Conceptual Revolutions in Twentieth-Century Art David W. Galenson,2009-09-28 Galenson combines social scientific methods with qualitative analysis to produce a new interpretation of modern art *Old Masters and Young Geniuses* David W. Galenson,2011-06-27 When in their lives do great artists produce their greatest art Do they strive for creative perfection throughout decades of painstaking and frustrating experimentation or do they achieve it confidently and decisively through meticulous planning that yields masterpieces early in their lives By examining the careers not only of great painters but also of important sculptors poets novelists and movie directors *Old Masters and Young Geniuses* offers a profound new understanding of artistic creativity Using a wide range of evidence David Galenson demonstrates that there are two

fundamentally different approaches to innovation and that each is associated with a distinct pattern of discovery over a lifetime. Experimental innovators work by trial and error and arrive at their major contributions gradually late in life. In contrast, conceptual innovators make sudden breakthroughs by formulating new ideas usually at an early age. Galenson shows why such artists as Michelangelo, Rembrandt, Cézanne, Jackson Pollock, Virginia Woolf, Robert Frost, and Alfred Hitchcock were experimental old masters and why Vermeer, van Gogh, Picasso, Herman Melville, James Joyce, Sylvia Plath, and Orson Welles were conceptual young geniuses. He also explains how this changes our understanding of art and its past. Experimental innovators seek and conceptual innovators find. By illuminating the differences between them, this pioneering book provides vivid new insights into the mysterious processes of human creativity.

Art in the San Francisco Bay Area, 1945-1980
 Thomas Albright, 2023-12-22
Art in the San Francisco Bay Area 1945-1980: An Illustrated History by Thomas Albright provides a comprehensive exploration of the postwar art movement in one of America's most vibrant cultural hubs. Spanning over three decades, this book delves into the unique contributions of the San Francisco Bay Area to the nation's artistic heritage, covering the evolution of its art scene, its rise to prominence, and its eventual decline in relation to New York's dominance in the 1960s. Originally sparked by a series of lectures Albright gave at the San Francisco Museum of Modern Art in 1974, the book offers a rich narrative that blends personal insight with rigorous research. Albright, a longtime art critic for the San Francisco Chronicle, brings his extensive experience and insider perspective to the task of documenting a previously unexamined period in American art history. The book's beautifully illustrated pages not only capture the artistic essence of the region but also shine a light on the creative figures and movements that shaped the Bay Area's distinctive artistic voice. This invaluable volume serves as both a historical record and an engaging guide for anyone interested in the evolution of modern art in the San Francisco Bay Area. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1985.

Curating the Contemporary in the Art Museum Malene Vest Hansen, Kristian Handberg, 2023-02-24
Curating the Contemporary in the Art Museum investigates the art museum as a space where the contemporary is staged in exhibitions, collecting practices, communication, and policies. *Curating the Contemporary in the Art Museum* traces the art museum back to the postwar era. Including contributions by established and emerging art historians, academics, and curators, the book proposes that the art museum is engaged in the contemporary in a double sense: it represents contemporary art while the contemporary condition itself also has a significant impact on art and the museum that houses it. Presenting a diverse range of international cases of exhibitions and curatorial practices, which hail primarily from Europe and Scandinavia, the essays examine the politics of staging national, international, and global framings.

of modernism as well as the new public spaces shaped in digital practices and changing political frameworks The book investigates both the seminal and the unknown exhibitions and institutions that created contemporary art as we know it today Curating the Contemporary in the Art Museum provides a historical perspective on the museum of contemporary art It constitutes a step towards differencing the canon of modernist and contemporary art and a more complex understanding of the politics of curating the contemporary in the art museum why it will be of interest to academics and students engaged in the study of museums curating exhibitions and art history
