Buenos Vecinos Malos Políticos:

Buenos vecinos, malos políticos Sabina Frederic, 2004 **Argentina's Economic Growth and Recovery** Michael Cohen, 2012-05-15 This book examines the causes of the economic and political crisis in Argentina in 2001 and the process of strong economic recovery It poses the question of how a country which defaulted on its external loans and was widely criticized by international observers could have succeeded in its growth and development despite this decision in 2002 It examines this process in terms of the impact of neo liberal policies on the economy and the role of development strategy and the state in recovering from the crisis **Mobilizing Poor Voters** Mariela Szwarcberg, 2015-07-15 Using network analysis and quantitative and qualitative data this book explains why candidates use clientelistic strategies to mobilize poor voters

Handbook on Urban Social Movements Anna Domaradzka, Pierre Hamel, 2024-01-18 Providing an overview of urban social movements from a diverse range of both empirical and theoretical perspectives this Handbook includes not only a critical analysis of the transformations that have occurred in the urban landscape recently but also sheds light on the strategies implemented by social actors in various socio political and cultural contexts It focuses on understanding better how and to what extent collective action around urban issues remains relevant in our modern world This title contains one or more Open Access chapters *Buenos vecinos, malos políticos* Sabina Frederic, 2003 *Las trampas del pasado* Sabina Frederic, 2022-05-30 Las Fuerzas Armadas argentinas atraviesan un periodo de pacificación nunca antes experimentado Desde el advenimiento de la democracia una vez que los militares fueron simbólicamente expulsados del Estado y de la sociedad la cuestión de cómo y qué lugar darles a la institución y a sus integrantes se volvió crucial Sabina Frederic analiza el controvertido proceso de reinscripción e integración de los militares al Estado argentino democrático que toma cuerpo a partir de 1983 y que estuvo signado por la insistente preocupación en torno a cómo subordinarlos al poder político Tanto la democratización como la profesionalización de las Fuerzas Armadas estuvieron determinadas por una sucesión de posguerras de distinta naturaleza que junto con el terrorismo de Estado empujaron a los militares hacia su virtual parálisis operativa La autora examina los distintos esquemas interpretativos que al poner en juego ciertas imágenes del pasado condicionaron las políticas públicas llevadas a cabo y distingue desde una perspectiva etnográfica y antropológica tres dimensiones clave de la profesionalización militar las dificultades en el reclutamiento y la retención de efectivos las tendencias que configuraron la educación militar y la integración de las mujeres en la institución Las trampas del pasado las Fuerzas Armadas y su integración al Estado democrático en Argentina representa un esfuerzo intelectual y político esencial para comprender la complejidad de la realidad de quienes son hoy militares en nuestro país así como las tendencias y las alternativas para su inclusión en el Estado y la sociedad actuales **The City Is the Factory** Miriam Greenberg, Penny Lewis, 2017-06-06 Urban public spaces from the streets and squares of Buenos Aires to Zuccotti Park in New York City have become the emblematic sites of contentious politics in the twenty first century As the contributors to *The City Is the Factory* argue this resurgent politics of

the square is itself part of a broader shift in the primary locations and targets of popular protest from the workplace to the city. This shift is due to an array of intersecting developments: the concentration of people, profit and social inequality in growing urban areas; the attacks on and precarity faced by unions and workers' movements; and the sense of possibility and actual leverage afforded by local politics and the tactical use of urban space. Thus the city from the town square to the banlieu is becoming like the factory of old: a site of production and profit making as well as new forms of solidarity, resistance and social reimagining. We see examples of the city as factory in new place-based political alliances as workers and the unemployed find common cause with right to the city struggles. Demands for jobs with justice are linked with demands for the urban commons from affordable housing to a healthy environment from immigrant rights to urban citizenship and the right to streets free from both violence and racially biased policing. The case studies and essays in *The City Is the Factory* provide descriptions and analysis of the form, substance, limits and possibilities of these timely struggles.

Social and Political Transitions During the Left Turn in Latin America Karen Silva-Torres, Carolina Roza-Higuera, Daniel S. Leon, 2021-09-09. *Social and Political Transitions During the Left Turn in Latin America* provides fourteen contributions to understand from a multidisciplinary perspective processes of socio-political reconfigurations in the region from the early 2000s to the mid 2010s. The Left Turn was the regional shift to left-of-center governments and social movements that sought to replace the neoliberal policies of the 1990s. This volume aims to answer the overarching research question: how do state and societal, national and transnational actors trigger and shape processes of political and socio-economic transitions in Latin America from the rise to the decline of the Left Turn? The book presents case studies in which transitions are moments of change and uncertainty which one cannot predict their definitive outcomes. The various case studies presented in the book place actors and processes in specific historical and socio-political contexts which are influenced directly or indirectly by the historical trajectory of Latin America's Left Turn. This book is essential reading for students and scholars of Social and Political History, Latin American History and those interested in the social and political developments in Latin America more broadly.

