It brings crucial themes like the heritage of Rome, church and the Empire, the peasant and his Lord, nations and kings, empire and papacy, the eastern empire and the Crusades, transition to modern times, decline of empire and papacy, decline of feudalism, and development of trade and towns, and the Renaissance. Picturing Women in Late Medieval and Renaissance Art Christa Grössinger, 1997 This extensively illustrated book discusses the representation of women in the art of the late Middle Ages in Northern Europe. Drawing on a wide range of different media but making particular use of the rich plethora of woodcuts, the author charts how the images of women changed during the period and proposes two basic categories: the Virgin and Eve, good and evil. Within these, however, we discover attitudes to sinful, foolish, married, and unmarried women, and the style and use of these images exposes the full extent of the misogyny entrenched in medieval society.

Landmark Essays on Rhetoric and Literature Craig Kallendorf, 2017-10-03 The studies of rhetoric and literature have been closely connected on the theoretical level ever since antiquity and many great works of literature were written by men and women who were well versed in rhetoric It is therefore well worth investigating exactly what these writers knew about rhetoric and how the practice of literary criticism has been enriched through rhetorical knowledge The essays reprinted here have been arranged chronologically with two essays selected for each of six major

periods Antiquity the Middle Ages the Renaissance including Shakespeare the 17th century the 18th century and the 19th and 20th centuries Some are more theoretically oriented whereas others become exercises in practical criticism Some cover well trod ground whereas others turn to parts of the rhetorical tradition that are often overlooked Scholars in the field should benefit from having this material collected together and reprinted in one volume but the essays included here will also be useful to graduate students and advanced undergraduates for course work and general reading Students of rhetoric seeking to understand how the principles of their field extend into other forms of communication will find this volume of interest as will students of literature seeking to refine their understanding of the various modes of literary criticism Giovanni Bellini.
