Graham, 2007-09-30 Faith and Power in Japanese Buddhist Art explores the transformation of Buddhism from the premodern to the contemporary era in Japan and the central role its visual culture has played in this transformation Although Buddhism is generally regarded as peripheral to modern Japanese society this book demonstrates otherwise Its chapters elucidate the thread of change over time in the practice of Buddhism as revealed in temple worship halls and other sites of devotion and in imagery representing the religion s most popular deities and religious practices It also introduces the work of modern and contemporary artists who are not generally associated with institutional Buddhism and its canonical visual requirements but whose faith inspires their art The author makes a persuasive argument that the neglect of these materials by scholars results from erroneous presumptions about the aesthetic superiority of early Japanese Buddhist artifacts and an asserted decline in the institutional power of the religion after the sixteenth century She demonstrates that recent works constitute a significant contribution to the history of Japanese art and architecture providing evidence of Buddhism s compelling presence at all levels of Japanese society and its evolution in response to the needs of new generations of supporters *Japanese Zen Buddhism and the Impossible Painting* Yukio Lippit, 2017-02-28 Zen art poses a conundrum On the one hand Zen Buddhism emphasizes the concept of emptiness which among other things asserts that form is empty that all phenomena in the world are illusory On the other hand a prodigious amount of artwork has been created in association with Zen thought and practice A wide range of media genres expressive modes and strategies of representation have been embraced to convey the idea of emptiness Form has been used to express the essence of formlessness and in Japan this gave rise to a remarkable highly diverse array of artworks and a tradition of self negating art In this volume Yukio Lippit explores the painting *The Gourd and the Catfish* ca 1413 widely considered one of the most iconic works of Japanese Zen art today Its subject matter appears straightforward enough a man standing on a bank holds a gourd in both hands attempting to capture or pin down the catfish swimming in the stream below This is an impossible task a nonsensical act underscored by the awkwardness with which the figure struggles even to hold his gourd But this impossibility is precisely the point
