Impossibility of Transitional Justice pursues a comprehensive theoretical inquiry into the foundation and evolution of transitional justice Presenting a detailed deconstruction of the role of law in transition the book explores the reasons for resistance to transitional justice It explores the ways in which law itself is complicit in perpetuating conflict and asks whether a narrow vision of transitional justice underpinned by a strictly normative or doctrinal concept of law can undermine the promise of justice Drawing on case material as well as on perspectives from a range of disciplines including law political science anthropology and philosophy this book will be of considerable interest to those concerned with the theory and practice of transitional justice Who Benefits From Special Education? Ellen A. Brantlinger, 2006-08-15 Who Benefits From Special Education Remediating Fixing Other People's Children addresses the negative consequences of labeling and separating education for students with disabilities the cultural biases inherent in the way that we view children's learning difficulties the social construction of disability the commercialization of special education and related issues The theme that unifies the chapters is that tension exists between professional ideology and practice and the wishes and expectations of the recipients of professional practice children adolescents and adults with disabilities and their families These voices have rarely taken center stage in formulating important decisions about the quality and characteristics of appropriate practice. The dominant view in the field of special education has been that disability is a problem in certain children rather than an artifact that results from the general structure of schooling it does not take into consideration the voices of people with disabilities their families or their teachers Offering an alternative perspective this book deconstructs mainstream special education ideologies and highlights the personal perspectives of students families and front line professionals such as teachers and mental health personnel It is particularly relevant for special education disabilities studies graduate students and faculty and for readers in general education curriculum studies instruction theory and critical theory Theory after Derrida Kailash C. Baral, R. Radhakrishnan, 2018-04-17 A critical anthology that re examines Jacques Derrida's thought by way of theory and praxis this volume reflects on his striking legacy and the future of theory Among contemporary thinkers Derrida challenges not only our ways of thinking but also hitherto methods of inquiry This book captures how Derrida renovates and re energises philosophy by questioning the fundamental assumptions of Western philosophical thought By doing so he exposes the intricate lie behind binaries such as speech writing nature culture male female black white literature criticism etc which have continued to shape our worldview where a hegemonic centre is always already in place dominating or marginalising the other A significant contribution to literary theory this book explores not only the status of Derrida's contribution as a critical thinker but also the status of critical theory as such in the contemporary milieu The central question that it asks is whether we should dismiss Derrida as a thinker who espoused an extreme form of relativism bordering on nihilism or has he something fundamental to contribute to the future of theory Could it be that deconstruction is not destruction but a possibility that casts doubts on whether the present can have faith in future This second edition includes a new Postscript

Beckett and Poststructuralism Anthony Uhlmann,1999-09-02 In Beckett and Poststructuralism Anthony Uhlmann offers a reading of Beckett in relation to French philosophy particularly the work of Foucault Deleuze and Guattari Levinas and Derrida Uhlmann offers a work of literary criticism that is also a piece of intellectual history emphasizing how Beckett develops a kind of critical thinking which differs from yet is just as powerful as that of philosophers who along with Beckett found themselves faced with sets of ethical problems which were thrown into sharp relief in post war France Uhlmann explores the links between ethics and physical existence in Beckett Foucault and Deleuze and Guattari and between ethics and language in Beckett Derrida and Levinas showing how post war French philosophy was powerfully affected by Beckett s work Literature is not reduced to philosophy or vice versa rather Uhlmann considers how they interrelate and overlap informing and deforming one another and how both encounter history

Williams, Bruce A. Arrigo, 2012-09-22 Throughout history social and intellectual crises have given rise to compelling suggestions for reform steeped in various progressive sensibilities For example within the discipline of criminology particularly during the 1980 s and 1990 s a number of unconventional theoretical perspectives emerged that sought to challenge many of the assumptions embedded within its own mainstream discourse and to propose alternative solutions for meaningful sustainable change Conceived of as critical in overarching orientation these efforts to rethink the foundations of criminological verstehen can be traced to several specific theoretical and methodological strands of inquiry e g anarchism peacemaking chaos theory postmodernism Though distinct in some respects these emerging models are linked paradigmatically by their shared discontent with conventional criminological thought and by their radicalized posture toward existing and previously unexamined epistemic crises Collectively this is an agenda for reform that seeks to establish a more humane and just social order particularly as citizens and society confront the institutional and communal problems posed by crime delinquency and deviance Theory Justice and Social Change Theoretical Integrations and Critical Applications represents a provocative series of essays that systematically reviews or extends the role of critical social theory in fostering justice and change in several relevant though problematic social contexts Mindful of the need to address both conceptual exegeses and pragmatic concerns the articles contained in this volume grapple with the ongoing double crisis that confronts

theory and practice in the construction of knowledge By appropriating and integrating various insights from several heterodox and critically animated lines of inquiry each chapter deftly exposes where and how conventional sociological and criminological thought has failed toeffectively address such human social issues as homelessness mental illness minority rights juvenile justice global violence and criminal punishment In doing so Theory Justice and Social Change provides new and much needed direction regarding theory development in the social sciences and indicates why charting such a course of theory action yields more enlightened prospects for justice and change in society and in our lives
