evade law enforcement and traffic wildlife products to south east Asia Cultural beliefs and practices in south east Asia drive the demand for wildlife products from Africa Besides poaching and illegal wildlife trade other threats to wildlife in Southern Africa include human wildlife conflict and shrinking habitats Human wildlife conflict is exacerbated by water insecurity and increasing human populations which encroach into wildlife areas Poverty is also a problem in the region and this leads to communities depending directly on wildlife resources for their livelihoods This dependence on wildlife resources is now becoming unsustainable Increase in human population coupled with infrastructure development is also negatively impacting wildlife habitats in the region Because of this conservation and enforcement of protection are critical to ensure that wildlife species endure The Southern African Development Community SADC adopted the Protocol on Wildlife Conservation and Law Enforcement PWCLE in 1999 to establish a common framework for the conservation and sustainable use of wildlife resources in the region and to assist with the effective enforcement of the laws governing those resources Effective law enforcement is important in stopping loss of wildlife through illegal activity Prosecution is an important component of law enforcement as it ensures application of the law especially where there is a breach

Inquiry Into Crown Prosecution Service Decision-making in Relation to Deaths in Custody and Related Matters Gerald Butler, Great Britain. Crown Prosecution Service, 1999 Dated August 1999

The constitutional role of the Attorney General Great Britain: Parliament: House of Commons: Constitutional Affairs Committee, 2007-07-26 This report identifies the inherent tension within the role of the Attorney General where political ministerial functions have to be balanced with the provision of independent legal advice and the supervision of the prosecution service Although there is a need for accountability to Parliament and the public for the duties carried out there is also a need for reform to ensure clear lines of responsibility and remove the suspicion of political pressure The Committee therefore recommends that the duties of the Attorney General be split The purely legal functions should be carried out by an official who is outside party political life whilst a minister in the Ministry of Justice should carry out the ministerial duties
