A Constructed View Joseph Rosa, Esther McCoy, 1994 Julius Shulman one of the great masters of modern architectural photography is the preeminent recorder of early California modernism By 1927 when he was sixteen Shulman was already using the family Brownie box camera to document his Southern California surroundings and experiences in 1936 his professional career was launched when he sent Richard Neutra some uncommissioned photographs of the architect's Kun House Shulman went on to document the famous Case Study House Program architects included Charles and Ray Eames Pierre Koenig and Eero Saarinen and also the architecture of the 1930s through the 1980s especially that of Southern California but also country and worldwide His subjects included the buildings of R M Schindler John Lautner Raphael Soriano Frank Lloyd Wright Mies van der Rohe and Oscar Niemeyer among many others Through his work Shulman defined the image of Los Angeles and framed the architecture of the time for a global audience In addition to an overview of Shulman's career and photographic oeuvre this book emphasizes Shulman's method of constructing photographic views These constructions which complemented his innate ability to compose striking photographs often transcend reality to capture the spirit time and place of a work of architecture An analysis of architecture's visual presentation examines not only the media of the era John Entenza's Arts Architecture for instance but also the work of Shulman's photographic contemporaries **An Architectural Guidebook to Los Angeles** Robert Winter, 2009-09 Known as the bible to Los Angeles architecture scholars and enthusiasts Robert Winter and David Gebhard's groundbreaking guide to architecture in the greater Los Angeles area is updated and revised once again From Art Deco to Beaux Arts Spanish Colonial to Mission Revival Winter discusses an impressive variety of architectural styles in this popular guide that he co-authored with the late David Gebhard New buildings and sites have been added along with all new photography Considered the most thorough L A architecture guide ever written this new edition features the best of the past and present from Charles and Henry Greene's Gamble House to Frank Gehry's Disney Philharmonic Hall This was and is again a must have guide to a diverse and architecturally rich area Robert Winter is a recognized architectural historian who lives in Los Angeles and has led architectural tours through the Los Angeles area since 1965 He is a professor at Occidental College in Los Angeles *The Palm Springs School: Desert Modernism 1934-1975* Alan Hess, 2025-02-11 Palm Springs is at the center of a unique tradition in architecture marked by invention and a sensitivity to local conditions that has resulted in design that exerts an influence far greater than the town's small size The book is the first to fully explore the wide ranging forms this architecture has taken from houses to gas stations hotels to airports banks to restaurants and spas Much more than a resort destination Palm Springs has served as a laboratory of the Modern here so much architectural innovation and design took form From the steel and glass boxes of Richard Neutra to the earthy organic homes of John Lautner and everything in between the solutions of architects and designers including notably William F Cody E Stewart Williams and Albert Frey were diverse and are ever more relevant in the face of

contemporary challenges Their answers addressed questions that still hold urgency How to design sustainably in harsh climates How to use technology efficiently and creatively to meet those challenges How to build affordable and high quality mass produced housing How to reflect a region s culture economy and distinctive atmosphere Architects here responded to nature s climatological demands and Palm Springs became a center for innovations that were rooted in practice more than theory Benefitting from the architectural freedoms offered by the remoteness of the California desert designers explored new approaches that we can now identify as central to the Palm Springs School shown here in rich archival and contemporary photography
