Bluestockings Now! Deborah Heller, 2016-03-03 Bringing together top specialists in the field this edited volume challenges the theory that the eighteenth century British intellectual women known as the Bluestockings were an isolated phenomenon spanning the period from the 1750s through the 1790s On the contrary the contributors suggest the Bluestockings can be conceptualized as belonging to a chain of interconnected networks taking their origin at a threshold moment in print media and communications development and extending into the present The collection begins with a definition of the Bluestockings as a social role rather than a fixed group a movement rather than a static phenomenon an evolving dynamic reaching into our late modern era Essays include a rare transcript of a Bluestocking conversation new previously unknown Bluestockings brought to light for the first time and descriptions of Bluestocking activity in the realms of natural history arts and crafts theatre industry travel and international connections The concluding essay argues that the Blues reimagined and practiced women s work in ways that adapted to and altered the course of modernity decisively putting a female imprint on economic social and cultural modernization Demonstrating how the role of the Bluestocking has evolved through different historical configurations yet has structurally remained the same the collection traces the influence of the Blues on the Romantic Period through the nineteenth century and proposes the reinvention of Bluestocking practice in the present **Women of the Ming Dynasty** Layla Gupta, The Ming Dynasty spanning from 1368 to 1644 was a period marked by significant social political and cultural transformations in China During this time the status of women was deeply influenced by Confucian ideals which emphasized patriarchal structures filial piety and the subordination of women to men These values shaped the roles that women played in both public and private spheres defining their identities and limiting

their opportunities for autonomy In the family women were primarily valued for their roles as daughters wives and mothers Their primary function was to maintain the household produce heirs and ensure the continuity of family lineage The Confucian concept of three obediences dictated that a woman must obey her father in her youth her husband in marriage and her sons in old age This hierarchical structure reinforced a woman s dependence on male family members throughout her life While the family was central to a woman s role in society marriage was another defining aspect of her life Marriages were often arranged by parents and the bride had little say in the choice of her husband This practice was deeply embedded in the Confucian social order which valued family alliances over individual desires Women were expected to fulfill their duties within the marriage maintaining the household and raising children with little opportunity for personal ambition or career aspirations

Traditional Industry in the Economy of Colonial India Tirthankar Roy, 1999-11-04 The majority of workers in South Asia are employed in industries that rely on manual labour and craft skills Some of these industries have existed for centuries and survived great changes in consumption and technology over the last 150 years In earlier studies historians of the region focused on mechanized rather than craft industries arguing that traditional manufacturing was destroyed or devitalized during the colonial period and that modern industry is substantially different Exploring new material from research into five traditional industries Tirthankar Roy s book contests these notions demonstrating that while traditional industry did evolve during the Industrial Revolution these transformations had a positive rather than destructive effect on manufacturing generally In fact the book suggests the major industries in post independence India were shaped by such transformations Tirthankar Roy s book offers new and penetrating insights into India s economic and social history [Shell Craft](#) Virginie Fowler Elbert, 2013-01-09 Easy to follow instructions for decorative boxes mirror frames soap dishes jewelry napkin holders paperweights much more Profusely illustrated Includes list of supply sources [Catalog of Copyright Entries.
