## **Deep River The Black Church As Agent Of Social Reform:**

*Religion and Politics* John W. Storey, Glenn H. Utter, 2002-02-01 Focusing on religions such as Islam and Buddhism this volume shows how religion influences politics and vice versa Delving into such subjects as the separation of church and state in the United States the domination of the state by religion in Iran and the control of religion by the state in China this survey illuminates cultural differences This book gives a revealing look at the numerous relationships between religion and politics In the Church of England for example the 26 most senior Anglican bishops have seats in the House of Lords Religion and Politics also includes biographical sketches of thinkers and doers whose careers intersected religion and politics in significant ways from the Berrigan brothers to Osama bin Laden Also included are data and quotes a directory of politically active religious groups and a 150 page annotated bibliography Mighty Like a River Andrew Billingsley, 1999-06-24

Throughout the history of the African American people there has been no stronger resource for overcoming adversity than the black church From its role in leading a group of free Blacks to form a colony in Sierra Leone in the 1790s to helping ex slaves after the Civil War and from playing major roles in the Civil Rights Movement to offering community outreach programs in American cities today black churches have been the focal point of social change in their communities Based on extensive research over several years Mighty Like a River is the first comprehensive account of how black churches have helped shape American society An expert in African American culture Andrew Billingsley surveys nearly a thousand black churches across the country including its oldest the First African Baptist Church in Savannah Georgia These black churches whose roots extend back to antebellum times have periodically confronted social economic and political problems facing the African American community Mighty Like a River addresses such questions as How widespread and effective is the community activity of black churches What are the patterns of activities being undertaken today How do activist churches confront such problems as family instability youth development AIDS and other health issues and care for the elderly With profiles of the remarkable black heroes and heroines who helped create the activist church and a compelling agenda for expanding the black church s role in society at large Mighty Like a River is an inspirational visionary and definitive account of the subject **Urban Politics** Bernard H. Ross, Myron A. Levine, 2011-08-10 This popular text mixes the best classic

theory and research on urban politics with the most recent developments in urban and metropolitan affairs Its very balanced and realistic approach helps students to understand the nature of urban politics and the difficulty of finding effective solutions in a suburban and global age The eighth edition provides a comprehensive review and analysis of urban policy under the Obama administration and brand new coverage of sustainable urban development A new chapter on globalization and its impact on cities brings the history of urban development up to date and a focus on the politics of local economic development underscores how questions of economic development have come to dominate the local arena The book traces the changing style of community participation including the emergence of CDCs BIDs and other new style service

organizations It analyzes the impacts of the New Regionalism the New Urbanism and much more at an approachable level The eighth edition is significantly shorter and more affordable than previous editions and the entire text has been thoroughly rewritten to engage students Boxed case studies of prominent recent and current urban development efforts provide material for class discussion and concluding material demonstrates the tradeoff between more ideal and more pragmatic urban politics Source material provides Internet addresses for further research     *Books in Print Supplement* ,2002

**Navigating the Deep River** Archie Smith,1997 As mythos and metaphor the river has played an important role in the struggles of African Americans in a racist society After three decades as a pastoral family therapist with African American families and families of other cultures Archie Smith draws on the spiritual and cultural richness of such metaphors to construct an ecological approach to pastoral care which takes seriously American history democracy racism the environment and black experience within a multicultural context Smith s compelling guide demonstrates how pastors and social workers can tap the spiritual wellspring of the African American family in order to counter a deepening sense of despair to provide hope and to offer strategies for transformation     **The Underground Railroad** Mary Ellen Snodgrass,2015-03-26 Provides a look at the network known as the Underground Railroad that mysterious system of individuals and organizations that helped slaves escape the American South to freedom during the years before the Civil War This work also explores the people places writings laws and organizations that made this network possible     *Rhetoric, History, and Women's Oratorical Education* David Gold,Catherine L. Hobbs,2013-05-02 Historians of rhetoric have long worked to recover women s education in reading and writing but have only recently begun to explore women s speaking practices from the parlor to the platform to the varied types of institutions where women learned elocutionary and oratorical skills in preparation for professional and public life This book fills an important gap in the history of rhetoric and suggests new paths for the way histories may be told in the future tracing the shifting arc of women s oratorical training as it develops from forms of eighteenth century rhetoric into institutional and extrainstitutional settings at the end of the nineteenth century and diverges into several distinct streams of community embodied theory and practice in the twentieth Treating key rhetors genres settings and movements from the early republic to the present these essays collectively challenge and complicate many previous claims made about the stability and development of gendered public and private spheres the decline of oratorical culture and the limits of women s oratorical forms such as elocution and parlor rhetorics and women s responses to rhetorical constraints on their public speaking Enriching our understanding of women s oratorical education and practice this cutting edge work makes an important contribution to scholarship in rhetoric and communication     *New York* ,2008-05     **White Whole** Surazeus Astarius,2019-03-20 White Whole presents 1 136 lyrics pastorals satires elegies and narrative poems written in 2018 by Surazeus that explore the evolution of the universe since the First Flash from the White Whole     **The Reverend Jennie Johnson and African Canadian History, 1868-1967** Nina Reid-Maroney,2013 This first scholarly treatment of a
