personalities of those who cared for the collection this textured account of the imperial treasures highlights magnificent artworks and their arduous transit through politics war and diplomatic reconciliations Over the years control of the collections has been fiercely contested from early dynasties through Mongol and Japanese invaders to Nationalist and Communist rivals a saga that continues today This first book length investigation of the imperial collections will be of great interest to China scholars historians and Chinese art specialists Its tales of palace intrigue will fascinate a wide variety of readers

Henning's Scholarly Works on Chinese Combative Traditions Stanley Henning, 2018-03-09 What we think are Asian martial arts is usually derived by Hollywood images fanciful novels and a superficial idea of what role combatives played in the long histories of Far Eastern countries There are only a few people in the world who can truly be called scholars in this field A leading figure in the USA for the study of Chinese martial traditions is Stanley Henning This special anthology is a collection of Henning's superb articles that were previously published in the Journal of Asian Martial Arts including one he co wrote with Marnix Wells a leading British scholar on Chinese martial traditions Henning has little patience for those who miss the original essence of practical martial arts and who fell under the enticement of flowery boxing True combative arts are not play although they influenced other practices In the fifteen chapters included here you ll find a strong historic base for what the martial arts meant in old China and how they changed over the centuries In order to understand martial arts as they were evolving over dynastic periods it is necessary to look at the political and social settings technology and even geography and linguistics When it comes to research Henning presents clear facts and accurate conclusions At the same time he wisely states what is open to debate and requires further research Why is the chapter on Korean martial arts included in this anthology Because the Chinese had tremendous influence on their neighbors including Japan and Korea Thanks to a few scholars like Henning and Wells we are getting a clearer picture of just how much Chinese martial arts have influenced the fighting arts in other countries Leading scholars are having an impact on how Asian martial traditions are perceived understood and practiced Henning introduces the new wave of Chinese scholars who have presented

their findings in various articles and books opening new vistas for all interested in this growing field of study at least for those who read Chinese Fortunately Henning's work is in English This anthology is not an easy read for those unfamiliar with Chinese history the various dynasties the terminology and variety of martial systems However it will no doubt benefit the serious scholar of Chinese martial arts and hopefully others will likewise benefit by patiently reading each chapter to broaden their understanding of the rich martial culture of China

The Cold War in Asia Yangwen Zheng, Hong Liu, Michael Szonyi, 2010 The Cold War stayed cold in Europe but it was hot in Asia Its legacy lives on in the region In none of the three dominant historiographical paradigms orthodox revisionist and post revisionist does Asia or the rest of the Third World figure with much significance What happens to these narratives if we put them to the test in Asia This volume argues that attention to what has been conventionally considered the periphery is essential to a full understanding of the global Cold War Foregrounding Asia necessarily leads to a re assessment of the dominant narratives This volume also argues for a shift in focus from diplomacy and high politics alone towards research into the culture of the Cold War era and its public diplomacy As a whole the essays contribute to enriching our understanding of what was really happening in an era that is too often understood in the catch all framework of the Cold War Akira Iriye Harvard University
