the individual level The use of psychological methods of analysing the foreign policy decision making process proposes a necessary investigation path into international relations **Presidential Decisionmaking In Foreign Policy** Alexander L George,1980-02-21 0813325919 Presidential Personality and Performance **Foreign Policy Decision-making in Nigeria** Ufot Inamete,2001-05 This reality was a direct result of the nature of sociopolitical cleavages and forces and the functioning of the federal system of government during that period The succeeding Ironsi Governemnt was too brief and preoccupied with domestic crises to make significant impacts in the foreign policy arena BOOK JACKET **Decision-Making in American Foreign Policy** Nikolas K. Problem Representation in Foreign Policy Decision-Making Donald A. Sylvan,James F. Voss,1998-09-13 This volume explains the representation of a problem as well as the choice among specified options for its solution Influence (Supremacy) of Religion on Sudan's Foreign Policy Decision-Making Hassan B. Abdelwahab,2012-01-24 The books main theme is that nations like human beings have souls and minds The soul of a nation determines the way it thinks and acts or reacts in the international scene Equally those souls are open to influences such as religious ones but some are more receptive than others are The case under study Sudan reveals that an ancient religious heritage has a very strong bearing on the minds of all Sudanese including decision makers This discovery helps all other actors in the international scene to predict the behaviour of Sudanese politicians and decision makers US Foreign Policy Decision-Making from Kennedy to Obama A. Hybel,2014-03-13 This book analyzes the foreign policy decision making processes of Presidents John F Kennedy Lyndon B Johnson Richard Nixon George H W Bush George W Bush and Barack Obama during military intervention by way of contemporary foreign policy decision making models FPDMS **US Foreign Policy Decision-Making from Truman to Kennedy** A. Hybel,2014-03-12 The book has three objectives to expose students to the ways different US presidents handled major foreign policy making problems to test the explanatory value of alternative decision making models And to reintroduce students to a wide range of critical US foreign policy issues **Environmental Politics and Foreign Policy Decision Making in Latin America** Amy Below,2014-12-05 Although the Kyoto Protocol an international agreement to address global climate change has been regarded by many as an unsuccessful treaty both politically and environmentally it stands as one of the world s few truly global agreements Why did such a diverse group of countries decide to sign and or ratify the treaty Why did they choose to do so at different times and in different ways What explains their foreign policy behavior Amy Below s book builds off the increasing significance of climate change and uses the Kyoto Protocol as a case study to analyze foreign policy decision making in Latin America Below s study takes a regional perspective in order to examine why countries in Latin America made disparate foreign policy choices when they were faced with the same decision The book looks at the decisions in Argentina Mexico and Venezuela via a process tracing method Below uses information obtained from primary

and secondary documents and elite interviews to help reconstruct the processes and augments her reconstruction with a content analysis of Conference of the Parties speeches by presidents and country delegates The book complies with convention in the field by arguing that systemic national and individual level factors simultaneously impact foreign policy decisions but makes the additional claim that role theory most accurately accounts for relationships between variables Environmental Politics and Foreign Policy Decision Making in Latin America considers a variety of factors on individual national and international levels of analysis and show that the foreign policy decisions are best viewed through the prism of role theory The book also draws conclusions about the value of role theory in general and about environmental foreign policy decisions in developing countries which will be of value to both policy makers and academics **Foreign Policy**
