Early Modern Diplomacy and French Festival Culture in a European Context, 1572-1615 Bram van Leuven, 2023-08-14 This book is the first to explore the rich festival culture of late sixteenth and early seventeenth century France as a tool for diplomacy Bram van Leuven examines how the late Valois and early Bourbon rulers of the kingdom made conscious use of festivals to advance their diplomatic interests in a war torn Europe and how diplomatic stakeholders from across the continent participated in and responded to the theatrical and ceremonial events that featured at these festivals Analysing a large body of multilingual eyewitness and commemorative accounts as well as visual and material objects Van Leuven argues that French festival culture operated as a contested site where the diplomatic concerns of stakeholders from various national religious and social backgrounds fought for recognition

Inter, multi y transdisciplinariedad del arte para la educación, 2023-11-07 Esta propuesta es en sí misma un ejercicio metodológico desde la inter multi y transdisciplinariedad del arte para la educación en la que se expone una base teórica conceptual el abordaje metodológico didáctico y la realización de diversas prácticas a partir del establecimiento de momentos de reflexión de análisis y de crítica que a su vez permitan solucionar las problemáticas presentadas en el ámbito académico donde se relacionan el arte y la educación La idea fundamental que subyace en la

construcción del mismo todo educarte es fomentar el diálogo inter multi y transdisciplinario propiciar procesos creativos e incluir una visión conjunta para generar propuestas didácticas transversales entre el arte y la educación. Así dicha metodología desafía a los modos tradicionales de ser, actuar, pensar, sentir, crear e imaginar mediante planteamientos innovadores y prácticas que invitan a contextualizar lo aprendido y a generar nuevas formas de observar y accionar en nuestro entorno en consonancia con la realidad educativa universitaria actual.

Reterritorializing the Spaces of Violence in Colombia Constanza López Baquero, 2024-02-05 This volume examines how violence and resilience is experienced in urban spaces and explores the history of a variety of people told from the perspective of the margins. Reterritorializing the Spaces of Violence in Colombia provides critical and empirical examples of individuals and groups who believe in their collective power, reject war and violence, and manifest their resistance through art and activism in ways that rethread the social fabric. This book is the result of extensive fieldwork conducted over ten years in Medellín and Bogotá and it brings into focus the ways that hip hop poetry, urban art, and the creation of communities and shared experiences bring about new ways to dignify life and inhabit the city. It analyses the contemporary history of Colombia by drawing on the critical perspectives and tools of various disciplines. It also puts into dialogue the diverse and innovative scholarship from the North and the South that addresses inequality, violence, trauma, and resilience. Most importantly, it focuses on the challenges that women and young people face today in situations of conflict and post-conflict. This book will be of interest for researchers and students at the undergraduate and graduate levels as well as readers interested in issues of human rights and the history of the Americas.
