**Technologies** Jillian Walliss,Heike Rahmann,2016-02-12 Landscape Architecture and Digital Technologies explores how  
digital technologies are reshaping design and making in landscape architecture While the potentials of digital technologies  
are well documented within landscape planning and visualisation their application within design practice is far less  
understood This book highlights the role of the digital model in encouraging a new design logic that moves from the  
privileging of the visual to a focus on processes of formation bridging the interface of the conceptual and material the virtual  
and the physical Drawing on interviews and projects from a range of international designers including Sn hetta Arup  
Gustafson Porter ASPECT Studios Grant Associates Catherine Mosbach Philippe Rahm PARKKIM LAAC and PEG office of  
landscape architecture among others the authors explore the influence of parametric modelling scripting real time data  
simulation prototyping fabrication and Building Information Modelling on the design and construction of contemporary  
landscapes This engagement with practice is expanded through critical reflection from academics involved in landscape  
architecture programs around the world that are reshaping their research and pedagogy to reflect an expanded digital realm  
Crossing critical theory technology and contemporary design the book constructs a picture of an emerging twenty first  
century practice of landscape architecture practice premised on complexity and performance It also highlights the  
disciplinary demands and challenges in engaging with a rapidly evolving digital context within practice and education The  
book is of immense value to professionals and researchers and is a key publication for digital landscape courses at all levels

**Landscape Architecture Documentation Standards** Design Workshop,2015-10-26 SUPERB EXECUTION RELIES  
UPON RIGOROUS PROJECT DOCUMENTATION A project will only be built as well as it is documented This publication  
focuses on the key documentation needs of the landscape architectural design and construction documentation process That  
includes both design documentation and construction documentation as well as all that which occurs in the transition from

one phase to the other Documentation requirements include those components necessary to explore and define design intent logic physical proposals and ultimately the specific components included within construction and bid documents Discover how proper documentation facilitates every stage of the design process from pre planning to construction and leads to a highly resolved built outcome Understand the principles behind these documentation practices Implement best practices specific to each documentation phase and drawing from title block and cover sheet design to soil plans and plant protection Organize keynoting systems cross referencing and interdisciplinary coordination amongst multiple consultants and vendors Study sample project documents from a leading landscape architecture firm to better understand the elements and benefits of complete and well coordinated project documentation These standards have been time tested by over 150 designers at the industry leading landscape architecture firm Design Workshop reflecting a range of project types including parks streetscapes urban spaces and over structure construction This guide shares the methods behind the success to facilitate exceptional built outcomes through principled documentation practices

[The Innovative Use of Materials in Architecture and Landscape Architecture](#) Caren Yglesias,2014-02-10 This book is about materials The fundamental properties and technical aspects are reviewed within a context of a material s history the theories of its meaning and making and its use Information about the sustainability aspects of each material is included as a critical necessity in construction Innovative design comes from an understanding of materials for what they are how they have been used in the past and how they can support human activity The author provides essential information to students and professionals concerned with advancing their design at a time when the consumption of natural resources and the consequences of wasteful practices are of urgent concern Instructors considering this book for use in a course may request an examination copy here

**Landscape and Sustainability** John Benson,Maggie Roe,2007-08-07 This unique book addresses the issue of sustainability from the point of view of landscape architecture dealing with professional practices of planners designers and landscape managers This second edition contains updated and new material reflecting developments during the last five years and comprehensively addresses the relationship between landscape architecture and sustainability Much in the text is underpinned by landscape ecology in contrast to the idea of landscape as only appealing to the eye or aspiring cerebrally to be fine art Landscape and Sustainability establishes that the sustainability agenda needs a new mindset among professionals the driving question must always be is it sustainable Developing theory into practice from the global to the local scale and from issues of policy and planning through to detailed design and implementation and on to long term maintenance and management the contributors raise and re examine a complex array of research policy and professional issues and agendas to contribute to the necessary ongoing debate about the future of both landscape and sustainability
