Mahan, George Mason Whitaker, 1909 The domestication of deer and elk offers an interesting field for experiment as well as remunerative returns for the investment of capital The wapiti and the Virginia deer can be raised successfully and cheaply under many different conditions of food and climate The production of venison and the rearing of both species for stocking parks may be made profitable industries in the United States Instead of hampering breeders by restrictions as at present state laws should be so modified as to encourage the raising of deer elk and other animals as a source of profit to the individual and to the state Safeguards against the destruction and sale of wild deer in place of domesticated deer are not difficult to enforce For this purpose a system of licensing private parks and of tagging deer or carcasses sold or shipped so that they may be easily identified is recommended It is believed that with favorable legislation much otherwise waste land in the United States may be utilized for the production of venison so as to yield profitable returns and also that this excellent and nutritious meat instead of being denied to 99 per cent of the population of the country may become as common and as cheap in our markets as mutton Game Laws for 1909 Theodore Sherman Palmer, Henry Oldys, Charles Edward Brewster, 1910 Cotton Improvement Under Weevil Conditions Orator Fuller Cook, 1913 Food of Some Well-known Birds of Forest, Farm, and Garden Foster Ellenborough Lascelles Beal, George Sidney Demuth, Morgan William Evans, Orator Fuller Cook, 1912 Everbearing Strawberries George McMillan Darrow, 1919 *Game Laws for ...* Charles Dwight Marsh, Charles Ford Langworthy, Charles Pinckney Hartley, Clarence P.
