Art For The Nation:

Art for the Nation Brandon Taylor, 1999 Art first became public in Britain through a series of interlocking relationships between national galleries patrons collections of art and sections or classes of the population as a whole This study concentrates on London and analyzes the formation of the major national art institutions at its geographical and managerial centre

Art for the Nation National Gallery of Art (U.S.), 1981 **Art for the Nation** National Gallery of Art (U.S.), 2000 **The Group of Seven Art for a Nation** Charles C. Hill, 1945 Art for the Nation National Gallery of Art (U.S.), 1991 Art for the Nation celebrates the 50th anniversary of the opening of the National Gallery of Art on March 17 1941 That event was the culmination of many years effort by Andrew W Mellon to establish an art museum of the highest possible quality in the nation s capital The gift of his superlative collection of paintings and sculptures as well as the original Gallery building and endowments were quickly followed by major donations from other collectors This catalog examines the new donations of works of art made in celebration of the Gallery s 50th anniversary to enhance the permanent collection More than 150 benefactors are represented here by more than 300 works of art *National Galleries* Simon Knell, 2016-01-22 Are national galleries different from other kinds of art gallery or museum What value is there for the nation in a collection of international masterpieces How are national galleries involved in the construction national art National Galleries is the first book to undertake a panoramic view of a type of national institution which are sometimes called national museums of fine art that is now found in almost every nation on earth Adopting a richly illustrated globally inclusive comparative view Simon Knell argues that national galleries should not be understood as great galleries but as peculiar sites where art is made to perform in acts of nation building A book that fundamentally rewrites the history of these institutions and encourages the reader to dispense with elitist views of their worth Knell reveals an unseen geography and a rich complexity of performance He considers the ways the national galleries entangle art and nation and the differing trajectories and purposes of international and national art Exploring galleries artists and artworks from around the world National Galleries is an argument about how we think about and study these institutions Privileging the situatedness of each national gallery performance and valuing localism over universalism Knell looks particularly at how national art is constructed and represented He ends with examples that show the mutability of national art and by questioning the necessity of art nationalism Art for the Nation Andrew Robison, National Gallery of Art (Washington, D.C.), 1991 Art for the Nation National Gallery of Art (U.S.), 1981* **Art for the Nation** National Gallery of Art, 1991 **Art, Nation and Gender** Síghle Bhreathnach-Lynch, 2018-01-18 This title was first published in 2003 The essay collection explores the conjunctions of nation gender and visual representation in a number of countries including Ireland Scotland Britain Canada Finland Russia and Germany during the nineteenth and twentieth centuries The contributors show visual imagery to be a particularly productive focus for analysing the intersections of nation and gender since the nation and nationalism as abstract concepts

have to be embodied in ways that make them imaginable especially through the means of art They explore how allegorical female figures personify the nation across a wide range of visual media from sculpture to political cartoons and how national architectures may also be gendered They show how through such representations art reveals the ethno cultural bases of nationalisms Through the study of such images the essays in this volume cast new light on the significance of gender in the construction of nationalist ideology and the constitution of the nation state In tackling the conjunctions of nation gender and visual representation the case studies presented in this publication can be seen to provide exciting new perspectives on the study of nations of gender and the history of art The range of countries chosen and the variety of images scrutinised create a broad arena for further debate
