*Decline of the English Murder* George

Orwell,2009-08-27 In these timeless and witty essays George Orwell explores the English love of reading about a good murder in the papers and laments the passing of the heyday of the perfect murder involving class sex and poisoning as well as unfolding his trenchant views on everything from boys weeklies to naughty seaside postcards Throughout history some books have changed the world They have transformed the way we see ourselves and each other They have inspired debate dissent war and revolution They have enlightened outraged provoked and comforted They have enriched lives and destroyed them Now Penguin brings you the works of the great thinkers pioneers radicals and visionaries whose ideas shook civilization and helped make us who we are

**The Best Murders Are British** Jim Daems,2020-08-07 A staple of television since the early years of the BBC British crime drama first crossed the Atlantic on public broadcasting stations and specialty cable channels and later through streaming services Often engaging with domestic anxieties about the government s power or lack thereof and with larger issues of social justice like gender equality racism and homophobia it has constantly evolved to reflect social and cultural changes while adapting U S and Nordic noir influences in a way that retains its characteristically British elements This collection examines the continuing appeal of British crime drama from *The Sweeney* through *Sherlock* *Marcella* and *Happy Valley* Individual essays focus on male melodrama nostalgia definitions of community gender and LGBTQ representation and neoliberalism The persistence of the English murder as each chapter of this collection reveals points to the complexity of British crime drama s engagement with social political and cultural issues It is precisely the mix of British stereotypes coupled with a willingness to engage with broader global social and political issues that makes British crime drama such a successful cultural export

The Cambridge Companion to the English Short Story Ann-Marie Einhaus,2016-06-06 This Companion provides an accessible overview of the contexts periods and subgenres of English language short fiction outside of North America

**Fighting for the United States, Executed in Britain** Simon Webb,2021-07-21 This book relates a chapter of American military history which many people would rather forget When the United States came to the aid of Britain in 1942 the arrival of American troops was greeted with unreserved enthusiasm but unfortunately wartime sometimes brings out the worst as well as the best in people A small number of the soldiers abused the hospitality they received by committing murders and rapes against British civilians Some of these men were hanged or shot at Shepton Mallet Prison in Somerset which had been handed over for the use of the American armed forces Due to a treaty between Britain and America those accused of such offences faced an American court martial rather than a British civilian court which gave rise to some curious anomalies Although rape had not been a capital crime in Britain for over a century it still carried the death penalty under American military law and so the last executions for rape in Britain were

carried out at this time in Shepton Mallet Fighting For the United States Executed in Britain tells the story of every American soldier executed in Britain during the Second World War The majority of the executed soldiers were either black or Hispanic reflecting the situation in the United States itself where the ethnicity of the accused person often played a key role in both convictions and the chances of subsequently being executed      **An English Murder** Louise Doughty,2000 When a respectable middle aged couple are discovered dead on their kitchen floor and their teenage daughter is missing a young reporter sees the double murder as a way to sell a big story to national papers      **Selected Essays** George Orwell,2021 This volume contains the best essays by one of the best English essayists George Orwell has become famous all over the world for Animal Farm and Nineteen Eighty Four but throughout his writing life he was also a prolific journalist and essayist He wrote brilliantly about politics about literature and about contemporary cultural life always with that steely honesty and intolerance of cant which were the hallmarks of his direct limpid prose Stefan Collini s collection brings together nineteen essays including such well known pieces as Shooting an Elephant Charles Dickens Politics and the English Language and Lear Tolstoy and the Fool A substantial introduction situates Orwell s writing in its historical context and analyses the distinctive features of his style while extensive notes explain historical allusions and identify his sources and quotations Klappentext

*Communicational Criticism* Roger D. Sell,2011 Further developing the line of argument put forward in his Literature as Communication 2000 and Mediating Criticism 2001 Roger D Sell now suggests that when so called literary texts stand the test of time and appeal to a large and heterogeneous circle of admirers this is because they are genuinely dialogical in spirit Their writers rather than telling other people what to do or think or feel invite them to compare notes and about topics which take on different nuances as seen from different points of view So while such texts obviously reflect the taste and values of their widely various provenances they also channel a certain respect for the human other to whom they are addressed So much so that they win a reciprocal respect from members of their audience In Sell s new book this ethical interplay becomes the focus of a post postmodern critique which sees literary dialogicality as a possible catalyst to new non hegemonic kinds of globalization The argument is illustrated with major reassessments of Shakespeare Pope Wordsworth Dickens Churchill Orwell and Pinter and there are also studies of trauma literature for children and of ethically oriented criticism itself

**Handbook of European Homicide Research** Marieke C. A. Liem,William Alex Pridemore,2011-10-17 This comprehensive work provides a sourcebook of information about the substantive methodological and policy oriented aspects of homicide research in Europe Part one of this work covers the most recent substantive and methodological information about European homicide research The second part will contains detailed case studies on homicide research in 15 20 individual European nations This work will be both conceptual and practical conceptual and practical Conceptual aspects will focus on theoretical frameworks and patterns and trends of violence in Europe Practical aspects will examine the results of empirical research topics relating to different data sources and the variation of legal definitions of violence throughout
