Citizen Politics Joanna Marie Everitt, Brenda Lee O'Neill, 2002. The study of political behaviour in Canada has often focused largely on parties and voting. Citizen Politics seeks to expand that definition of political behaviour to encompass behaviouralism as a method of inquiry as well as a focus of inquiry which includes political culture, public opinion, voting and elections, political participation, leaders and activists, and interest groups and social movements. In the past fifteen years since a Canadian political behaviour text was last published, the field has changed immensely and this collection reflects these changes. Women are examined as independent political actors, the importance of the media to voting and elections is investigated, the uniqueness of immigrant and ethnic minority participation in Canadian politics is discussed, and new social movements are examined. Each section begins with an essay that synthesizes the important research and arguments that inform each subfield. These are followed by two or more essays of original contemporary research which inform students of critical new approaches and provide examples of how research in the field of political behaviour is conducted. The editors begin the volume with an essay that discusses what political behaviour is, how the study is done, and why it is important as a field of study, and they end the book with an examination of the state of the field in Canada today and an assessment of tomorrow's challenges.

Canadian Parties in Transition, Fifth Edition Alain-G Gagnon, Brian Tanguay, 2024-10-01. The fifth edition of *Canadian Parties in Transition* continues and enriches the work of earlier editions in bringing together a highly respected group of scholars to offer a comprehensive account of the development of party politics in Canada. The book addresses the origin and the evolution of the Canadian party system and discusses how that system has been impacted by regionalism, brokerage politics, and political marketing. It focuses on the competing ideological currents that occupy the political stage while also paying attention to the role of third parties in federal politics. Contributors address the representation and democracy through an exploration of voting systems, direct democracy, the role occupied by constituencies, gender politics, and the distinct Quebec dynamics in the federal party system. Finally, the book analyses topical issues such as electoral participation, social movements, right-wing populist parties, political campaigning, and digital party politics. This new edition has been thoroughly revised and updated to reflect ongoing transformations and includes nineteen new contributing authors and coverage of seven new topics. *Canadian Parties in Transition* presents a multi-faceted image of party dynamics, electoral behaviour, political marketing, and representative democracy.

European Politics Klaus H. Goetz, Peter Mair, Gordon Smith, 2013-09-13. This book arises out of a specially

commissioned issue of West European Politics marking the journal's 30th anniversary. It examines the profound changes in the European political landscape over the last three decades including the fall of Communism, progressive European integration, territorial restructuring, public sector reforms at European, national, regional, and local levels, changes in democratic participation, protest elections, political communication, political parties and party competition, and challenges to the welfare state. The book also discusses how political science has responded to these changes in terms of its substantive focus, concepts, methods, and theories. Many of the 17 contributions included identify important challenges for the future, including those stemming from EU integration, the reduced electoral accountability of politicians, the problematic legitimization of party government, and the sharpening of the edges of the state. Contributors include K. A. Anderson, F. C. Castles, C. Crouch, M. Egeberg, M. Ferrera, H. Goetz, L. Hooghe, E. M. Immergut, R. F. Inglehart, M. Keating, H. D. Klingemann, H. Kriesi, M. Lodge, J. Lovenduski, P. Mair, G. Marks, Y. M. Ny, L. Morlino, H. Obinger, V. A. Schmidt, P. C. Schmitter, and G. Smith. This book was published as a special issue of West European Politics.

Rights and Parliamentary Systems in Canada and Beyond Emmett Macfarlane, 2025-08-26. Rights and Parliamentary Systems in Canada and Beyond brings together political scientists and legal scholars to explore rights and their limitations along with the governmental and legislative processes affecting them within Canada's parliamentary system. It also examines how these elements shape broader institutional relationships under the Canadian Charter of Rights and Freedoms and in comparative perspective. This interdisciplinary volume offers valuable in-depth analyses of timely issues, cases, and controversies involving rights and institutional dynamics. The book employs an array of methods including legal analysis, qualitative case studies, content analysis, legal theory, research interviews, and policy analysis. With a forward-looking perspective, Rights and Parliamentary Systems in Canada and Beyond investigates how rights-based processes influence specific policies and offers new insights into the framing of rights, including administrative law and Aboriginal treaty rights during the COVID-19 pandemic. It also explores how aspects of parliamentary democracy affect governments, legislators, and the public. The book ultimately reveals how the institutional relationships at stake operate to protect or fail to protect rights in relation to government policy objectives.

Limits to Liberalization Patricia M. Goff, 2007. The so-called culture industries—film, television, and radio broadcasting, periodical and book publishing, video and sound recording—are noteworthy exceptions to the rhetorical commitment of Western countries to free trade as a major goal. These exceptions threatened to derail such high-profile negotiations as NAFTA and its predecessor, the Canada-US Free Trade Agreement, as well as the Uruguay Round of the GATT. Conventional wisdom did not foresee trouble from this source because these established industries are not commercial national champions nor are they particularly large providers of jobs. As Patricia M. Goff shows, the standard trade literature considers the monetary value but doesn't recognize the symbolic importance of cultural production. In *Limits to Liberalization*, she traces the interplay between the commercial and the cultural. Governments that want to expand free trade may simultaneously resist liberalization in the culture industries and

elsewhere including agriculture and health care Goff traces the rationale for cultural protectionism in the trade policies of Canada France and the European Union The result is a larger understanding of the forces that shape international trade agreements and a book that speaks to current theoretical concerns about national identity as it plays out in politics and international relations

International Criminal Justice Delbert Rounds, 2000 International Criminal Justice examines some of the world's most current and pressing issues in the field of criminal justice The articles included are written by leading criminologists currently studying and conducting research in the field As such all of the selections have evolved from previously unpublished research Topics include political corruption state funded terrorism drug trafficking domestic violence nuclear proliferation money laundering policing juvenile delinquency correctional systems capital punishment and gun control policy
