Buddhist Studies in Honour of Walpola Rahula, 1980

The Buddhist Philosophy of the Middle David Seyfort

Ruegg, 2010-11-09 In a scholarly career spanning more than fifty years David Seyfort Ruegg has produced seminal studies on a remarkable range of figures texts and issues in Indian and Tibetan thought His essays on Madhyamaka many of them classics in the field are gathered together here for the first time reminding us of Professor Ruegg's enduring contributions to the field of Buddhist studies Donald S Lopez University of Michigan

The Foundations of Buddhism Rupert

Gethin, 1998-07-16 In this introduction to the foundations of Buddhism Rupert Gethin concentrates on the ideas and practices which constitute the common heritage of the different traditions of Buddhism Theravada Tibetan and Eastern which exist in the world today

Buddhism Betrayed? Stanley Jeyaraja Tambiah, 1992-07-15 This volume seeks to answer the question of how the Buddhist monks in today's Sri Lanka given Buddhism's traditionally nonviolent philosophy are able to participate in the fierce political violence of the Sinhalese against the Tamils

The Buddhist Self C. V. Jones, 2020-11-30 Winner of the 2021 Toshihide Numata Book Award in Buddhism The assertion that there is nothing in the constitution of any person that deserves to be considered the self tman a permanent unchanging kernel of personal identity in this life and those to come has been a cornerstone of Buddhist teaching from its inception Whereas other Indian religious systems celebrated the search for and potential discovery of one's true self Buddhism taught about the futility of searching for anything in our experience that is not transient and ephemeral But a small yet influential set of Mahayana Buddhist texts composed in India in the early centuries CE taught that all sentient beings possess at all times and across their successive lives the enduring and superlatively precious nature of a Buddha This was taught with reference to the enigmatic expression tathagatagarbha the womb or chamber for a Buddha which some texts refer to as a person's true self The Buddhist Self is a methodical examination of Indian teaching about the tathagatagarbha otherwise the presence of one's Buddha nature and the extent to which different Buddhist texts and authors articulated this in terms of the self C V Jones attends to each of the Indian Buddhist works responsible for explaining what is meant by the expression tathagatagarbha and how far this should be understood or promoted using the language of selfhood With close attention to these sources Jones argues that the trajectory of Buddha nature thought in India is also the history and legacy of a Buddhist account of what deserves to be called the self an innovative attempt to equip Mahayana Buddhism with an affirmative response to wider Indian interest in the discovery of something precious or even divine in one's own constitution This argument is supplemented by critical consideration of other themes that run through this distinctive body of Mahayana Buddhist literature the relationship between Buddhist and non-Buddhist teachings about the self the overlap between the tathagatagarbha and the nature of the mind and the originally radical position that the only means of becoming liberated from rebirth is to achieve the same exalted status as the Buddha

Greene, 2021-01-31 In the early 400s numerous Indian and Central Asian Buddhist meditation masters chanshi traveled to China where they established the first enduring traditions of Buddhist meditation practice in East Asia The forms of contemplative practice that these missionaries brought with them and which their Chinese students further developed remained for several centuries the basic understanding of meditation chan in China Although modern scholars and readers

have long been familiar with the approaches to meditation of the Chan Zen School that later became so popular throughout East Asia these earlier and in some ways more pervasive forms of practice have long been overlooked or ignored This volume presents a comprehensive study of the content and historical formation as well as complete English translations of two of the most influential manuals in which these approaches to Buddhist meditation are discussed the Scripture on the Secret Essential Methods of Chan Chan Essentials and the Secret Methods for Curing Chan Sickness Methods for Curing Translated here into English for the first time these documents reveal a distinctly visionary form of Buddhist meditation whose goal is the acquisition of concrete symbolic visions attesting to the practitioner s purity and progress toward liberation Both texts are apocryphal scriptures Taking the form of Indian Buddhist sutras translated into Chinese they were in fact new compositions written or at least assembled in China in the first half of the fifth century Though written in China their historical significance extends beyond the East Asian context as they are among the earliest written sources anywhere to record certain kinds of information about Buddhist meditation that hitherto had been the preserve of oral tradition and personal initiation To this extent they indeed divulge as their titles claim the secrets of Buddhist meditation Through them we witness a culture of Buddhist meditation that has remained largely unknown but which for many centuries was widely shared across North India Central Asia and China

