Art Of The Etruscans:

The Etruscans Federica Borrelli, Maria Cristina Targia, 2004 Beginning in the eighth century B C an expanse of central Italy extending from the edges of the Po River plain to the shores of the Tyrrhenian Sea became the setting for the civilization of the Etruscans Although this people s geographic and linguistic origins remain controversial the Etruscans were deeply rooted in the region and wove a tightly knit fabric of commercial and artistic trade throughout the Mediterranean This well organized and richly illustrated book examines the discoveries and masterpieces of the Etruscan world Unforgettable paintings works in gold and sculpture in terracotta and bronze were created by the Etruscans while extraordinary painted vases were imported from Greece Scattered throughout central Italy and marked by a variety of architectural forms ancient cemeteries can be found at the seashore carved into tufa clinging to cliff walls or buried beneath the fields From these necropolises dazzling evidence continues to emerge of a culture that was rich multifaceted open and peaceful a culture destined to merge with Rome after centuries of independence The Etruscans tells the story of this culture in a clear narrative that will appeal equally to both scholarly and popular audiences

Murlo and the Etruscans Richard Daniel De Puma, Jocelyn Penny Small, 1994 Murlo and the Etruscans explores this and other mysteries in a collection of twenty essays by leading specialists of Etruscan and classical art all of whom have been associated with the Murlo site Numerous photographs and drawings accompany the essays The first eleven chapters survey specific groups of Etruscan objects and challenge the view of Etruscan art as provincial or derivative Interpretations of the magnificent series of decorated terra cotta frieze plaques and other architectural elements contribute to an understanding of Murlo and related Etruscan centers Plaques depicting a lively Etruscan banquet offer a way to detect differences between Etruscan and ancient Greek society The remaining nine chapters treat various aspects of Etruscan art often moving beyond ancient Murlo both geographically and temporally They examine funerary symbolism sculpted amber and amber trade contacts along the ancient Adriatic Coast depictions of domesticated cats votive terra cottas of human anatomical parts and how they help in understanding Etruscan medicine and the adaptation of Greek style myth and iconography in Etruscan art These essays will have a broad impact on the study of the ancient Mediterranean They will certainly be required reading not only for Etruscologists but for anyone with an interest in the world of classical antiquity The range of subjects moving in wide arcs around the archaeological site at Murlo brings the site into focus in a way that a series of standard archaeological site reports could not Kenneth Hamma J Paul Getty Museum There is a fine and commendable interweaving and intertwining of thoughts and scholarly research throughout Murlo and the Etruscans It will be a useful reference source for the art of Etruscan coroplast wherein lies the forte of the Etruscan sculptor Mario A Del Chiaro University of California
