struggle for hegemony embedded in this process The study also traces the origins of conservatism as an ideology especially in the context of the post Second World War period The outcomes of this research are structured across three dimensions A definition of limited conservatism within the analytical framework and its connection to Turkish conservatism The interplay between authoritarianism and the rise of conservatism in Turkey The relationship between conservative intellectuals and the hegemonic discourses of their respective eras By examining these dimensions the study provides a nuanced understanding of how conservative intellectuals have navigated and shaped Turkey's socio cultural transformations across distinct historical periods

Writing Queer Women of Color
Monalesia Earle, 2019-08-16. Queer women of color have historically been underrepresented or excluded completely in fiction and comics. When present, they are depicted as less than the white Eurocentric norm. Drawing on semiotics, queer theory, and gender studies, this book addresses the imbalanced representation of queer women of color in graphic narratives and fiction and explores ways of rewriting queer women of color back into the frame. The author interrogates what it means to be Other and how Othering can be more creatively resisted.

Gender and Discourse Ruth Wodak, 1997-10-28. The contributors to this collection offer an essential introduction to the ways in which feminist linguistics and critical discourse analysis have contributed to our understanding of gender and sex. By examining how these perspectives have been applied to these concepts, the contributors provide both a review of the literature as well as an opportunity to follow the most recent debates in this area. *Gender and Discourse* brings together European, American, and Australian traditions of research. Through an analysis of a range of real data, the contributors demonstrate the relevance of these theoretical and methodological insights for gender research in particular and social practice in general.

Shâmaran Dilsa Deniz, 2024-04-30. Shâmaran, The Neolithic Eternal Mother, Love, and the Kurds, covers one of the earliest ancient figures of Mother Earth, Shâmaran of the Zagros Mountains, which is at the crossroads of Iran, Anatolia, and Mesopotamia and has historically been a melting pot of diverse groups contributing to the formation of the Kurdish nation. This unique convergence has played a pivotal role in shaping the rich history, culture, language, and the very essence of their homeland, Kurdistan. Shâmaran is the significant religiocultural symbol serving as a poignant embodiment of this heritage. The book meticulously documents, deconstructs, and interprets Shâmaran's myth and her Neolithic image, recognizing their profound significance as manifestations of the Mother Earth Goddess. The study details the philosophy and symbolism of her faith, deciphers the content in the region within the existing pre-Islamic Kurdish religions, namely Alevism, Yarsanism, and Zidism, and Kurdish culture as a whole.
