Deep Politics And The Death Of Jfk:

Deep Politics and the Death of JFK Peter Dale Scott, 1993-10-27 Peter Dale Scott's meticulously documented investigation uncovers the secrets surrounding John F. Kennedy's assassination. Offering a wholly new perspective, that JFK's death was not just an isolated case but rather a symptom of hidden processes, Scott examines the deep politics of early 1960s American international and domestic policies. Scott offers a disturbing analysis of the events surrounding Kennedy's death and of the structural defects within the American government that allowed such a crime to occur and to go unpunished. In nuanced readings of both previously examined and newly available materials, he finds ample reason to doubt the prevailing interpretations of the assassination. He questions the lone assassin theory and the investigations undertaken by the House Committee on Assassinations and unearths new connections between Oswald, Ruby, and corporate and law enforcement forces. Revisiting the controversy popularized in Oliver Stone's movie *JFK*, Scott probes the link between Kennedy's assassination and the escalation of the U.S. commitment in Vietnam that followed two days later. He contends that Kennedy's plans to withdraw troops from Vietnam, offensive to a powerful anti-Kennedy military and political coalition, were secretly annulled when Johnson came to power. The split between JFK and his Joint Chiefs of Staff and the collaboration between Army Intelligence and the Dallas Police in 1963 are two of the several missing pieces Scott adds to the puzzle of who killed Kennedy and why. Scott presses for a new investigation of the Kennedy assassination not as an external conspiracy but as a power shift within the subterranean world of American politics. *Deep Politics and the Death of JFK* shatters our notions of one of the central events of the twentieth century.

Deep Politics and the Death of JFK Peter Dale Scott, 1993 Meticulously documented investigation uncovering the political secrets surrounding John F. Kennedy's assassination. [Deep Politics and the Death of JFK](#) Peter Dale Scott, 1993 Places the assassination of President Kennedy in the context of those parts of the political situation of the times that were not then public knowledge and argues that it may have been motivated by opposition to his planned withdrawal from Vietnam. *Deep Politics and the Death of JFK* Peter Dale Scott, 1996 [Oswald, Mexico, and Deep Politics](#) Peter Dale Scott, 2013-09-01 Peter Dale Scott has written extensively on the Kennedy assassination and other dark corners of the American political scene. His encyclopedic knowledge enables him to connect the dots among the players, the organizations, and the unacknowledged collusions, the deep politics of our often troubled political system. *Deep Politics on Oswald, Mexico, and Cuba* originally published in 1995 narrows the focus of Scott's earlier *Deep Politics and the Death of JFK*. Scott delivers the most detailed treatment yet of the mysterious sojourn of Lee Harvey Oswald or someone using his name to Mexico City in the fall of 1963. Was this trip a key aspect of the framing of Oswald? Was it an approved intelligence operation or was it perhaps both? It is now known that allegations of Communist conspiracy in the wake of the JFK assassination emanating mostly from Mexico City caused Lyndon Johnson to put together a blue ribbon commission to investigate what happened in Dallas. Scott explains through meticulous research and analysis exactly why LBJ would want the

Warren Commission to rush to a conclusion and the far reaching political ramifications of the commission's public findings. Scott's analysis suggests the evidence from Mexico City was part of a frame up making Deep Politics on Oswald, Mexico and Cuba an essential piece of research and analysis shedding new light on the Communist conspiracy allegations behind the JFK assassination.

