Decoy Courtney Huddleston, Buddy Scalera, 2003 YA It compiles the original four issue mini series into an extraterrestrial graphic novel Pranks bad jokes and saving the earth 11 yrs Zendra 2.0 Penny-Farthing, Martin Montiel, J. C. Buelna, Stuart Moore, 2003-03 Propaganda and Information Warfare in the Twenty-First Century Scot Macdonald, 2006-12-05 This is the first book to analyze how the technology to alter images and rapidly distribute them can be used for propaganda and to support deception operations In the past propagandists and those seeking to conduct deception operations used crude methods to alter images of real people events and objects which could usually be detected relatively easily Today however computers allow propagandists to create any imaginable image still or moving with appropriate accompanying audio Furthermore it is becoming extremely difficult to detect that an image has been manipulated and the Internet television and global media make it possible to disseminate altered images around the world almost instantaneously Given that the United States is the sole superpower few if any adversaries will attempt to fight the US military conventionally on the battlefield Therefore adversaries will use propaganda and deception especially altered images in an attempt to level the battlefield or to win a war against the United States without even having to fight militarily Propaganda and Information Warfare in the 21st Century will be of great interest to students of information war propaganda public diplomacy and security studies in general **Peter M.
