Love so Deep Within Joyce Stier, 2013-12-20 Comparing the intertwining complexity of the Book of Kells with the complexity of our relationship with those we love and care for Love So Deep Within weaves the difficult subjects of dying and living with cancer into a memoir of one whose recent journey takes you beyond the doors to both worlds The Book of Kells was written during times of immense struggles within the world for dominance and power in approximately AD 800 however a small group of monks off the coast of Ireland were diligent in creating a masterpiece of the four gospels of the Bible illuminated with vibrant rare colors and tints of the images of life and featuring figures of humans animals and mythical beasts together with interlacing patterns Love So Deep Within tells us a story of not giving up and of compassion to the very end It tells us of the richness of our experience of living with those who are close to death and yet live with us still of the passage of time inconsequential and yet full of transition and of a time so precious to us that it lingers And that this time is a powerful gift Love So Deep Within is a story of love compassion and hope for caregivers everywhere

Joy From Deep Within Hemant Gupta, 2010-12-20 What do we all humans have in common We are all incorrigible seekers of bliss or joy Our minds are wired to be happy At least that is what our modern scientific studies contend Yet most of us know we are not joyful In fact we struggle most of time to be and stay happy What has gone wrong I have attempted to answer this question in this book It has been my own journey to arrive at lasting happiness and joy It builds on the informational computational foundation of our universe developed in the first book of this series Road to Digital Divine It combines latest science of mind and matter with spirituality putting forth a new concept of our self the quantum self rooted in the informational nature of our being Most of us are familiar with our physical self that we see in the mirror It however does not define us completely What is critical for us to know is our informational self Knowing the true nature of this self and acting accordingly is essential for us humans to achieve good emotional health and realize lasting joy in our lives In fact not knowing or ignoring the messages from this essential nature of our self is the leading reason for suffering in our human society I paint this self as a tale of three minds emotional rational and cosmic The three minds computationally synchronized lead to the birth of informational self This self is a computationally astute structure It computes using two modes of computation Each of these modes lead to two extreme personalities One binary computation which leads to a nature of self that courts I me and mine tendencies I have called this as our binary self And the other quantum computation which leads to a nature of self with us we and ours tendencies I call this as our quantum self Both these nature of self are quite familiar in today's society The binary information processing leads to egoic entity which is present in most of us It dominates today's human society It is responsible for incredible progress that humans have made as a surviving species but it is also responsible for most of the sufferings that modern humans face today The quantum self has saintlike nature It feels love empathy and oneness with others It is truthful and always stays in the company of divinity It is responsible for widespread altruism in nature and in humans With two selves of very different nature in one body modern humans have learned the meaning of the word suffering Which self will win Which is our true self Understanding of this fact is not trivial In

fact it is nothing short of enlightenment as I explain how the understanding of our true self can lead one on to this path It can make a profound change in one s perspective The joy pouring from deep within is at the root of this reality **Dive Deep Within** Pongal Punitha G ,2020-09-02 This book is the compilation of the Morning Messages sent by Pongal Punitha to around 8000 people every day through Whatsapp and more through other social media be it rain or wind or storm It is loaded with positive vibes and energy to start the day Many of her recipients used to wait for her messages to start their day This can be taken as an integral part of your morning habits Read a message for the day and inculcate to experience those words in your life every day This will enable you to look at life with all optimism in spite of all odds with due acknowledgment of your present This can also be used by educational institutions and organizations as a feeder for their positive notes or food for thought every day Every word has come out of the author s experiences in life and hence authentic and genuine to the core Deep Within My Heart John E.