Lo sindical en su multiplicidad Anabel Angélica Beliera, 2019-08-01 Los hospitales han sido muy estudiados en el campo de las ciencias sociales tanto por la centralidad que han ocupado en los Estados modernos como por su v nculo con el proceso de profesionalizaci n de la medicina y los trabajos de cuidado Sin embargo sabemos muy poco sobre lo que sucede con los sindicatos en estos espacios de trabajo Este libro busca saldar esa deuda a partir de la realizaci n de una etnograf a en un hospital tomando la curiosidad sociol gica como impulso de las indagaciones La presente investigaci n se inserta en la trama del Hospital Provincial de Neuqu n para estudiar la experiencia sindical de distintos grupos profesionales enfermeros trabajadores no profesionales y militantes de una agrupaci n trotskista Sin embargo se rebasan estas unidades de an lisis concretas y se conceptualizan dimensiones importantes para repensar lo sindical Se desborda el an lisis institucional como entrada exclusiva para el estudio de las organizaciones gremiales y se propone analizarla eficacia de las experiencias laborales las relaciones interpersonales los compromisos morales las experiencias de vida cotidiana la afectividad y las identidades profesionales Esto permite rescatarlo sindical en su multiplicidad Las contribuciones de este libro ingresan al debate acad mico y pol tico en torno a diferentes temas las identidades de los grupos profesionales

consagrados los procesos de profesionalización de grupos subalternos los procesos de definición y disputa de las políticas de salud pública las características de los ámbitos estatales de trabajo las particularidades de los trabajos de cuidado estudios sociales de la medicina y la enfermería Y lo hace con el convencimiento de que estudiar un hospital emplazado en una provincia del interior del país aporta a una comprensión más plural del sistema de salud pública argentino *De sociale wetenschappen in Utrecht*, 2005 **La larga historia de los saqueos en la Argentina** Gabriel Di Meglio, Sergio Serulnikov, 2019-11-22 En las últimas décadas los saqueos se han convertido en episodios recurrentes de la sociedad argentina que reaparecen cada fin de año en forma de amenaza expectativa o posibilidad latente Pocos hechos son más emblemáticos de las crisis terminales del país que los sucesos de 1989 y 2001 a tal punto que la imagen cristalizada de los saqueos mezcla de desesperación y violencia qued asociada casi exclusivamente a estos dos momentos Sin embargo como sostienen los autores de este libro esa práctica reconoce una historia mucho más larga que merece ser contada porque en su excepcionalidad en su capacidad para irrumpir en el espacio público y subvertir el orden saca a la luz las tensiones irresueltas que atraviesan los períodos de normalidad As los saqueos tuvieron un rol protagónico durante las guerras de la Independencia y los conflictos armados del siglo XIX como el masivo pillaje a las tiendas de Buenos Aires que siguió a la batalla de Caseros protagonizado no por el ejército vencedor sino por las propias tropas porteñas derrotadas Resurgieron en la forma de violencia política vindicativa e iconoclasta con el ascenso y la caída de los dos grandes movimientos populares de comienzos y mediados del siglo XX el yrigoyenismo y el peronismo las pertenencias del líder radical desparramadas en la vereda de su casa desvalijada y saqueada fue la foto de los vencedores Y volvieron a aflorar esta vez como revueltas de subsistencia y asaltos masivos a comercios a raíz del empobrecimiento de vastos sectores de la población desde finales de la década de 1980 Lejos de ser estallidos irracionales o espasmódicos este libro revela que los saqueos representan el dramático emergente de profundos desacuerdos en torno a la soberanía territorial la legitimidad del sistema político y la distribución de los recursos económicos

La política después de los partidos Isidoro Cheresky, 2006 **Punteros, malandras y porongas** Jorge Ossona, 2019-11-22 Punteros malandras y porongas son algunos de los protagonistas de este libro También están los culatas y los escuchadores los evangelios y los umbandas los barderos guachines y drogones Todos son parte de la historia de Campo Unamuno un fragmento de Villa Fiorito en el conurbano bonaerense En estas tierras de legalidad borrosa coexisten varios mundos el fútbol la piratería del asfalto el narcotráfico Allí se forman los conglomerados que permiten sobrevivir a quienes en las cuatro últimas décadas quedaron al margen del mundo la familia grande la etnia el clan religioso las barras bravas la banda de pibes De todos ellos sacan su debido los políticos que saben adecuarse a este mundo singular Con la sensibilidad del etnógrafo y la capacidad analítica del historiador Jorge Ossona explora ese universo siguiendo palmo a palmo las sucesivas ocupaciones de tierras entre 1983 y 2001 Reconstruye la vasta trama que en cada toma enlaza a políticos locales con dirigentes barriales astutos hormigas o sacrificados puntas de lanza explora las operaciones inmobiliarias políticas o

