Deeltijdarbeid Mythe Real:

Deeltijdarbeid Lei Delsen, 1986 Deeltijdarbeid staat de laatste jaren sterk in de belangstelling Dit blijkt ondermeer uit de groeiende stroom van publicaties op dit gebied en de feitelijke toename van het aantal deeltijdwerkers Deeltijdarbeid is n van de wegen waarlangs herverdeling van arbeid tot stand kan worden gebracht Voorts kan deeltijdarbeid een bijdrage leveren aan een evenwichtiger verdeling van taken tussen mannen en vrouwen thuis en buitenshuis en aan de verhoging van de flexibiliteit en daarmee de efficiëntie van een organisatie Veel van de bestaande belemmeringen op de invoering van deeltijdarbeid hangen samen met de onbekendheid ermee Op ondernemingsniveau komt deze onbekendheid tot uitdrukking in vragen als hoe en waar pas ik deeltijdarbeid in mijn organisatie in welke gevolgen heeft de invoering van deeltijdarbeid voor het functioneren van mijn organisatie en wat zijn de werkelijke kosten en baten van deeltijdarbeid Voor de individuele werknemer uit zich de onbekendheid met deeltijdarbeid in vragen op het gebied van de arbeidsvoorwaarden en de rechtspositie Op maatschappelijk niveau kunnen de volgende vragen worden gesteld onder welke voorwaarden leidt deeltijdarbeid tot een vermindering van de geregistreerde werkloosheid en onder welke voorwaarden tot een herziening van het rollenpatroon hoe verhouden zich deeltijdarbeid en arbeidstijdverkorting welke invloed heeft deeltijdarbeid op de informele economie welke effecten hebben de bestaande wettelijke regelingen op de ontwikkeling van deeltijdarbeid Deze studie tracht antwoord te geven op voornoemde vragen Naast een inventarisatie van mogelijkheden en gevolgen van deeltijdarbeid op macro meso en micro niveau worden de belemmerende factoren op deze drie niveaus aan de orde gesteld en worden mogelijke oplossingen aangedragen *Key to Economic Science and Managerial Sciences*, 1986 Semi monthly review with annual indexes of abstracts on economics finance trade industry foreign aid management marketing labour

Albeda, Mark D. Ten Hove, 1986 The welfare state as we know it today is in a crisis There are many reasons for this and it is surely not the result of just one or two of the causes mentioned in this volume But whether it is due to the financial crisis and whether temporary by nature the question arises as to what to do about it When for example the social security system has obviously been over stretched we have to decide on what to do next abolition of the total security system reshape it or simply cut back on a few items And if so which items And how do we deal with the legitimacy crisis or if it exists the institutional one The answers to most of these questions have ideological implications and are fundamental to the future of the welfare state

Library (Brussels, Belgium), 1987 **Local Initiatives** Alan S. Sutton, 1987 Amid the economic gloom of the seventies as most of us were lamenting the loss of economic growth and the seeming impotence of mainstream macro economic policies to put things to rights a little hope was kindled by some enterprising people in the shape of development initiatives undertaken at the local level With the conviction growing that the small enterprise sector contributes the lion s share of new jobs it was envisioned by many that several economic and social problems unemployment foremost among them could be significantly eased if not solved by including as an important component of economic development policy the creation of vigorous and autonomous processes of local development Local entrepreneurialism with a social conscience serving local needs and utilising local resources including local labour Enough has been achieved in the last 10 years to firmly establish development by local initiative on the political agenda The question whether it represents a viable policy hardly ever arises any more The idea has achieved currency The question today is not whether to but how to Practical experience has revealed a number of barriers and pitfalls that inhibit local initiatives particularly those with a strong social as opposed to a commercial orientation in a system that is not tailored to their needs The paradox is that local development owes its currency to the fact that it appeals to a variety of interest groups but that same variety leads to disagreement over ways and means and to controversy over what constitutes a successful result The range of views and possibilities are amply illustrated in the papers presented at the Heerlen conference What is it that makes for an active community What are the dynamics of the entrepreneurialism that is capable of mobilising the human and material resources of a community within a process of development Mainstream or marginal what is the future for local development **Aanwinsten van de Centrale Bibliotheek (Queteletfonds)** Bibliothèque centrale (Fonds Quetelet), 1986 Wetenschappelijk jaarverslag Rijksuniversiteit te Utrecht, 1988 Geschiedenis als metgezel Bunna Ebels-Hoving, 2010 Terugblik op haar leven en loopbaan als historica van de Nederlandse medi viste 1932 **Economic Titles/abstracts** ,1986-07 **Eurosynt** ,1986 **Bibliographie Internationale Des Recensions de la Litt Érature Savante** ,1988
