Buddhism And Society A Great Tradition And Its Burmese Vicissitudes By Spiro:

Buddhism and Society Melford E. Spiro, 1982-05-27 The current Western interest in Buddhism and other Eastern religions is among other reasons both the result of and the stimulation for an entire library of books purporting to bring the Wisdom of the East to an audience for whom the wisdom of the West has failed This book is not an example of that genre It is an attempt to interpret Buddhism in the light of some current theories about religion As a work of scholarship rather than a homiletic tract or an apologetic treatise its aim is to understand Buddhism as one historical variant of the generic human attempt to find meaning and hope in a sacred order that transcends the mundane order of existence its aim is not to encourage or discourage either a devotional or a soteriological interest in Buddhism **Traditions of Buddhist Practice in Burma** Gustaaf Houtman, 1990 **Interpreting Proverbs 11:18-31, Psalm 73, and Ecclesiastes 9:1-12 in Light Of, and as a Response To, Thai Buddhist Interpretations** Kari Storstein Haug, 2012-03-19 This book argues that an approach to Buddhist Christian dialogue where biblical texts are analyzed by placing Christian and Buddhist perspectives side by side is a method which provides a good platform for further in depth dialogue **The Modern Anthropology of South-East Asia** Victor King, William D. Wilder, 2020-09-10 This is a comprehensive introduction to the social and cultural anthropology of South East Asia It provides an overview of the major theoretical issues and themes which have emerged from the engagement of anthropologists with South East Asian communities a succinct historical survey and analysis of the peoples and cultures of the region Most importantly the volume reveals the vitally important role which the study of the area has occupied in the development of the concepts and methods of anthropology from the perspectives of Edmund Leach to Clifford Geertz Maurice Freedman to Claude Levi Strauss Lauriston Sharp to Melford Spiro *Religion and the Global Politics of Human Rights* Thomas Banchoff, Robert Wuthnow, 2011-05-04 Are human rights universal or the product of specific cultures The contributors to this volume address this and many other questions as they examine through a bottom up approach the interaction of human rights and religion in practice and the challenges they pose for national and international policymakers **Religion, Health and Suffering** John R. Hinnells, Roy Porter, 2013-10-28 First Published in 1999 The interaction between religion and medicine is universal throughout recorded history They meet at the great turning points of life at birth at moments of acute suffering and at death Not only are priest and doctor often needed at the same time and place the two roles have also been combined in ancient and modern societies This volume looks at whether healers and religions have worked in harmony or been in conflict as well as their frequent and substantive interaction An International Workshop lies behind this volume and one of the distinctive features of this project is that it brought together scholars of religion historians of medicine anthropologists and medical practitioners **Communicating Christ in the Buddhist World** David S. Lim, Paul H. De Neui, 2006 We issue this book amidst the challenges arising from the resurgence of religions in the various nations of the post modern world As Islamic fundamentalism grabs the headlines Buddhist fundamentalism has

also been on the rise particularly in Southeast Asia mainly in reaction to the conversionist incursions of Islam and Christianity among them Over the last thirty years Buddhism has also seen growth in the West as its non dogmatic rationality offer of spiritual mentoring and opportunity for personal transformation have made it attractive to post modern society Are there both theological approaches as well as practical strategies for evangelical Christians to use our evangelization efforts among Buddhists without any unnecessary problems to the increasing conflicts in the encounter of religions We believe there are This is the fourth and latest volume in the Buddhist World series which includes Sharing Jesus in the Buddhist World Sharing Jesus Holistically with the Buddhist World and Sharing Jesus Effectively in the Buddhist World Compiled from papers presented at the annual SEANET Missiological Forum in Thailand Communicating Christ in the Buddhist World delivers fresh insights from mission theologians and practitioners The first four chapters reflect on the theological framework by which Christians can fulfill the biblical mandate to evangelize and transform peoples The next five chapters consider the significant sociological issues that have arisen in the Christian encounter with Buddhist peoples The final three suggest some strategic ways forward for effective evangelism in the Buddhist world May this book challenge the international Christian community to find better ways of relating to and approaching people of other faiths

Jataka Stories in Theravada Buddhism Naomi Appleton, 2016-05-06 Jataka stories stories about the previous births of the Buddha are very popular in Theravada Buddhist countries where they are found in both canonical texts and later compositions and collections and are commonly used in sermons children's books plays poetry temple illustrations

rituals and festivals Whilst at first glance many of the stories look like common fables or folktales Buddhist tradition tells us that the stories illustrate the gradual path to perfection exemplified by the Buddha in his previous births when he was a bodhisatta buddha to be Jataka stories have had a long and colourful history closely intertwined with the development of doctrines about the Buddha the path to buddhahood and how Buddhists should behave now the Buddha is no more This book explores the shifting role of the stories in Buddhist doctrine practice and creative expression finally placing this integral Buddhist genre back in the centre of scholarly understandings of the religion

Oedipus in the Trobriands, 1993-01-01 Spiro challenges the argument of Bronislaw Malinowski that the matrilineal society of the Trobriand Islands produced a psychological constellation a matrilineal complex different from Freud's Oedipus complex and the generalization regarding the restrictive provenance of the Oedipus complex to which it gave rise Spiro undertakes a reanalysis of Malinowski's data and shows that there is enough to suggest the presence of a strong Oedipus complex Melford E Spiro is professor emeritus of anthropology at the University of California San Diego where he founded the Anthropology Department in 1968 His other works include Gender and Culture Oedipus in the Trobriands and Culture and Human Nature

