Scott, 2025-08-29 Recent historians have pinpointed the ways in which legal systems in early modern Europe were improvisational flexible and contingent rather than immovable hierarchical and gendered *Evidence Crime and Forensics in the Early Modern Mediterranean* amplifies such findings by looking at law and its consumers in the Mediterranean broadly imagined between 1500 and 1750 The volume's essays enhance our awareness of how crimes were defined evidence was offered and forensic awareness appeared in secular inquisitorial and specially commissioned courts in Spain Italy and the Hapsburg Balkans This collection threads an important needle our authors recognize formal chains of command and legal commonplaces but nonetheless emphasize how such factors could be

challenged manipulated or ignored by illiterate and vulnerable populations It turns out that ordinary individuals in the early modern Mediterranean did not find themselves limited in their legal options and their degree of sophistication in court speaks volumes about networks of legal knowledge Furthermore in no way does the use of the courts between 1500 and 1750 imply more rational ways of seeking justice since emotions were always firmly on display even if rage and regret were being deployed for performative reasons Evidence Crime and Forensics in the Early Modern Mediterranean illustrates the range of questions we can put to archival sources from the early modern Mediterranean with plentiful insights as to how legal sources can illuminate history from below This collection will be a welcome addition for undergraduate and graduate courses on European history as well as a provocative resource for more general audiences *Mexican Prints at the Vanguard* Mark
