Dealing with the Dampers of the Soul Robert A. Hanson, 2008-02 Discouragement or depression is real and personal While separate the two moods have a definite tie between them The stages of the discouragement lead naturally to the forming of the depression While discouragement reflects an attitude of dismay and depression reflects darkness of the soul both begin with the word distraction Many are concerned with depression to the neglect of discouragement Yet to deal with depression before discouragement is like putting the cart before the horse For these reasons the author believes it is essential to deal first with the subject of discouragement If discouragement is handled God's way it will go a long way to divert or stop the path to depression Discouragement and depression have similar causes and solutions Moreover there is one key operative word connected with both which is response This book provides insights on the kind of response necessary for handling the force of both subjects Robert A Hanson has served as pastor of Bible Baptist Church in Plymouth Massachusetts for thirty six years He also served as senior chaplain for Plymouth County Jail and Correctional Facility for twenty two years The Church under his ministry has enjoyed the blessing of seeing a number enter the ministry with ten serving as Pastors Robert received his education at Providence Barrington Bible College Talbot Theological Seminary Los Angeles Theological Seminary and The Graduate School of Theology in California Beyond pastoring four churches in New England and California he has taught in both college and seminary His travels have taken him to many parts of the world including India as part of an extension teaching ministry Robert and his wife Barbara conduct Straight to the Heart and Road to Renewal conferences in various churches The Hansons have five children and seventeen grandchildren *Conquering Depression* Mark Sutton, Bruce Hennigan, 2001 Sutton and Hennigan take an approach to overcoming life's difficulties that is grounded in both spiritual and medical principles Conquering Depression provides step by step encouragement and instruction to manage and win over depression The 30 chapters called Days are divided into four sections The Power to Win Strength for Today Tools for Tomorrow and a summary Each chapter covers an aspect of depression from the spiritual emotional and physical angles [Assertiveness Facilitator's Guide - Item 1163](#) , **Defeating Depression and Beating the Blues** Pat Webb, Patricia Webb, 1999-06 Author Patty Butts Webb Description It has been said that depression is the common cold of mental illness This book was written because of the large number of adolescents the author sees in her role as a professional counselor who the medications troublesome side effects The book sets forth many debilitating effects of both chronic fatigue syndrome and various levels of depression This is not a clinical book it is a self help book It does not take the place of a professional counselor physician or psychiatrist but it tells everything the author wants her clients students and readers to know about overcoming Depression Chronic Fatigue Syndrome Epstein Barr Virus and Candida

The Integrated Protestant Ethic and the Spirit of Environmentalism S. Steiner-Aeschliman, 1999 The theory and data of environmental science suggest that growth in rates of population consumption and environmental degradation as a result of the activities of industrialized societies has created an ecological crisis to which modern societies must adapt However adaptation is problematic Max Weber studied adaptive social change during the industrial revolution The evolution of this new way of life was initially problematic because individuals who established industrialism were socialized under feudalism In this dissertation I consider The Protestant Ethic and the Spirit of Capitalism as a theoretical treatise framed by modern human ecology in order to study social change in the context of the ecological crisis of industrialism The Protestant Ethic is known for describing how religious ideas influenced the unfolding of modern capitalism in the West However there is nothing inherent in Protestantism that requires linkage to industrialism I argue that Protestantism has evolved and that it need not necessarily promote environmental exploitation although under industrialism it has I identify a green subculture within Protestantism and consider how Protestantism's weakness may also be its strength The very sociological structure that in the absence of ecologically realistic norms permits widespread ecosystem degradation by industrial capitalism may also generate ecologically realistic norms for a natural capitalism Weber contended that rationality was problematic because it paradoxically results in a dual crisis of management and meaning where human agency becomes imprisoned as if in an iron cage The irrational continuation of environmentally degrading social practices eventually contributes to a legitimization crisis People turn to religion as an alternative authority If science and religion converge on environmental values they might catalyze social change unless they are too distorted by ideological bias Adaptive social change only occurs if ethical and ecological values are in accordance with the sustainability of ecosystems Hence to adapt to the ecological crisis sociocultural systems require socialization into ecological realism because ecologically rational societies may still be maladaptively organized around environmentally unsustainable trajectories

Globally postnatal depression PND is a growing public health problem PND affects 10 to 15% of women in Western society It caused by a combination of biological psychological and social factors Two models have attempted to define and explain PND the biomedical and the sociological models The traditional biomedical model views PND as a medical condition which implies there is individual pathology and abnormality Whilst the biomedical model has been the dominant model in treating PND it has been criticized by feminist sociologists and psychologists for its rigidity in defining and explaining PND In contrast the psychosocial model of health acknowledges the biological factors that impact on emotional well being but places more emphasis on the personal and social factors that impact on emotional well being but places more emphasis on the personal and social factors that contribute to depressive symptoms such as gender poverty social disadvantage and social class The central argument throughout this book is the importance of support before and after the birth for women s emotional well being This book will also include women s journeys through pregnancy childbirth motherhood postnatal depression and resolution To date literature has focused on women s lived experiences of PND rather than their personal journeys through pregnancy childbirth and early motherhood Additionally the adjustment to fatherhood has received less attention For example little is known about the impact of postnatal depression on the partner what support partners offer when women with the intention to fill the gap in knowledge of cultural and social issues relating to pregnancy childbirth and motherhood for woman who were diagnosed with and had resolved PND *The End Times and Beyond* L.
