represents the first art historical consideration of the patronage of the Ottonian Emperors Otto III 983 1002 and Henry II 1002 1024 Author Eliza Garrison analyzes liturgical artworks created for both rulers with the larger goal of addressing the ways in which individual art objects and the collections to which they belonged were perceived as elements of a material historical narrative and as portraits Since these objects and images had the capacity to stand in for the ruler in his physical absence she argues they also performed political functions that were bound to their ritualized use in the liturgy not only during the ruler's lifetime but even after his death Garrison investigates how treasury objects could relay officially sanctioned information in a manner that texts alone could not offering the first full length exploration of this central phenomenon of the Ottonian era *Books and Pamphlets, Including Serials and Contributions to Periodicals* Library of Congress. The Aesthetic State Josef Chytrý, 2024-06-04 Shortly after the middle of the eighteenth century a number of thinkers from the German speaking lands began to create a paradigm drawn from their impressions of a distant historical reality ancient Athens added to it a new mode of thought modern dialectics and at times even paid homage to the ancient Greek deity Dionysos to materialize their longing for an ideal The influence of these forces came to permeate modern German consciousness deifying the concept and activity of art reviving the Platonic and Sanskrit vision of the cosmos as play and aesthetic creation and projecting a way of life and labor that would honor not the commodity but the aesthetic product With rigorous commitment to primary sources and an unflagging critical engagement with the ideas and concrete situations they raise Josef Chytrý provides a comprehensive and extensive study of this central motif in German thought from Winckelmann to Marcuse Chytrý takes aesthetic state to signify the concentrated modern intellectual movement to revitalize the radical Hellenic tradition of the polis as the site of a beautiful or good life The movement begins with the classicism of Winckelmann Wiemar aesthetic humanism Wieland Herder Goethe and Schiller's formal theory of the aesthetic state and continues through the idealism of the Swabian dialecticians Holderlin Hegel and Schelling and the realism of Marx Wagner and Nietzsche It culminates in the postrealism of Heidegger Marcuse and the aesthetic modernist artist Walter Spies who initiated a dialogue with the non Western theatre state of the isle of Bali Josef Chytrý concludes that the future speculation on the ideal of an aesthetic state must come to terms with the postrealist themes of ontological anarchy aesthetic ethos and theatre state In a bold effort to stimulate such speculation Chytrý indicates how proponents of the aesthetic state might join forces with Rawlsian political theory to promote further the organon of persuasion that in his view serves as the common fount for the ancient dialectical and contractarian quests for the polis This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1989 [Galerius and the Will of Diocletian](#) William Lewis Leadbetter, 2009-12-04 Drawing from a variety of sources literary visual archaeological papyri

inscriptions and coins the author studies the nature of Diocletian's imperial strategy his wars his religious views and his abdication The author also examines Galerius' endeavour to take control of Diocletian's empire his failures and successes against the backdrop of Constantine's remorseless drive to power The first comprehensive study of the Emperor Galerius this book offers an innovative analysis of his reign as both Caesar and Augustus using his changing relationship with Diocletian as the principal key to unlock the complex imperial politics of the period

Anglo-Saxon Styles Catherine E. Karkov, George Hardin Brown, 2012-02-01 Art historian Meyer Schapiro defined style as the constant form and sometimes the constant elements qualities and expression in the art of an individual or group Today style is frequently overlooked as a critical tool with our interest instead resting with the personal the ephemeral and the fragmentary Anglo Saxon Styles demonstrates just how vital style remains in a methodological and theoretical prism regardless of the object individual fragment or process studied Contributors from a variety of disciplines including literature art history manuscript studies philology and more consider the definitions and implications of style in Anglo Saxon culture and in contemporary scholarship They demonstrate that the idea of style as a constant form has its limitations and that style is in fact the ordering of form both verbal and visual Anglo Saxon texts and images carry meanings and express agendas presenting us with paradoxes and riddles that require us to keep questioning the meanings of style

