Art Of Australia:

The Art of Australia Robert Hughes, 1966 This edition was withdrawn six days before its planned release in Australian shops A revised edition was published in 1970 British Art for Australia, 1860-1953 Matthew C. Potter, 2018-12-21 Traditional postcolonial scholarship on art and imperialism emphasises tensions between colonising cores and subjugated peripheries The ties between London and British white settler colonies have been comparatively neglected Artworks not only reveal the controlling intentions of imperialist artists in their creation but also the uses to which they were put by others in their afterlives In many cases they were used to fuel contests over cultural identity which expose a mixture of rifts and consensus within the British ranks which were frequently assumed to be homogeneous British Art for Australia 1860 1953 The Acquisition of Artworks from the United Kingdom by Australian National Galleries represents the first systematic and comparative study of collecting British art in Australia between 1860 and 1953 using the archives of the Australian national galleries and other key Australian and UK institutions Multiple audiences in the disciplines of art history cultural history and museology are addressed by analysing how Australians used British art to carve a distinct identity which artworks were desirable economically attainable and why and how the acquisition of British art fits into a broader cultural context of the British world It considers the often competing roles of the British Old Masters e g Romney and Constable Victorian e g Madox Brown and Millais and modern artists e g Nash and Spencer alongside political and economic factors including the developing global art market imperial commerce Australian Federation the First World War and the coming of age of the Commonwealth A Companion to Australian Art Christopher Allen, 2021-04-27 A Companion to Australian Art is a thorough introduction to the art produced in Australia from the arrival of the First Fleet in 1788 to the early 21st century Beginning with the colonial art made by Australia's first European settlers this volume presents a collection of clear and accessible essays by established art historians and emerging scholars alike Engaging clearly written chapters provide fresh insights into the principal Australian art movements considered from a variety of chronological regional and thematic perspectives The text seeks to provide a balanced account of historical events to help readers discover the art of Australia on their own terms and draw their own conclusions The book begins by surveying the historiography of Australian art and exploring the history of art museums in Australia The following chapters discuss art forms such as photography sculpture portraiture and landscape painting examining the practice of art in the separate colonies before Federation and in the Commonwealth from the early 20th century to the present day This authoritative volume covers the last 250 years of art in Australia including the Early Colonial High Colonial and Federation periods as well as the successive Modernist styles of the 20th century and considers how traditional Aboriginal art has adapted and changed over the last fifty years The Companion to Australian Art is a valuable resource for both undergraduate and graduate students of the history of Australian artforms from colonization to postmodernism and for general readers with an interest in the nation's colonial art history
