The Antique Hunter's Death on the Red Sea C.L. Lippert, 2013-11-08 The late nineteenth century Biloxi potter George Ohr 1857 1918 was considered an eccentric in his time but has emerged as a major figure in American art since the discovery of thousands of examples of his work in the 1960s Currently Ohr is celebrated as a solitary genius who foreshadowed modern art movements While an intriguing narrative this view offers a narrow understanding of the man and his work that has

hindered serious consideration Ellen J Lippert in her expansive study of Ohr and his Gilded Age context counters this fable The tumultuous historical moment that Ohr inhabited was a formative force in his life and work Using primary documentation Lippert identifies specific cultural changes that had the most impact on Ohr Developments in visual display and the altered role of artists the southerner redefined in the wake of the Civil War interest in handicraft as an alternative to rampant mass production emerging tenets of social thought seeking to remedy worker exploitation and new assessments of morals and beauty as a result of collapsed ideals all played into the positioning Ohr purposefully designed for himself The second part of Lippert s study applies these observations to Ohr s body of work interpreting his stylistic originality to be expressions of the contradictions and oppositions particular to late nineteenth century America Ohr threw his inspiration into being both the sophisticate and the rube the commercial huckster and the selfless artist the socialist and the individualist the old fashioned craftsman and the artist genius He created art pottery as both a salable commodity and a priceless creation His work could be ugly and deformed or even obscene and beautiful Lippert reveals that far from isolated Ohr and his creations were very much products of his inspired engagement with the late nineteenth century

The American Roman Noir William Marling,1998-10-01 In *The American Roman Noir* William Marling reads classic hard boiled fiction and film in the contexts of narrative theories and American social and cultural history His search for the origins of the dark narratives that emerged during the 1920s and 1930s leads to a sweeping critique of Jazz Age and Depression era culture Integrating economic history biography consumer product design narrative analysis and film scholarship Marling makes new connections between events of the 1920s and 1930s and the modes styles and genres of their representation At the center of Marling s approach is the concept of prodigality how narrative represents having and having had too much Never before in the country he argues did wealth impinge on the national conscience as in the 1920s and never was such conscience so sharply rebuked as in the 1930s What asks Marling were the paradigms that explained accumulation and windfall waste and failure Marling first establishes a theoretical and historical context for the notion of prodigality Among the topics he discusses are such watershed events as the trial of Sacco and Vanzetti and the premiere of the first sound movie *The Jazz Singer* technology s alteration of Americans perceptive and figurative habits and the shift from synecdochical to metonymical values entailed by a consumer society Marling then considers six noir classics relating them to their authors own lives and to the milieu of prodigality that produced them and which they sought to explain Dashiell Hammett s *Red Harvest* and *The Maltese Falcon* James M Cain s *The Postman Always Rings Twice* and *Double Indemnity* and Raymond Chandler s *The Big Sleep* and *Farewell My Lovely* Reading these narratives first as novels then as films Marling shows how they employed the prodigality fabula s variations and ancillary value systems to help Americans adapt for better or worse to a society driven by economic and technological forces beyond their control

Art History for Comics Ian Horton,Maggie Gray,2022-09-20 This book looks at comics through the lens of Art History examining the past influence of art historical methodologies on comics scholarship to scope how they

can be applied to Comics Studies in the present and future It unearths how early comics scholars deployed art historical approaches including stylistic analysis iconography Cultural History and the social history of art and proposes how such methodologies updated in light of disciplinary developments within Art History could be usefully adopted in the study of comics today Through a series of indicative case studies of British and American comics like Eagle The Mighty Thor 2000AD Escape and Heartbreak Hotel it argues that art historical methods better address overlooked aspects of visual and material form Bringing Art History back into the interdisciplinary nexus of comics scholarship raises some fundamental questions about the categories frameworks and values underlying contemporary Comics Studies **Catalogue of Sales** Christie, Manson & Woods International Inc,1980-06-11 Catalogue of Auction Christie's East (Firm), **The Boys from Syracuse** Foster Hirsch,2000-09-05 From 1905 to the crash of 1929 Sam Shubert 1874 1905 and his brothers Lee 1874 1953 and J J 1878 1963 despite poor beginnings and near illiteracy created a theater monopoly unrivaled in history Their ruthless business tactics and showmanship made 42nd Street the heart of American popular theater and won them the most sought after stars of the day including Al Jolson Carmen Miranda Eddie Cantor Fanny Brice Mae West and Fred Astaire
