This book sets out to investigate the wealth of the artistic production that developed in Central Europe Austria and Bohemia in particular in the first half of the 19th century when Biedermeier appeared as an original attempt to give rise to a universal stylistic expression Its simplicity of line rigorous and simple although not lacking in elegance and refinement the appearance of the first craft productions based on standard models and its unquestionable modernity all make Biedermeier the first example of design the undisputed point of breakdown between Classicism and Modernism Indeed it is considered on the most fascinating genres of the 19th century The volume offers a 360 view of Central European production using more than 300 objects of extraordinary originality quality and workmanship from the National Gallery and Museum of Decorative and Applied Arts of Prague and from major Bohemian museums Paintings furnishings sculptures drawings graphic works artistic craftsmanship jewels ceramics and glassware that decorated the homes of gentry and bourgeois miniatures daguerreotypes Remarkable pieces such as the refined lady s desk designed and constructed in the workshop of the most important creator of Biedermeier furniture the Viennese Josef Danhauser 1780 1829 and a beautiful lyre shaped secretaire with walnut veneer and musical motif carvings that overcome the ostentation of Empire style Biedermeier Art and Furniture in Austria and Germany Wanda Quoika-Stanka, 1987 **Biedermeier** Radim Vondráček, 2010 **Art of Glass** Geoffrey Edwards, National Gallery of Victoria, 1998 Jointly published by the National Gallery of Victoria and Macmillan Publishers Australia this book is the first publication to document in depth the nature extent and history of the National Gallery of Victorias celebrated glass collection Its author and expert on the art of glass Geoffrey Edwards has selected the most magnificent works from the collection each reproduced in colour as the basis for a broader discussion of the history of glassmaking in the worlds leading production centres from the ancient Mediterranean to the present day With fine photographs by Garry Sommerfeld this book provides a most spectacular visual array **An Introduction to Nineteenth-Century Art** Michelle Facos, 2011-02-22

Using the tools of the new art history feminism Marxism social context etc An Introduction to Nineteenth Century Art offers a richly textured yet clear and logical introduction to nineteenth century art and culture This textbook will provide readers with a basic historical framework of the period and the critical tools for interpreting and situating new and unfamiliar works of art Michelle Facos goes beyond existing histories of nineteenth century art which often focus solely on France Britain and the United States to incorporate artists and artworks from Scandinavia Germany and Eastern Europe The book expertly balances its coverage of trends and individual artworks where the salient trends are clear trend setting works are highlighted and the complexity of the period is respected by situating all works in their proper social and historical context In this way

the student reader achieves a more nuanced understanding of the way in which the story of nineteenth century art is the story of the ways in which artists and society grappled with the problem of modernity Key pedagogical features include Data boxes provide statistics timelines charts and historical information about the period to further situate artworks Text boxes highlight extracts from original sources citing the ideas of artists and their contemporaries including historians philosophers critics and theorists to place artists and works in the broader context of aesthetic cultural intellectual social and political conditions in which artists were working Beautifully illustrated with over 250 color images Margin notes and glossary definitions Online resources at www.routledge.com/textbooks/facos with access to a wealth of information including original documents pertaining to artworks discussed in the textbook contemporary criticism timelines and maps to enrich your understanding of the period and allow for further comparison and exploration Chapters take a thematic approach combined within an overarching chronology and more detailed discussions of individual works are always put in the context of the broader social picture thus providing students with a sense of art history as a controversial and alive arena of study Michelle Facos teaches art history at Indiana University Bloomington Her research explores the changing relationship between artists and society since the Enlightenment and issues of identity Prior publications include *Nationalism and the Nordic Imagination Swedish Painting of the 1890s* 1998 *Art Culture and National Identity in Fin de Si cle Europe* co edited with Sharon Hirsh 2003 and *Symbolist Art in Context* 2009 **Biedermeier** Jan N. Art of Biedermeier ,1990 **Biedermeier** Radim Vondráček, 2008 **The Power of Art** Caroline Campbell, 2024-01-02 An epic work of art history that will transform our understanding of the world by unlocking the human stories behind millennia of art Taking readers from ancient Babylon to contemporary Pyongyang the eminent curator Caroline Campbell explains art s power to illuminate our lives and inspires us to benefit from its transformative and regenerative power Unlike the majority of contemporary art history this book is about much more than the cult of artists personalities Instead each chapter is structured around a city at a particularly vibrant moment in its history describing what propelled its creativity and innovation The emotions and societies she evokes are highly recognizable revealing how great art resonates powerfully by transcending the boundaries of time **Бидермейер** ,2009 **Is that Biedermeier?** Agnes Husslein-Arco, Sabine Grabner, 2016 This volume illustrates the development of art in Central Europe from 1830 1860 a period which begins in the age of Biedermeier but extends well beyond it It shows by means of a selection of representative works how art at this time developed independently and was not restricted to the historical Biedermeier era Is that Biedermeier we often ask of pictures which date from the same period but do not look typically Biedermeier The publication concentrates on these works in particular by showing the wide range of painting in the years between 1830 1860 through portraits landscapes and genre pictures The main focus lies on Austrian painters like Ferdinand Georg Waldm ller Rudolf von Alt and Friedrich von Amerling together with artists from Northern Italy Hungary Bohemia and Slovenia including Giuseppe
