Russian Children's Literature and Culture Marina Balina, Larissa Rudova, 2013-02-01 Soviet literature in general and Soviet children's literature in particular have often been labeled by Western and post Soviet Russian scholars and critics as propaganda. Below the surface however Soviet children's literature and culture allowed its creators greater experimental and creative freedom than did the socialist realist culture for adults. This volume explores the importance of children's culture from literature to comics to theater to film in the formation of Soviet social identity and in connection with broader Russian culture history and society. *The Canada Law Journal*, 1886

Essays in Arabic Literary Biography: 1850-1950 Roger Allen, Terri DeYoung, Joseph Edmund Lowry, Devin J. Stewart, 2009 The essays which discuss authors in a variety of literary genres and across the spectrum of the region concerned from Iraq in the East to Tunisia in the West provide clear evidence of the gradually changing roles of the indigenous and the imported which are an intrinsic feature of the movement known in Arabic as al bahada cultural revival and the way in which Arab litterateurs chose to respond to the inspiration that such changes inevitably engendered.

The Art of Religion Maarten Delbeke, 2016-04-01 Bernini and Pallavicino the artist and the Jesuit cardinal are closely related figures at the papal courts of Urban VIII and Alexander VII at which Bernini was the principal artist. The analysis of Pallavicino's writings offers a new perspective on Bernini's art and artistry and allow us to understand the visual arts in papal Rome as a making manifest of the fundamental truths of faith. Pallavicino's views on art and its effects differ fundamentally from the perspective developed in Bernini's biographies offering a perspective on the tension between artist and patron work and message. In Pallavicino's writings the visual arts emerge as being intrinsically bound up with the very core of religion involving questions of idolatry, mimesis and illusionism that would prove central to the aesthetic debates of the eighteenth century.
