Davis, 2007-01-11 The master shipbuilders of seventeenth century Venice formed part of what was arguably the greatest manufacturing complex in early modern Europe As many as three thousand masters apprentices and laborers regularly worked in the city's enormous shipyards This is the social history of the men and women who helped maintain not only the city's dominion over the sea but also its stability and peace Drawing on a variety of documents that include nearly a thousand petitions from the shipbuilders to the Venetian governments as well as on parish records inventories and wills Robert C Davis offers a vivid and compelling account of these early modern workers He explores their mentality and describes their private and public worlds which in some ways he

argues prefigured the factories and company towns of a later era He uncovers the far reaching social and cultural role played by women in this industrial community He shows how the Venetian government formed its shipbuilders into a militia to maintain public order And he describes the often colorful ways in which Venetians dealt with the tensions that role provoked including officially sanctioned community fistfights on the city's bridges The recent decision by the Italian government to return the Venetian Arsenal to civilian control has sparked renewed interest in the subject among historians Shipbuilders of the Venetian Arsenal offers new evidence on the ways in which large state run manufacturing operations furthered the industrialization process as well as on the extent of workers influence on the social dynamics of the early modern European city

Brueschke, 1998-02-12 The Iran United States Claims Tribunal is arguably the most significant arbitral institution of the twentieth century Although the completion of its last few cases could take a long time the Tribunal's impressive work must be made available now as a guide to the resolution of ongoing disputes and for future tribunals The Tribunal has by this point disposed of well over 98 percent of its caseload Little more remains for its participants to learn but the Tribunal shows no signs of fading away Both of the two States Parties for different reasons see greater advantage in the Tribunal's prolongation than in its elimination The authors have succeeded in dealing with all of the most deserving Tribunal subjects Moreover their intimate involvement in and knowledge of the Tribunal ensure that their book is a fascinating important and indispensable contribution to the literature of International Law This is a definitive book on a monumental event in the law and in history at the close of a century The Iran United States Claims Tribunal was awarded the ASIL Certificate of Merit