Moving Lessons Janice Ross, 2012-11 Moving Lessons is an insightful and sophisticated look at the origins and influence of dance in American universities focusing on Margaret H Doubler who established the first university courses and the first degree program in dance at the University of Wisconsin Dance educator and historian Janice Ross shows that H Doubler 1889 1982 was both emblematic of her time and an innovator who made deep imprints in American culture An authentic New Woman H Doubler emerged from a sheltered female Victorian world to take action in the public sphere She changed the way Americans thought not just about female physicality but also about higher education for women Ross brings together many discourses from dance history pedagogical theory women's history feminist theory American history and the history of the body in intelligent exciting and illuminating ways and adds a new chapter to each of them She shows how H Doubler like Isadora Duncan and other modern dancers helped to raise dance in the eyes of the middle class from its despised status as lower class entertainment and dangerous social interaction to a serious enterprise Taking a nuanced critical approach to the history of women's bodies and their representations Moving Lessons fills a very large gap in the history of dance education

Problems of Style Alois Riegl, 2018-12-04 Written at the height of the arts and crafts movement in fin de siècle Vienna Alois Riegl's *Stilfragen* represented a turning point in defining art and understanding the sources of its inspiration Demonstrating an uninterrupted continuity in the history of ornament from the ancient Egyptian through the Islamic period Riegl argued that the creative urge manifests itself in both great art and the most humble artifact and that change is an inherent part of style This new translation which renders Riegl's seminal

work in contemporary readable prose allows for a fresh reexamination of his thought in light of current revisionist debate His discovery of infinite variation in the restatement of several decorative motifs the palmette rosette tendril led Riegl to believe that art is completely independent from exterior conditions and is beyond individual volition This thinking laid the groundwork for his famous concept of *Kunstwollen* or artistic intention Something that the translation will I hope convey is the passion invsted in Riegl s enterprise We are made to feel that the issues he discussed mattered vitally to him it was the very nature of art and its relation to human life that were at stake art as an absolute necessity From the preface of Henri Zerner Alois Reigl 1858 1905 was Curator of Textiles at the Museum of Art and Industry in Vienna during most of his career and wrote many influential works on the history of art including *Spatromische Kunstgeschichte* Evelyn Kain is Associate Professor of Art History at Ripon College Ripon Wisconsin David Castriota is Assistant Professor of Art History at Sarah Lawrence College Originally published in 1993 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Information Theory , *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office,1968 Voices in Aerosol Caitlin Frances Bruce,2024-01-09 Looking specifically at the Mexican city of Le n in Guanajuato the book shows graffiti as a contested tool for voicing public demands It considers the changing perceptions and recognition of graffiti artists their right to the city and the use of public space from 2000 to 2018 Bruce studies the history of independent graffiti and state sanctioned graffiti art to claim that its institutionalization creates tensions in the social relationships inside artist collectives and fluctuating ideas about urban art creative labor and neoliberal entrepreneurship **Kenchreai, Eastern Port of Corinth** , The Cambridge Companion to Greek Tragedy P. E. Easterling,1997-10-02 As a creative medium ancient Greek tragedy has had an extraordinarily wide influence many of the surviving plays are still part of the theatrical repertoire and texts like Agamemnon Antigone and Medea have had a profound effect on Western culture This Companion is not a conventional introductory textbook but an attempt by seven distinguished scholars to present the familiar corpus in the context of modern reading criticism and performance of Greek tragedy There are three main emphases on tragedy as an institution in the civic life of ancient Athens on a range of different critical interpretations arising from fresh readings of the texts and on changing patterns of reception adaptation and performance from antiquity to the present Each chapter can be read independently but each is linked with the others and most examples are drawn from the same selection of plays *A New History of Western Art* Koenraad Jonckheere,2022-10-15 A radical re examination of 2 500 years of European art deconstructing and demystifying its long history from ancient to present How has art evolved from the pursuit of the ideal human form to a black

square on a white canvas Why is a banana duct taped to a wall worth more on the art market than a beautiful seventeenth century landscape By taking art for what it actually is a piece of stone or wood a sheet of paper with some lines drawn on it a painted canvas this lively and accessible account shows how seemingly meaningless objects can be transformed into celebrated works of art Breaking with conventional notions of artistic genius Koenraad Jonckheere explores how stories and emotions give meaning to objects and why changing historical circumstances result in such shifting opinions over time Tracing its story from ancient times to present A New History of Western Art reframes the evolution of European art and radically reshapes our understanding of art history Published in association with Hannibal Books
