## Art Of The Siesta:

Art of the Siesta Thierry Paquot, 2005 With charming urbanity and lightness of touch Thierry Paquot argues the case for those few snatched moments of rest taken during the day in an elegantly illustrated book that will make a handsome gift for any occasion This refreshingly original contribution to the literature of relaxation is a wonderful sometimes erotic philosophical read that encourages us to cherish the age old tradition of the siesta which has ancient roots in antiquity yet is yielding even in Mediterranean lands to the tyranny of the 9 to 5 workday Whether a heavy sleep or a five minute doze an afternoon nap or a mid morning daydreaming the siesta comes in many forms all of which permit us to relax and reflect in the midst of a hectic daily schedule More than that the siesta represents the art of living an assertion of human autonomy in an increasingly corporatized and globalized culture Each chapter muses on a different aspect of the siesta and celebrates the importance of unconstructed time as depicted in painting literature and philosophy throughout history These moments of rest are a hidden muse responsible for many of our cultural monuments and allow an intertwining of the intellectual and the erotic in everyday life The book is punctuated with 16 illustrations depicting the art inspired by the siesta The Art of the Siesta is a celebration of those fleeting moments when the mind is free to reflect enjoy and recover As Paquot writes the siesta is a means for us to reclaim our own time outside the clockmakers control The siesta is our liberator *Academic Days of Timișoara* Georgeta Rață, 2011-08-08 Academic Days of Timi oara Language Education Today is a book of the proceedings of the 3rd International Symposium Language Education Today Between Theory and Practice held in Timi oara Romania on May 6 7 2011 under the auspices of the Romanian Academy It will appeal to teachers of modern languages no matter the level of instruction The papers it contains deal with two main approaches of the teaching of languages in Europe Asia North America and South America linguistics theoretical linguistics English French German Serbian and Swiss French descriptive linguistics Albanian English French German Italian Romanian Spanish and Serbian applied linguistics Albanian Aromanian Bahasa Malaysia Bosnian Croatian English German Hungarian Italian Persian Russian Serbian Spanish and Turkish and languages for specific purposes Croatian English French German Japanese Romanian Russian Ruthenian Serbian and Spanish *Signs of the Great Refusal* Tedd Siegel, 2023 In recent years developed countries have seen the rise of discussions concerning the problem with work today Since this literature tends to reflect the frustrations of the professional managerial class as well as other workers in globalized services industries in the digital age it is often at a significant distance from the concerns of the organized labor movement and the traditional Left Much of this literature presents an unacceptable either or workers are encouraged either to lean in and become better human capital or else to develop forms of palliative care for these same neoliberal selves by means of personal projects of self optimization recovery and wellness In Signs of the Great Refusal Tedd Siegel challenges the assumptions supporting these highly constrained possibilities asking instead what it might take to deprivatize and repoliticize work itself under contemporary conditions in order to make a broad

based politics of refusal potentially viable Where postwork antiwork and degrowth discussions taking place today often describe and promote various postwork imaginaries in which the decommodification of labor is only implied Signs of the Great Refusal is concerned specifically with the postwork political imaginary Taking up a question formulated by Peter Fleming Siegel asks Can the impossibility at the heart of contemporary capitalism be politically activated to oppose and escape work as we know it

**The Art of the Nap** Harriet Griffey, 2004 21st century living demands a longer working day than ever before As a consequence the majority of the adult working population is sleep deprived to the point where their emotional and creative life suffers The secret to survival lies in the nap already acknowledged by stress health and productivity experts as the answer to a more successful and relaxed life But naps aren't just for the sleep deprived and work weary they are an end in themselves time out for restful contemplation and relaxation An antidote to the stresses and strains of daily life Twenty minutes a day of essential me time to be used solely for the benefit of the individual But it doesn't come easy to the uninitiated taking time out for the self takes practice for many There is an art to the nap and it needs to be learnt his inspiring little book looks at the art of the nap from every angle the story famous nappers colours to promote rest learning how to nap types of nap and music to nap by to name a few The wonderfully restful words are accompanied by contemporary photographs to inspire even the most active