The Radical Right and the Murder of John F. Kennedy Harrison E. Livingstone, 2004. The Radical Right and the Murder of John F. Kennedy: Stunning Evidence in the Assassination of the President. Harrison E. Livingstone's major new book, the fifth of his works on the death of JFK, brings together for the first time all of the central evidence demonstrating a domestic Right Wing conspiracy rooted in Texas which assassinated the President on November 22, 1963. The book represents forty years of work. The book discusses in great detail the actual medical evidence and the forgery of the autopsy photographs and X-rays which Mr. Livingstone first exposed, the alteration of the autopsy report, the framing of the designated patsy Lee Harvey Oswald, and the substitution and fabrication of every single piece of evidence. It discusses the role played in the murder by some of the most powerful men in the country: Lyndon Johnson, J. Edgar Hoover, and Richard Nixon, as well as the rich oil men and companies who backed them. It then describes the cover ups by the media, the major investigations over the years, the FBI, and the mind control cooperation at work in the case to misdirect researchers and the public. The book describes in great detail the people and companies in Texas who planned and carried out the assassination. It names names. One recent investigation in the 90s followed Mr. Livingstone's preceding work and reinvestigated with the witnesses both he and the official investigations had talked to, but this time took into consideration their documentation and what they had actually said, and in a chapter this is his stunning new evidence from the U.S. government under President Clinton that is blowing the lid off the case. Mr. Livingstone first revealed to the Washington press corps in 1998 that there has been such a secret investigation and spoke for fifty minutes when the Assassination Records Review Board gave their final press conference. As a result, Mr. Livingstone was on all major TV networks and on the Today show, NBC, with Katie Couric the next morning. The book also contains the story of Dallas doctor Charles Crenshaw's law suit and the depositions of the editor and writer of the Journal of American Medical Association who libeled him in articles in 1992. Dr. Crenshaw's book about trying to save Kennedy at Parkland Hospital shortly after the shooting came out on the same day as Mr. Livingstone's major work on the medical evidence. High Treason 2 were JAMA's targets, and the depositions contain much discussion of Mr. Livingstone's major impact on the JFK case. This new book is to be followed closely by a sixth book entirely about the Zapruder film called The Hoax of the Century: Decoding the Forgery of the Zapruder Film.

The JFK Assassination Debates Michael L. Kurtz, 2006-11-08. Who killed JFK? Ever since that fateful day in Dallas, theories about President Kennedy's murder have proliferated, running the gamut from the official lone gunman verdict to both serious and utterly screwball conspiracy theories. Michael Kurtz, a distinguished historian who has plumbed every crevice of this controversial case for more than thirty years, now sums up and critiques four decades of debate while also offering provocative new perspectives. Kurtz

presents an objective accounting of what we actually know and don't know about the assassination underlining both the logic and the limitations of the major theories about the case. He then offers unique interpretations of the physical and forensic evidence and of existing areas of controversy leading him to new conclusions that readers will find hard to dismiss. Kurtz shows how the official investigation's egregious mishandling of the crime scene evidence related to virtually every aspect of the case is largely responsible for the lone gunman conspiracy schism that confronts us today. Those responsible for that investigation including the Dallas police, the FBI and the Warren Commission failed so miserably in their efforts that they would have been laughed off the air if they had been portrayed on any of TV's popular CSI series. One of the few experts writing on the subject who actually met Oswald, Kurtz also provides new information about the accused assassin's activities around the time of the assassination and about his double life, analyzing Oswald's ties to the intelligence community, to organized crime and to both anti and pro Castro Cuban activists. Mustering extraordinary documentation including exclusive interviews with key figures and extensive materials declassified by the Assassination Records Review Board, he both confirms and alters much previous speculation about Oswald and other aspects of the case. Who really killed JFK? Forty years later most Americans still feel they don't know the truth and that their own government isn't telling them the whole story. This book offers a corrective to even the most recent final verdicts and establishes a sound baseline for future research. JFK's Death and the Kabbalah Joseph Scovitch, 2009. Basic psycho-pop retelling of the JFK Dallas story of 1963. We find here strong emphasis on alternative aspects and elements of the Sefirotic Kabbalah, mystic esoterica, meta history, crypto spiritualism, quasi eidetic imagery, secret arcane formula and related akashic trivia. A remarkable and unforgettable reading assignment and literary investigation with many new insights, noetic asides and unexpected surprises. **Shadow Pasts** William D. Rubinstein, 2014-09-11. For many intelligent people, the stuff of history does not consist of the kind of dry as dust investigations of diplomatic, economic or political history that most university historians research and write about, but the famous topics of history's mysteries: who was Jack the Ripper? Was there a conspiracy to kill President Kennedy? Did Richard III murder the Princes in the Tower? What are the mysteries of the ancient Pyramids? Not only have a great many books and articles been written on these and similar topics by so-called amateur historians, but they have generated societies, conferences, newsletters and television programmes. Many people who are not academic historians take a keen interest in these topics and have in some cases made themselves real experts on them with interesting theories of their own. Despite all of this, however, these topics are virtually ignored by academic historians and can be treated with contempt. In *Shadow Pasts*, William D. Rubinstein, a well-known and widely published history professor, examines seven of the most famous and interesting topics which have been discussed, debated, examined and written about by amateur historians. Each of these mysteries and the theories surrounding them are examined in detail, with Professor Rubinstein presenting his own original and sometimes surprising conclusions about what really happened. **Conspiracies and Conspiracy Theories in the Age**