Cetana and the Dynamics of Volition in Theravada Buddhism Nalini Devdas, 2008-01-01 What do the scriptures of Theravada Buddhism have to say about the most basic psychological processes through which alternatives are assessed purposes are developed and goal oriented acts are initiated How can Theravada make volitional endeavour central to Buddhist practice while denying the existence of a self who wills How can the text emphasize ethical striving and yet uphold the principle that all physical and mental acts arise through causes and conditions This book adds another perspective to Theravada scholarship by exploring various subtle Pali terms that seek to display the nuances of human motivation Cetana is shown to be the purposive impetus that links ethically good and bad attitudes of mind with corresponding acts of body speech and mind The argument is made that Theravada does not posit a controlling will but seek to establish the possibility of changing attitudes purposes and acts through holistic methods of training Theravada maintains that changes in attitude are possible because the mind has the capacity to observe its own processes of conditioning and is able to greatly diversify its responses to its own concepts and to factors in its environment

Jataka Stories in Theravada Buddhism Naomi Appleton, 2016-05-06 Jataka stories stories about the previous births of the Buddha are very popular in Theravada Buddhist countries where they are found in both canonical texts and later compositions and collections and are commonly used in sermons children s books plays poetry temple illustrations rituals and festivals Whilst at first glance many of the stories look like common fables or folktales Buddhist tradition tells us that the stories illustrate the gradual path to perfection exemplified by the Buddha in his previous births when he was a bodhisatta buddha to be Jataka stories have had a long and colourful history closely intertwined with the development of doctrines about the Buddha the

path to buddhahood and how Buddhists should behave now the Buddha is no more This book explores the shifting role of the stories in Buddhist doctrine practice and creative expression finally placing this integral Buddhist genre back in the centre of scholarly understandings of the religion **Nirvana and Other Buddhist Felicities** Steven Collins,1998-05-13 This book

presents an answer to the question what is nirvana Part I distinguishes between systematic and narrative thought in the Pali texts of Theravada Buddhism in South and Southeast Asia arguing that nirvana produces closure in both and setting nirvana in the wider category of Buddhist Felicities Part II explores other Buddhist utopias both eu topias good places and ou topias no places and relates Buddhist utopianism to studies of European and American utopian writing The book ends with a close reading of the Vessantara Jataka which highlights the conflict between the ascetic quest for closure and ultimate felicity and the ongoing demands of ordinary life and society Steven Collins discusses these issues in relation to textuality world history and ideology in premodern civilizations aiming to contribute to an alternate vision of Buddhist history which can hold both the inside and the outside of texts together **The Perfection of Wisdom in First Bloom** Bhikkhu Analayo,2025-07-01

See the formative years of Mahayana Buddhist literature through the lens of the Perfection of Wisdom expertly analyzed by the venerable scholar monk Bhikkhu Analayo In this work we have a rare perspective on the early history of Mahayana Buddhism and the Perfection of Wisdom Prajnaparamita as far as this is still accessible in surviving texts With his characteristic clarity and precision Bhikkhu Analayo critically analyzes early Perfection of Wisdom literature based on the earliest extant versions of the Astasahasrika Prajnaparamita or the Perfection of Wisdom in Eight Thousand Lines one in Chinese and the other in Gandhari one of the oldest surviving Mahayana manuscripts discovered to date In reading this text from the viewpoint of early Buddhist literature the author shows that what has generally been considered a sharp rupture in the formation of the Mahayana turns out to be more of a gradual evolution With his command of the languages of the ancient Buddhist world scholar monk Bhikkhu Analayo sifts through the layers of history and unveils new perspectives on the ideas and figures in early Perfection of Wisdom and Mahayana literature covering such topics as the rhetoric of emptiness and the emerging bodhisattva ideal as well as the status of women and the practice of self immolation In doing so Bhikkhu Analayo reveals fresh insights into the gradual development that informs the emergence of early Perfection of Wisdom literature This is a rare opportunity to peer through a window at the beginnings of Mahayana thought before the traditions had coalesced into the familiar forms we see today **Mindfulness in Early Buddhism** Tse-fu Kuan,2007-12-18 This book examines

mindfulness in early Buddhism and explores its central role in early Buddhist practice and philosophy Using textual analysis and criticism it takes new approaches to the subject through a comparative study of Buddhist texts in Pali Chinese and Sanskrit **The Ideas and Meditative Practices of Early Buddhism** Vetter,2023-07-31 Women in the Footsteps of
