Decisive Battles Of World War II:

Decisive Battles of World War II, 1966 *Decisive Battles of World War II* Hans-Adolf Jacobsen, Jürgen Rohwer, 1965
Decisive Battles of World War II Hans Adolf Jacobsen, Jürgen Rohwer, 1965 This book is an account of the second world war from the German point of view written by German generals who were in command at the time as well as other German military experts Based on first hand German sources and available Russian material *Decisive Battles of World War II* Peter Young, 1989 *Decisive Battles* Len Cicutti, 1986 *Decisive battles of world war II; the German view; translated from the German by Edward Fitzgerald*, 1965 *Fatal Decisions* Seymour K. Freidin, 2013 *World History Readers* Rjurik Davidson, Aaron Jolly, 2017 ***Decisive Battles of World War II: The German View. Edited by H.A. Jacobsen and J. Rohwer. Introd. by Cyril Falls. Translated From the German by Edward Fitzgerald*** Hans Adolf Jacobsen, 1965
Decisive Battles of the Second World War Peter Young, 1967 *The Allure of Battle* Cathal J. Nolan, 2017 Stretching from Antiquity to the Second World War a major new work of history that examines how battles have been fought and reveals how wars have actually been won ***Decisive Battles of the Pacific War*** Antony Preston, 1979 Of all the battles fought in the Pacific in World War II nine stand out as the most important The nine battles presented in this highly illustrated and authoritative work edited by the noted naval historian Antony Preston are those which were noteworthy in both their scope and significance throughout the three and a half year os war against Imperial Japan Pearly Harbor drew the United States into the war with a surprise attack Coral Sea checked the Japanese advance Midway turned the tide of war in favor of the Allies Guadalcanal Philippine Sea Leyte Gulf the air war against Japan Iwo Jima and Okinawa broke the back of Imperial Japan and brought victory to the Allies The hand to hand fighting the atomic holocaust and the epic naval battles are told brilliantly by an international team of historians and illustrated with hundreds of photographs technical illustrations and maps some of them n color making this wwork a must for the library of any military historian or enthusiast whose interest is in World War II Jacket flap ***Professional Journal of the United States Army***, 1953 *The Pursuit of Victory* Brian Bond, 1998 In Western Europe and North America the idea that war can deliberately be used as an instrument of policy has become unfashionable not least because of the carnage of two World Wars and the Americans humiliating experience in Vietnam But wars are still fought Those who start wars clearly believe they are worthwhile Why In this original and provocative study Brian Bond discusses the successes and failures of military and political leaders in their pursuit of victory over the last two centuries Professor Bond argues that in order to be counted victorious a leader has to progress beyond military triumph to preserve the political control needed to secure an advantageous and enduring peace settlement Napoleon was a brilliant general but failed as a statesman Bismarck on the other hand was a success in skilfully exploiting Moltke s victories on the battlefield to create a unified Germany In the First World War Germany and her allies were defeated but at such great cost that confidence in the idea that war could be controlled and the pursuit of victory made rational received a

terrible shock Germany and Japan exploited their military opportunities between 1939 and 1942 but lack of political control and moderation brought them catastrophic defeat After 1945 nuclear weapons and the increased complexity of international relations blurred the identity of victors and losers and seemed to make the idea of a decisive victory almost unthinkable But this study warns against the assumption that war as an instrument of policy has now been completely discarded The Falklands and Gulf conflicts show that aggressors are still prepared to risk war for tangible goals and that their opponents are quite capable of responding successfully to such challenges **100 Decisive Battles** Paul K. Davis, 2001 Surveys the one hundred most decisive battles in world history from the Battle of Megiddo in 1469 B C to Desert Storm 1991
