original and astute look at the concept of androgyny in key works of Chinese fiction and drama from the sixteenth to the eighteenth centuries The work begins with an exploration of androgyny in Chinese philosophy and Ming Qing culture Zhou proceeds to examine chronologically the appearance of androgyny in major literary writing of the time yielding novel interpretations of canonical works from *The Plum in the Golden Vase* through the scholar beauty romances to *The Dream of the Red Chamber* He traces the ascendance of the androgyny craze in the late Ming its culmination in the Ming Qing transition and its gradual phasing out after the mid Qing The study probes deviations from engendered codes of behavior both in culture and literature then focuses on two parallel areas androgyny in literary characterization and androgyny in literati identity The author concludes that androgyny in late Ming and early Qing literature is essentially the dissident literati's stance against tyrannical politics a psychological strategy to relieve anxiety over growing political inferiority