Essays on Burma John P. Ferguson, 2024-01-15

The Nature of Buddhist Ethics Damien Keown, 2016-07-27 In this book the author considers data from both early and later schools of Buddhism in an attempt to provide an overall characterization of the structure of Buddhist ethics The importance of ethics in the Buddha's teachings is widely acknowledged but the pursuit of ethical ideals has up to now been widely held to be secondary to the attainment of knowledge Drawing on the Aristotelian tradition of ethics the author argues against this intellectualization of Buddhism and in favour of a new understanding of the tradition in terms of which ethics plays an absolutely central role In the course of this reassessment many basic concepts such as karma nirvana and the Eightfold Path are reviewed and presented in a fresh light The book will be of interest to readers with a background in either Buddhist studies or comparative religious ethics

Transnational Death Samira Saramo, Eerika Koskinen-Koivisto, Hanna Snellman, 2019-09-24 With so much of the global population living on the move away from their homelands and in diasporic communities death and mourning practices are inevitably impacted Transnational Death brings together eleven cutting edge

articles from the emerging field of transnational death studies By highlighting European Asian North American and Middle Eastern perspectives the collection provides timely and fresh analysis and reflection on people s changing experiences with death in the context of migration over time First beginning with a thematic assessment of the field of transnational death studies readers then have the opportunity to delve into case studies that examine experiences with death and mourning at a distance from the viewpoints of Family Community and Commemoration The chapters highlight complicated issues confronting migrants their families and communities including negotiations of burial preferences and challenges of corpse repatriation the financial costs of providing end of life care travel at times of death and arranging culturally appropriate funerals and religious services as well as the emotional and sociocultural weight of mourning and commemoration from afar Overall Transnational Death provides new insights on identity and belonging community reciprocity transnational communication and spaces of mourning and commemoration *Politics and Transcendent Wisdom* Charles D.

Orzech,2010-11 *Politics and Transcendent Wisdom* presents a systematic theoretical framework for understanding the relationship between politics and religion in a variety of contexts This book examines the formation of national protection Buddhism in China and translates the key text of this important movement Showing that Buddhist notions of sovereignty were meant and were taken as more than mere metaphor Orzech examines the profound link between Buddhist notions of transcendence and the deployment of political authority in East Asia To this integration of philosophical tradition and political history is brought a new understanding of Buddhist cosmology The contexts of Buddhism as state religion in fifth and eighth century China are examined in detail through extended consideration of the Transcendent Wisdom Scripture for Humane Kings Who Wish to Protect Their States the text that was the charter for Buddhist state cults in China Korea and Japan into the twentieth century The text first appeared during the fifth century as Buddhists were struggling to understand how their foreign religion and the foreign rulers of north China might be adapted to Chinese religious and political culture The Scripture for Humane Kings and the rites enjoined by it were one answer to these questions Three centuries later in the context of a fully sinified Buddhism the T ang dynasty Tantric master Pu k ung produced a new version of the text with new rites that served as the centerpiece of his vision of a Chinese Buddhist state modeled on esoteric lines The final section of this volume presents for the first time a full annotated translation of this important East Asian Buddhist text *Buddhist Visual Cultures, Rhetoric, and Narrative in Late Burmese Wall Paintings* Alexandra Green,2018-01-04 Step into a Burmese temple built between the late seventeenth and early nineteenth centuries and you are surrounded by a riot of color and imagery The majority of the highly detailed wall paintings displays Buddhist biographical narratives inspiring the devotees to follow the Buddha s teachings Alexandra Green goes one step further to consider the temples and their contents as a whole arguing that the wall paintings mediate the relationship between the architecture and the main Buddha statues in the temples This forges a unified space for the devotees to interact with the Buddha and his community with the aim of

transforming the devotees current and future lives These temples were a cohesively articulated and represented Burmese Buddhist world to which the devotees belonged Green s visits to more than 160 sites with identifiable subject matter form the basis of this richly illustrated volume which draws upon art historical anthropological and religious studies methodologies to analyze the wall paintings and elucidate the contemporary religious political and social concepts that drove the creation of this lively art form Buddhist Visual Cultures Rhetoric and Narrative in Late Burmese Wall Paintings is truly a tour de force that allows us to see Burmese temple paintings of the Life of the Buddha and similar themes as an open ended genre that like literary discourse participates in wider social intellectual and religious contexts Juliane Schober Arizona State University Alexandra Green introduces this relatively unknown material and subjects it to sophisticated analysis This study is major step towards creating a template that could be used for analyzing other late traditions of Buddhist painting Janice Leoshko University of Texas at Austin Living with the Vinaya Ryosuke Kuramoto, 2024-11-30 Around the first century BCE Buddhist monks formed monasteries and established relationships with kings and lay people The rules monks live by the Vinaya are a pivotal source of meaning for them and their dealings with society and form the basis of multiple monasticisms across geographical regions and throughout history The ways in which the Vinaya is understood and practiced therefore must take into account the kind of monasticism that emerges from it In Living with the Vinaya Ryosuke Kuramoto examines the process of creating monasticism in contemporary Myanmar by focusing on how monks acquire possess and consume material goods To live as a monk means to obtain resources from society and to own and use these according to monastic rules Over the centuries as monks interacted more with the world beyond the monastery the question of what a monk should be became a concern for not only monks but also government authorities and lay people How monks interpreted and observed the Vinaya became a question of legitimacy and power Kuramoto s ethnographic analysis reveals the constant re creation of monasticism in Myanmar resulting from the interactions between monks and these groups in response to this question He identifies some of the key mechanisms by which monasticism and broader Buddhist institutions are created and transformed and concludes that monastic governance is inseparable from the Buddhist state and the society that surrounds it