of Trump Daniel C. Hellinger, 2018-09-20 This book focuses on the constant tension between democracy and conspiratorial behavior in the new global order. It addresses the prevalence of conspiracy theories in the phenomenon of Donald Trump and Trumpism and the paranoid style of American politics that existed long before first identified with Richard Hofstadter. Hellinger looks critically at both those who hold conspiracy theory beliefs and those who rush to dismiss them. Hellinger argues that we need to acknowledge that the exercise of power by elites is very often conspiratorial and invites both realistic and outlandish conspiracy theories. How we parse the realistic from the outlandish demands more attention than typically accorded in academia and journalism. Tensions between global hegemony and democratic legitimacy become visible in populist theories of conspiracy both on the left and the right. He argues that we do not live in an age in which conspiracy theories are more profligate but that we do live in an age in which they offer a more profound challenge to the constituted state than ever before.

The War Conspiracy Peter Dale Scott, 2013-09-03 Peter Dale Scott examines the many ways in which war policy has been driven by accidents and other events in the field in some cases despite moves toward peace that were directed by presidents. This book explores the deep politics that exerts a profound but too little understood effect on national policy outside the control of traditional democratic processes. An important analysis into the causes of war and the long lasting effects that major events in American history can have on foreign and military policies. The War Conspiracy is a must read book for students of American history and foreign policy and anyone interested in the ways that domestic tragedies can be used to manipulate the country's direction. First published in 1972, this edition of The War Conspiracy is fully updated for the twenty first century and includes two lengthy additional essays: one on the transition in Vietnam policy in the wake of the Kennedy assassination and the other discussing the many parallels between that 1963 event and the attacks of 9/11.

Drugs as Weapons Against Us John L. Potash, 2015-05-25 Drugs as Weapons Against Us meticulously details how a group of opium trafficking families came to form an American oligarchy and eventually achieved global dominance. This oligarchy helped fund the Nazi regime and then saved thousands of Nazis to work with the Central Intelligence Agency (CIA) operations such as MK Ultra, pushed LSD and other drugs on leftist leaders and left leaning populations at home and abroad. Evidence supports that this oligarchy further led the United States into its longest running wars in the ideal areas for opium crops while also massively funding wars in areas of coca plant abundance for cocaine production under the guise of a war on drugs that is actually the use of drugs as a war on us. Drugs as Weapons Against Us tells how scores of undercover U.S. Intelligence agents used drugs in the targeting of leftist leaders from SDS to the Black Panthers, Young Lords, Latin Kings, and the Occupy Movement. It also tells how they particularly targeted leftist musicians including John Lennon, Jimi Hendrix, Kurt Cobain, and Tupac Shakur to promote drugs while later murdering them when they started sobering up and taking on more leftist activism. The book further uncovers the evidence that Intelligence agents dosed Paul Robeson with LSD, gave Mick Jagger his first hit of acid, hooked Janis Joplin on amphetamines, as well as manipulating Elvis Presley, Eminem, and the Wu Tang.

Clan and others **Why the JFK Assassination Still Matters** Richard Buyer,2009 We live in a great country Yet we must have faith and trust in our government or we cannot succeed On the other hand the government must also believe in its own people Both factions must tell the truth For this reason the JFK assassination still matters History cannot be replayed but it can be rewritten Why read another book about the JFK assassination It s simple the major crime of the twentieth century remains unsolved Although the assassination of President John F Kennedy happened in 1963 the reverberations of this horrific event are still felt today Discrepancies and questions about the assassination remain unanswered Was there a conspiracy behind the assassination If so who was involved Why the JFK Assassination Still Matters discusses new ideas showing Lee Harvey Oswald never fired a shot at the president The Warren Commission was a hoax and the single bullet theory was physiologically impossible Strange bedfellows emerged when the CIA formed a coalition with organized crime in an attempt to assassinate Fidel Castro President Kennedy became a threat to very powerful forces when he tried to establish a peaceful coexistence with Russia and Cuba About the Author Dr Richard Buyer has been practicing medicine for over thirty five years The assassination of President John F Kennedy was probably the greatest tragedy he has personally experienced He wrote this book to help his children learn the truth behind this horrific event His daughter Kennedy happened to be born on the anniversary of the assassination It is Dr Buyer s goal that all children as well as adults will finally learn the truth about the assassination

