Art In The Age Of Terrorism:

Art in the Age of Terrorism Graham Coulter-Smith, Maurice Owen, 2005 Art in the Age of Terrorism tackles one of the most difficult topics imaginable a war that is quintessentially postmodern in its decentred identity globalized character and confused conflict of cultures In this publication both artists and critics explore in a series of essays the various ways in which art can help articulate the zone of grey that lies behind the black and white term terrorism A significant number of the texts deal with the theme of the unspeakable from a number of perspectives An international plurality of voices is offered in this book addressing key works by artists from New York Northern Ireland South Africa Lebanon and Israel many of them profoundly moving and poignant A number of contributors address the problems facing refugees from terror in the post 9 11 era exploring the cruel logic by which the contemporary refugee from terror is often perceived as a terrorist and treated accordingly

Flannery O'Connor in the Age of Terrorism Avis Hewitt, 2010-07-28 In any age humans wrestle with apparently inexorable forces Today we face the threat of global terrorism In the aftermath of September 11 few could miss sensing that a great evil was at work in the world In Flannery O'Connor's time the threats came from different sources World War II the Cold War and the Korean conflict but they were just as real She too lived through a time of terror The first major critical volume on Flannery O'Connor's work in more than a decade Flannery O'Connor in the Age of Terrorism explores issues of violence evil and terror themes that were never far from O'Connor's reach and that seem particularly relevant to our present day setting The fifteen essays collected here offer a wide range of perspectives that explore our changing views of violence in a post 9 11 world and inform our understanding of a writer whose fiction abounds in violence Written by both established and emerging scholars the pieces that editors Avis Hewitt and Robert Donahoo have selected offer a compelling and varied picture of this iconic author and her work Included are comparisons of O'Connor to 1950s writers of noir literature and to the contemporary American novelist Cormac McCarthy cultural studies that draw on horror comics of the Cold War and on Fordism and the American mythos of the automobile and pieces that shed new light on O'Connor's complex religious sensibility and its role in her work While continuing to speak fresh truths about her own time O'Connor's fiction also resonates deeply with the postmodern sensibilities of audiences increasingly distant from her era readers absorbed in their own terrors and sense of looming ineffable threats This provocative new collection presents O'Connor's work as a touchstone for understanding where our culture has been and where we are now With its diverse approaches Flannery O'Connor in the Age of Terrorism will prove useful not only to scholars and students of literature but to anyone interested in history popular culture theology and reflective writing

articulated in a variety of idioms from traditional philosophical humanism to phenomenology to feminism Their approaches may vary but together they reinforce the notion that terror is a thread in the fabric of artistic expression as much as it has always been and alas remains a thread in the fabric of life *Terrorism and the Arts* Jonathan Harris,2021-03-15 This book assesses the key definitions forms contexts and impacts of terrorist activity on the arts in the modern era using historical and contemporary perspectives Its empirical case studies include theatre literature music visual art mass media film and the mores of ordinary life While its immediate reflective context is Islamic fundamentalist terrorism the book reviews a broader range of definitions and counter definitions of terrorism state terrorism and states of terror examining uses of the terms through a series of comparative analyses Chapters focus on the intersection of these definitional questions with heuristic analysis of art forms cultural activities and their socio historical contexts This book will be of interest to scholars in art history terrorism politics and the media and visual culture **Rethinking the Law of Armed Conflict in an Age of**

Terrorism Christopher A. Ford,Amichai Cohen,2012-01-01 Ten years after the terrorist attacks of September 11 2001 Rethinking the Law of Armed Conflict in an Age of Terrorism edited by Christopher Ford and Amichai Cohen brings together a range of interdisciplinary experts to examine the problematic encounter between international law and challenges presented by conflicts between developed states and non state actors such as international terrorist groups Through examinations of the counter terrorist experiences of the United States Israel and Colombia coupled with legal and historical analyses of trends in international humanitarian law the authors place post 9 11 practice in the context of the international legal community s broader struggle over the substantive content of international rules constraining state behavior in irregular wars and explore trends in the development of these rules From the beginning of international efforts to rewrite the laws of armed conflict in the 1970s the legal rules to govern irregular conflicts of the state on nonstate variety have been contested terrain Particularly in the wake of the 9 11 attacks policymakers lawyers and scholars have debated the merits relevance and applicability of what are said to be competing war and law enforcement paradigms of legal constraint and even the degree to which international law can be said to apply to counter terrorist conflicts at all Ford Cohen s volume puts such debates in historical and analytical context and offers readers an insight into where the law has been headed in the fraught years since September 2001 The contributors provide the reader with differing perspectives upon these questions but together their analyses make clear that law governed restraint remains a cardinal value in counter terrorist war even as the law stands revealed as being much more contested and indeterminate than many accounts would have it Rethinking the Law of Armed Conflict in an Age of Terrorism provides an important conceptual framework through which to view the development of the law as the policy and legal communities move into the second decade of the global war on terrorism

Terror and the Arts M. Hyvärinen,L. Muszynski,2008-08-04 This book advances the argument that the arts from film and literature to painting and comics offer qualitatively different readings of terror and trauma that endeavor to resist the

The Right to Liberty and Security versus

Counter-Terrorism under International Law Shimels Sisay Belete, 2018-11-05 Particularly in the aftermath of the 9/11 terrorist attack the threat of terrorism however defined has been invoked as a common justification in the pursuit of remodelling policies laws and institutions both at the international and in the domestic politico legal showground The broader central theme that this book explores is the normative vibe under which the present day counterterrorism discourse is construed and sculpted in the legislative and institutional structures of an authoritarian state where the political power and government institutions are functioning under a single party monopolised system Presenting the Ethiopian legislative and institutional frameworks as a case study the book critically reflects on the extent that the international legal and or institutional counterterrorism response is sensitised in a manner lessening the risk of conflating authoritarian regime s unbearable reactions to citizens legitimate demands and resistances against its repression vis vis that of its response to the common threat of international terrorism In particular the book ponders whether or not the range of the substantive and procedural aspects of the Ethiopian antiterrorism legislative and institutional frameworks are wrought to fit into the main objectives and standards that emanate from the pertinent international laws relating to terrorism and the international human rights law as well as the domestic constitutional law maxims

Jihadi Terrorism and the Radicalisation Challenge Rik Coolsaet, 2016-05-06 Osama bin Laden s demise in May 2011 marked only the symbolic end of an era By the time of his killing he no longer represented the Robin Hood icon that once stirred global fascination Ten years after the 11 September 2001 attacks jihadi terrorism has largely lost its juggernaut luster It now mostly resembles a patchwork of self radicalising local groups with international contacts but without any central organisational design akin to the radical left terrorism of the 1970s and the anarchist fin de siècle terrorism This volume addresses two issues that remain largely unexplored in contemporary terrorism studies It rehabilitates the historical and comparative analysis as a way to grasp the essence of terrorism including its jihadi strand Crucial similarities with earlier forms of radicalisation and terrorism abound and differences appear generally not fundamental Likewise the very concept of radicalisation is seldom questioned anymore Nevertheless it often lacks conceptual clarity and empirical validation Once considered a quintessential European phenomenon the United States too experiences how some of its own citizens radicalise into terrorist violence This collective work compares radicalisation in both continents and the strategies aimed at de radicalisation But it also assesses if the concept merits its reputation as the holy grail of terrorism studies The volume is

aimed at an audience of decision makers law enforcement officials academia and think tanks by its combination of novel thinking practical experience and a theoretical approach
