in particular a lively pleasant popular writer devoted an essay lively and pleasant like himself to a very encouraging view of the profession We may be glad that his experience is so cheering and we may hope that all others who deserve it shall be as handsomely rewarded but I do not think we need be at all glad to have this question so important to the public and ourselves debated solely on the ground of money The salary in any business under heaven is not the only nor indeed the first question That you should continue to exist is a matter for your own consideration but that your business should be first honest and second useful are points in which honour and morality are concerned If the writer to whom I refer succeeds in persuading a number of young persons to adopt this way of life with an eye set singly on the livelihood we must expect them in their works to follow profit only and we must expect in consequence if he will pardon me the epithets a slovenly base untrue and empty literature

Craft Consciousness and Artistic Practice in Creative Writing Ben Ristow, 2022-02-10 Craft lives inside the artist and it operates in the mind not in standards or techniques Creative writers navigate thresholds in consciousness as they develop their arts practice *Craft Consciousness and Artistic Practice in Creative Writing* explores what it is to be an artist as it traces radical feminist and culturally embedded traditions in craft The new term craft consciousness identifies the nexus from which writers explore making processes and practitioner knowledge Writers as with all artists create and reimagine themselves anew and it is in this perpetual state of becoming that they find ways to enlarge their sense of artistry through an exploration of forms processes and mediums beyond the written word For writers this book initiates a reexamination of the mission of creative writing through disrupting patriarchal racist colonialist ableist and capitalist associations with dominant craft Drawing from twenty five interviews with living artists outside of writing and in a host of fields from conceptual art to leatherwork and dance the book shines a light on how the processes associated with craft are embodied Craft is an internalized matrix it need not be commodified for the marketplace or codified in the standards necessitated by institutions of higher education By redesigning writing workshops and MFA PhD programs through craft consciousness new potentials and collaborations emerge and it becomes more conceivable to imagine dynamic inclusive relationships between writers