Heroin, Organized Crime, and the Making of Modern Turkey Ryan Gingeras,2018-01-26 Heroin Organized Crime and the Making of Modern Turkey explores the history of organized crime in Turkey and the roles which gangs and gangsters have played in the making of the Turkish state and Turkish politics Turkey s underworld which has been at the heart of several devastating scandals over the last several decades is strongly tied to the country s long history of opium production and heroin trafficking As an industry at the centre of the Ottoman Empire s long transition into the modern Turkish Republic as important as the silk road had been in earlier centuries the modern rise of the opium and heroin trade helped to solidify and complicate long standing relationships between state officials and criminal syndicates Such relationships produced not only ongoing patterns of corruption but helped fuel and enable repeated acts of state violence Drawing upon new archival sources from the United States and Turkey including declassified documents from the Prime Minister s Archives of the Republic of Turkey and the Central Intelligence Agency Heroin Organized Crime and the Making of Modern Turkey provides a critical window into how a handful of criminal syndicates played supporting roles in the making of national security politics in the contemporary Turkey The rise of the Turkish mafia from its origins in the late Ottoman period to its role in the deep state revealed by the so called Susurluk and Ergenekon scandals is a story that mirrors troubling elements in the republic s establishment and emphasizes the transnational and comparative significance of narcotics and gangs in the country s past **Murder in Dealey Plaza** James,2013-11-01 We now know vastly more about the killing of John F Kennedy than was known 20 or 30 years ago and new evidence is accumulating almost every day This new evidence is

being uncovered by the bold application of scientific and technological expertise to the assassination records including the film photographic and autopsy records Murder in Dealey Plaza presents the latest and best of the new assassination research As a result of these freshly uncovered findings it is possible to say with moral certainty and considerable scientific authority that the murder of President Kennedy was committed by a meticulously executed conspiracy which was then observed by an extensive cover up

The Anti-Globalist Manifesto Jerome R. Corsi, 2024-08-13 In his new book *The Anti Globalist Manifesto Ending the War on Humanity* bestselling author Jerome Corsi puts out a call for action to reverse the totalitarian goals of the New World Order globalists Corsi addresses that these demons are well advanced in their planned One World Government takeover aimed at establishing an atheistic utopia that will have no respect for traditional human rights Comfortable that their transhuman aspirations are achievable the Malthusian elite is waging a war on humanity that embraces global depopulation as a means of preventing Earth's abundant natural resources for themselves Tracing this dystopian nightmare back to the assassination of President John F Kennedy on November 23 1963 as the day the deep state went rogue in a conspiracy involving the CIA the Pentagon the State Department and the Department of Justice to affect a coup d'etat that would allow the military industrial complex to go to war in Vietnam the deep state has created an ongoing Truman Show a series of never ending psychological operations designed to induce citizens worldwide to surrender freedoms to government in return for security With the premise that the globalist elite uses systems of mass manipulation and social engineering to induce the world's population to accept the implementation of the reforms it has already decided to implement Corsi sets a detailed plan for organizing global resistance against the subversives who now sit at the top of the institutions or world government and finance *The Anti Globalist Manifesto* is a call to action to restore God to our lives as those of us fighting for a return to personal freedoms and limited government ending the war on humanity and driving once and for all time the New World Order globalists back to Hell where they belong

Government of the Shadows Eric Wilson, 2009-01-20 This book uncovers the activities of clandestine governments It explores how covert political activity and transnational organised crime are linked and how they ultimately work to the advantage of state and corporate power Using a variety of case studies from the mafia in Italy to programmes for food and reconstruction in Iraq the authors illustrate that parapolitical structures are not deviant but central to the operation of global governments The creation of this parallel world economy the source of huge political and economic potential entices states to undertake new forms of regulation either through their own intelligence agencies or through the more shadowy world of criminal cartels
