Lawn Tennis William Tatem Tilden,2005 *The Art of Lawn Tennis* William Tilden,2021-07-06 Excerpt
INTRODUCTIONTennis is at once an art and a science The game as played by such men as Norman E Brookes the late Anthony Wilding William M Johnston and R N Williams is art Yet like all true art it has its basis in scientific methods that must be learned and learned thoroughly for a foundation before the artistic structure of a great tennis game can be constructed Every player who helps to attain a high degree of efficiency should have a clearly defined method of development and adhere to it He should be certain that it is based on sound principles and once assured of that follow it even though his progress seems slow and discouraging I began tennis wrong My strokes were wrong and my viewpoint clouded I had no early

training such as many of our American boys have at the present time No one told me the importance of the fundamentals of the game such as keeping the eye on the ball or correct body position and footwork I was given a racquet and allowed to hit the ball Naturally like all beginners I acquired many very serious faults I worried along with moderate success until I had been graduated from school beating some fairly good players but losing some matches to men below my class The year following my graduation the new Captain of my Alma Mater s team asked me if I would aid him in developing the squad for next year Well Fools rush in where angels fear to tread so I said Yes At that point my tennis education began The youngsters comprising our tennis squad all knew me well and felt at perfect liberty to ask me as many questions as they could think up I was besieged with requests to explain why Jones missed a forehand drive down the side line or Smith couldn t serve well or Brown failed to hit the ball at all Frankly I did not know but I answered them something at the moment and said to myself it was time I learned some fundamentals of tennis So I began to study the reasons why certain shots are missed and others made Why certain balls are hit so much faster though with less effort than others and why some players are great while most are only good I am still studying but my results to date have resulted in a definite system to be learned and it is this which I hope to explain to you in my book Tennis has a language all its own The idioms of the game should be learned as all books on the game are written in tennis parlance The technical terms and their counterpart in slang need to be understood to thoroughly grasp the idea in any written tennis account I do not believe in using a great deal of space carefully defining each blade of grass on a court or each rule of the game It gets nowhere I do advocate teaching the terms of the game