delictivas y sus lazos con las necesidades de una densa humanidad que trata de sobrevivir en un mundo a la intemperie Ossoona describe esa realidad con magistral pericia entrelazando lo vivido con lo explicado la experiencia de los protagonistas y las claves profundas del mundo de la pobreza Luis Alberto Romero *Las villas de la ciudad* María Cristina Cravino, 2006 La presente publicación aborda la temática del mercado inmobiliario informal en las villas de la Ciudad de Buenos Aires un fenómeno de reciente aparición Se trata de un mercado fuertemente mediado por las relaciones sociales vecinales pero que a su vez modifica prácticas tradicionales de acceso a la ciudad informal Para esto se caracteriza y define el fenómeno del surgimiento y crecimiento de las villas de la ciudad como así también de la conformación de sus organizaciones sociales A partir de un trabajo de campo en profundidad y de la aplicación de encuestas se analiza pormenorizadamente el mercado inmobiliario en estos asentamientos sus reglas de funcionamiento los barrios y sus inmuebles los tipos de transacciones las preferencias de sus habitantes las redes sociales que permiten comprenderlo etc La indagación permite plantear las líneas que guían las prácticas y representaciones de los sujetos de las transacciones inmobiliarias y discutir los enfoques sobre las formas de producción informal de la ciudad Se torna central la relación entre la ciudad formal e informal y para esto se busca comprender el fenómeno de las villas dentro de la dinámica urbana Contratapa Resistir Buenos Aires María Carman, Romina Olejarczyk, 2021-03-01 Cómo es habitar Buenos Aires en lo que va del siglo XXI en especial para sectores populares que no siempre tienen asegurado el acceso a una vivienda en condiciones ambientales sanas Quiénes pueden usar embellecer o permanecer en la ciudad Cómo se piensan los espacios públicos y hasta qué punto están abiertos para todos Qué apropiaciones se consideran legítimas y cuáles aparecen como indeseables y generan cada vez más respuestas represivas Este libro aborda conflictos sociourbanos y experiencias del habitar que llaman a preguntarse quiénes reciben atención del Estado y qué estrategias deben desplegar para lograrlo y quiénes no resultan dignos de esa apuesta porque según se dice ensucian o dañan la ciudad A partir de un riguroso trabajo etnográfico en barrios de la ciudad y el AMBA las autoras y autores indagan críticamente el despliegue de políticas y reconversiones de espacios motorizadas por el Estado que muchas veces interviene desde arriba en sintonía con sectores empresariales agentes inmobiliarios o turísticos sin contemplar las necesidades de los supuestos beneficiados Los textos ponen el foco también en las iniciativas y estrategias de lucha de sectores populares que mediante el activismo la negociación o la judicialización buscan acceder a planes de vivienda social o participar en procesos de reurbanización de villas desarrollan innovaciones tecnológicas con residuos como las cooperativas de cartoneros o sostienen prácticas agrícolas de encuentro comunitario como las huertas As Resistir Buenos Aires revela que más allá de la retórica democrática de los funcionarios el acceso a la ciudad está condicionado por el capital del que se dispone y por una normativa legal que estigmatiza como amenazantes a vastos sectores sociales que se ven desalojados y expulsados con violencia y sometidos a padecimientos Al registrar el impulso vital de un amplio repertorio de prácticas populares que no pueden encasillarse en términos simplistas de sumisión o rebelión este libro es una invitación a seguir habitando la ciudad y

un llamado urgente a repensar las políticas públicas desde una praxis popular **Cómo se construye un sindicalista** Sian Lazar, 2019-11-20 Aunque muchas veces están expuestos a la hostilidad y la desconfianza públicas y debilitados por las transformaciones económicas de las últimas décadas los sindicatos argentinos siguen siendo llamativamente fuertes mantienen su capacidad de movilización y presión política y sobre todo son un espacio genuino de militancia y contención para muchos trabajadores En este libro se argumenta que esa resistencia responde a la capacidad de los sindicatos para generar lazos afectivos y de valores para crear una identidad compartida entre militantes que se construye mucho más en la vida cotidiana que en los momentos de movilización y protesta más espectaculares A través de un trabajo etnográfico sólido y minucioso Sian Lazar estudia esos espacios íntimos de la militancia política en dos sindicatos estatales la Unión del Personal Civil de la Nación UPCN y la Asociación Trabajadores del Estado ATE Mientras UPCN es en su mayoría peronista muy disciplinado y orgánico por lo que en general toma una posición de negociar con el Estado empleador ATE se enorgullece de su autonomía política y su horizontalidad y responde a las asambleas de sus militantes antes que a cualquier partido político En esos contextos Lazar rastrea los aspectos íntimos personales y familiares de la militancia política y a la vez arma un retrato de la complejidad del Estado argentino con una agudeza que solo la buena etnografía permite alcanzar Este libro que interesa a quienes se dedican a la antropología la sociología política los estudios del Estado y de los movimientos sociales tan valioso por sus hallazgos como por la calidad de su metodología sostiene la necesidad de no abandonar a los sindicatos como objetos de indagación porque en ellos se mantiene viva una singular forma de experimentar la militancia
