Matisse Rebecca A. Rabinow, Dorthe Aagesen, Metropolitan Museum of Art (New York, N.Y.), 2012 Throughout his long career Henri Matisse 1869 1954 continually expanded the boundaries of his art By repeating images in pairs trios and series he conducted an ongoing dialogue with his earlier works in order to as he put it push further and deeper into true painting In this fresh approach to a much studied artist prominent scholars from the United States and Europe examine more than sixty works in concise chapters that focus on this aspect of Matisse s working process From early pairs such as *Young Sailor I* and *II* 1906 and *Le Lexe I* and *II* 1907 8 through a series of late studio scenes from *Vence* 1946 48 Matisse is shown revisiting a given theme with the aim of devising innovative often radical solutions to such problems as how to portray light handle paint select colors and manipulate perspective New technical studies of the early paired works and photographs documenting the evolution of his later paintings help to elucidate Matisse s complex evolution In numerous excerpts from letters and

interviews he is revealed as an artist who regularly questioned himself and his methods a man of powerful intellect who regarded each new painting as an adventure A significant addition to art historical literature Matisse In Search of True Painting is a revelatory study of a seminal figure in 20th century modernism Page 4 of cover **Fragonard** Pierre Rosenberg,1988 **American Paintings** Metropolitan Museum of Art (New York, N.Y.),1965 The personality cult of Stalin in Soviet posters, 1929-1953 Anita Pisch,2016-12-16 From 1929 until 1953 Iosif Stalin s image became a central symbol in Soviet propaganda Touched up images of an omniscient Stalin appeared everywhere emblazoned across buildings and lining the streets carried in parades and woven into carpets and saturating the media of socialist realist painting statuary monumental architecture friezes banners and posters From the beginning of the Soviet regime posters were seen as a vitally important medium for communicating with the population of the vast territories of the USSR Stalin s image became a symbol of Bolshevik values and the personification of a revolutionary new type of society The persona created for Stalin in propaganda posters reflects how the state saw itself or at the very least how it wished to appear in the eyes of the people The Stalin who was celebrated in posters bore but scant resemblance to the man Iosif Vissarionovich Dzhugashvili whose humble origins criminal past penchant for violent solutions and unprepossessing appearance made him an unlikely recipient of uncritical charismatic adulation The Bolsheviks needed a wise nurturing and authoritative figure to embody their revolutionary vision and to legitimate their hold on power This leader would come to embody the sacred and archetypal qualities of the wise Teacher the Father of the nation the great Warrior and military strategist and the Saviour of first the Russian land and then the whole world This book is the first dedicated study on the marketing of Stalin in Soviet propaganda posters Drawing on the archives of libraries and museums throughout Russia hundreds of previously unpublished posters are examined with more than 130 reproduced in full colour The personality cult of Stalin in Soviet posters 1929 1953 is a unique and valuable contribution to the discourse in Stalinist studies across a number of disciplines
