Deepening Integration In The Pacific Eco:

Regionalism, Multilateralism, and Deeper Integration Robert Z. Lawrence, 2000-07-26 Over the past decade international economic liberalization has been pursued through both multilateral and regional arrangements In the Uruguay Round more than one hundred governments pledged their commitment to greater open trade in goods and services and established new rules under the enforcement of the World Trade Organization At the same time however many regional arrangements have been negotiated including the European Union and the North American Free Trade Agreement Nonetheless controversy still rages about these arrangements Are regional arrangements stumbling blocks or in fact building blocks for a more integrated and successful international economy In this book Robert A Lawrence addresses this question and explains both sides of the debate A volume of Brookings Integrating National Economies Series *Japan's Managed Globalization* Ulrike Schaede, William W. Grimes, 2015-03-27 As Japan moves from a catch up strategy to a post developmental stage it is changing its actions and reactions both in terms of international political economy and domestic policy issues The current changes in Japan can best be understood as following a path toward permeable insulation Japan's government and economic system continue to insulate domestic businesses from full competition and the rigor of market forces but this insulation is also permeable because a decline in state power vis a vis the private sector since the 1990s has combined with a decline in the solidarity of private institutions such as keiretsu or trade associations to make strategies of insulation much less rigid and uniform As a result of the permeable insulation Japan's response to the global and domestic challenges of the 1990s is neither one of full acceptance nor rejection of global standards and practices Instead the basic scheme is one of pragmatic utilization of new rules and circumstances to continue industrial policies of promotion or protection in a new post developmental era By bringing together in depth case studies of eight critical issue areas this book looks at Japan's responses to globalization and move toward permeable insulation Part 1 introduces the reader to the concept of permeable insulation and provides a detailed review of past practices and changes in policy Part 2 deals with international trade issues Japan's compliance with and resistance to global trade rules and the domestic interests visible in Japan's compliance Part 3 focuses on domestic measures and policies that Japanese firms have used to adapt to the changes within Japan and abroad triggered by globalization and liberalization **Whither APEC?** C. Fred Bergsten, Institute for International Economics (U.S.), 1997 Analyses various aspects of economic cooperation among 18 Pacific Rim countries members of the Asia Pacific Economic Cooperation APEC forum Covers trends in the 1990s and gives projections to 2020 *Asia-Pacific Economic Cooperation* Ippei Yamazawa, 2003-08-01 Ippei Yamazawa is one of the fathers to the study of Asia Pacific regional cooperation in Japan and has contributed hugely to the development and work of APEC over many years APEC is a crucial trans regional arrangement that draws the United States into constructive economic engagement with East Asia This book makes it clear why APEC remains such a crucial element of regional economic architecture and defines an agenda going forward to which

regional leaders should aspire Here is a first rate exposition of the priorities for regional cooperation in Asia and the Pacific

Integrating Regions Miles Kahler, Andrew MacIntyre, 2013-07-24 The proliferation of regional institutions and initiatives in Asia over the past decade is unmatched in any other region of the world The authors in this collection explore the distinctive features of these institutions by comparing them for the first time to the experience of other regions from the elaborate institution building of Europe to the more modest regional projects of the Americas It is an opportune moment for this reassessment as the European regional model faces a sovereign debt crisis while Asian economies see more secure sources of growth from their immediate neighbors Asia's regional institutions display a distinctive combination of decision rules commitment devices and membership practices shaped by underlying features of the region the dynamics of regional integration and the availability of institutional substitutes Within this context the authors propose changes that will better sustain the prosperity and peace that have marked Asia in recent decades

Armstrong, 2011-11-03 The shape of economic integration in the global and regional economies and the extent to which goods services and factors of production move more or less freely across borders depends not only upon underlying economic conditions but also upon politics Whether integration is market led as has been the case in Asia or institution led as in Europe there are political elements that affect all forms of regional and international economic integration While geopolitics influences international economic integration so too does domestic politics Economic integration in Asia has been driven by rapid unilateral trade and investment liberalization and while trade and investment patterns have been determined largely by comparative advantage political forces have also affected patterns of economic interdependence The form that regional institutions take and their effectiveness also depends on political relations between countries The particular circumstances in Asia and the relationships between regional economies has profoundly shaped regional institutions and will continue to do so The chapters in this volume draw on papers originally presented to the 33rd Pacific Trade and Development Conference held in Taipei in 2009 to look in original ways at how politics shape economic integration and its various dimensions in Asia and the Pacific and globally **The Political Economy of Asian Regionalism** Giovanni Capannelli, Masahiro Kawai, 2014-01-23
