Walking Through Deconstruction Ian Harber, 2025-01-14 However you define it deconstruction is impossible to deny Ian Harber knows the fear and grief of deconstruction firsthand Here he tells the story of his own process of deconstruction and reconstruction over ten years and lays out a vision for a faith environment that can foster genuine reconstruction through healthy relationships *Treatise on Wisdom - 4* Tomás Morales y Durán, 2020-11-04

Suffering is similar to a terrible toothache While it s present and intense it becomes an obvious priority nothing is more important nothing is more urgent However once it is overcome and the period of relief having passed the suffering ends up being forgotten and with that forgetting it ceases to matter The next goal eradicating Ignorance now appears as a desirable goal because there is no better motivation than the desire to learn Learning to know The Noble Eightfold Path stops making sense He is the boat that has taken us to the other shore and is no longer useful Now is the time to see things as they really are and that is achieved by exploring the new lands This is the time to take on challenges *Mother-Scholar* Yvette V. Lapayese, 2012-10-21 Mother Scholar presents another way of knowing The book illuminates the narratives of prominent mother scholars in the discipline of education who are determined to re imagine a different educational space not only for

their own children but for all children Today s schools are male centered institutions in which standardized testing rational mind and emotionless space prevent children from realizing their full potential as creative intelligent and soulful beings Mother scholars in the discipline of education assert that when motherhood and intellect confront and inform each other a new thinking emerges to capture the possibility of humanizing education beyond the private relationships between mothers and children

Deconstructing Sacramental Theology and Reconstructing Catholic Ritual Joseph Martos,2015-05-12 Catholic sacramental doctrine has lost much of its credibility Baptized people leave the church adolescents stop attending shortly after they are confirmed supposedly indissoluble marriages regularly dissolve few go to confession and many do not believe in transubstantiation Drawing upon his decades long study of the sacraments Martos reveals how teachings that seemed rooted in the scriptures and Catholic life have become unmoored from the contexts in which they arose and why seemingly eternal truths are actually historically relative After carefully constructing Catholic teaching from the church s own documents he deconstructs it by demonstrating how biblical passages were misconstrued by patristic authors and how patristic writings were misunderstood by medieval scholastics The long process of misinterpretation culminated in the dogmatic pronouncements of the Council of Trent which continues to dominate Catholic thinking about the church s religious

ceremonies If the sacraments are released from their dogmatic baggage Martos believes that the spiritual realities they symbolize can be celebrated in any human culture without being tied to their traditional rites Making Sense of Mind Only William S. Waldron, 2023-11-07 Through engaging contemporary examples Making Sense of Mind Only reveals the Yogacara school of Indian Buddhism as a coherent system of ideas and practices for the path to liberation contextualizing its key texts and rendering them accessible and relevant The Yogacara or Yoga Practice school is one of the two schools of Mahayana Buddhism that developed in the early centuries of the common era Though it arose in India Mahayana Buddhism now flourishes in China Tibet Korea Vietnam and Japan While the other major Mahayana tradition the Madhyamaka Middle Way focuses on the concept of emptiness that all phenomena lack an intrinsic essence the Yogacara school focuses on the cognitive processes whereby we impute such essences Through everyday examples and analogues in cognitive science author William Waldron makes Yogacara's core teachings on the three turnings of the Dharma wheel the three natures the storehouse consciousness and mere perception accessible to a broad audience In contrast to the common characterization of Yogacara as philosophical idealism Waldron presents Yogacara Buddhism on its own terms as a coherent system of ideas and practices with dependent arising its guiding principle The first half of Making Sense of Mind Only explores the historical context for Yogacara's development Waldron examines early Buddhist texts that show how our affective and cognitive processes shape the way objects and worlds appear to us and how we erroneously grasp onto them as essentially real perpetuating the habits that bind us to samsara He then analyzes the early Madhyamaka critique of essences This context sets the stage for the book's second half an examination of how Yogacara texts such as the Samdhinirmocana Sutra and Asanga's Stages of Yogic Practice Yogacarabhumi build upon these earlier ideas by arguing that our constructive processes also occur unconsciously Not only do we collectively yet mostly unknowingly construct shared realities or cultures our shared worlds are also mediated through the storehouse consciousness alayavijana functioning as a cultural unconscious Vasubandhu's Twenty Verses argues that we can learn to recognize such objects and worlds as mere perceptions vijaptimatra and thereby abandon our enchantment with the products of our own cognitive processes Finally Maitreya's Distinguishing Phenomena from Their Ultimate Nature Dharmadharmatavibhanga elegantly lays out the Mahayana path to this transformation

Levinasian ethic as a paradigm for comparison or interpretation are used as a framework Furthering our understanding of the relationship between deconstruction and the ethical in Asian traditions this book also enriches the contemporary ethical discourse from a global perspective by bridging Asia and the West **Deconstructing Toxic Masculinity** Carlos Perez, 2025-06-30 This accessible book explores toxic masculinity looking at how to define it and how we can and should challenge its spread This book draws on Derrida's deconstruction using the philosophical lens to deconstruct what toxic masculinity means and to better understand its significance for our society It focuses on how harmful aspects of masculinity spread infiltrate and intoxicate our societies and how existing structures allow aspects of harmful masculinity to become toxic This book also features discussions and analysis of participants' lived experiences of masculinities alongside the author's reflections It explores the relevance of toxic masculinity in work environments politics relationships and gender roles and seeks to challenge and mitigate its damages for everyone Encouraging critical thinking and understanding of healthier ways of being for all this timely book will be of interest to therapists counselors teachers and practitioners of family studies It will also be useful reading for students in the fields of psychology gender studies sociology and related fields
