Art Of Literary Translation:

Performing Without a Stage Robert Wechsler, 1998 *Performing Without a Stage* is a lively and comprehensive introduction to the art of literary translation for readers of foreign fiction and poetry who wonder what it takes to translate how the art of literary translation has changed over the centuries what problems translators face in bringing foreign works into English and how they go about solving these problems This book will also be of interest to translators writers editors critics and literature students dealing as it does often controversially with such matters as the translator's fidelity to the author the publishing and reviewing of translations the nearly nonexistent public image of the stageless translator and the value for writers and scholars of studying and practicing translation

The Art of Translation Jirí Levý, Jiří Levý, 2011 Jirí Levý's seminal work *The Art of Translation* considered a timeless classic in Translation Studies is now available in English Having drawn on adjacent disciplines the methodology of Czech functional sociosemiotic structuralism and the state of the art in the West Levý synthesized his findings and experience in the field presenting them in a reader friendly book which combines the approaches of a theoretician systemic analyst historian critic teacher practitioner and populariser Although focused on literary translation from theoretical descriptive and historical perspectives it presents a conceptualization of a general theory addressing a number of issues discussed today The practical mission of the book as a theory extending to practice is based on the same historical dialectic affinity of methods norms functions and values accounting for the translator's agency and other contextual agents involved in the communication process The book will be useful to translators researchers students and teachers in Translation and Literary Studies

The Art of Literary Translation Gerhart Teuscher, 1993

The Art of Accommodation Leon Burnett, Emily Lygo, 2013 This collection of essays is a milestone in the establishment of translation theory within the field of Russian literature and culture an area that has been neglected in the Anglophone world The volume is defined by the contributors' insistence that translation should be viewed as the accommodation of a new text within the host culture

The Art of Literary Translation Hans Schulte, Gerhart Teuscher, 1993-07-02 The literary translator has long been a figure who has suffered from a lack of respect and recognition for his invaluable contributions to his particular culture Indeed as Hans Schulte notes in the introduction the debt owed him is great for without him his community would be doomed to provincialism a state in which no society can survive in the modern world All too often the translator is perceived merely as a literary mechanic between artist and audience rather than as an artist himself In this volume the translator his art and his role in society are addressed from a variety of angles in the collected essays As a whole the work paints a new portrait of the literary translator which brings out the finest points of his art and highlights the enormous value of his contributions Co published with McMaster University

The Art of Translation Ranjit Bolt, 2012-06-18 I try to follow the rule laid down by perhaps the greatest translator of all John Dryden who maintained that a translator should and I

paraphrase make the version as entertaining as possible while at the same time remaining as faithful as possible to the spirit of the original Ranjit Bolt In this book Ranjit Bolt takes what is essentially a practitioner's view of the art of literary translation His observations are born of a quarter of a century's experience of translating for a living especially for the theatre While rooted in practice however this survey does not shy away from theory but is packed with allusion to great translation theorists such as Walter Benjamin and John Dryden as well as adumbrating Bolt's own theoretical stance

Translating Chinese Art and Modern Literature Yifeng Sun, Chris Song, 2019-02-25 Translating Chinese Art and Modern Literature examines issues in cross cultural dialogue in connection with translation and modern Chinese art and literature from interdisciplinary perspectives This comprises the text image dialogue in the context of Chinese modernity and cross cultural interaction between modern literature in Chinese and other literatures This edited collection approaches these issues with discrete foci and approaches and the ten chapters in this volume are to be divided into two distinct parts The first part highlights the mutual effects between literary texts and visual images in the media of book painting and film and the second part includes contributions by scholars of literary translation

The Art of Translating Poetry Burton Raffel, 1988-09-15 This book by a well known translator and critic is divided into two parts the first dealing with the linguistic and other more technical aspects of translating poetry the second involved with more practice oriented matters The chapters in Part One examine the specific constraints of language and the unavoidable linguistic bases of translation the constraints of specific languages forms and genres and prosody and comparative prosody Part Two looks at the subjective element in translation collaborative translation the translation of oral poetry and the translator's responsibility Languages discussed include Indonesian Japanese Chinese Old and Middle English French German Spanish Italian Persian Russian Latin and Greek The book argues inter alia that literal translation is impossible that no translation can fully create the original but that good literary translation can create a usable approximation that translation is secondary not only to the original work being translated but also to the linguistic and literary nature of the language being translated into that the literary translator's primary responsibility is to the work he is translating that there is nothing ever definitive about any translation that the poetry translator must be a poet and poems should not be translated into prose and that there must be a subjective identification between translator and translated work This is the first attempt to systematize linguistic information about the translation of poetry It is also the first book to range widely over the languages and literatures of the past and the present and European and Asian languages and literatures as well Raffel is the first author to combine in one study linguistic and scholarly knowledge and extensive experience of translation
