China's Struggle for the Rule of Law Ronald C. Keith, 2016-07-27 The rule of law is more than the mere existence and application of law within the sphere of state activity Contemporary Chinese debate on the rule of law underlines the limiting of arbitrary government the materialisation of human rights legal protection of rights and interests and the principle of equality in the impartial legal mediation of conflicts within society s structure of interests Based upon China interviews and a comprehensive survey of the domestic press and Chinese language legal journal materials this book places pre and post Tiananmen Square legal reform in political context The evolving contents of specific laws across the departments of constitutional administrative criminal civil and economic law are assessed in light of the politics and intellectual dynamic of China s legal circles in their struggle to create a rule of law

The Politics of China Roderick MacFarquhar, 2011-09-19 Thirty years ago China was emerging from one of the most traumatic periods in its history The Chinese people had been ravaged by long years of domestic struggle terrible famine and economic and political isolation Today China has the world s second largest economy and is a major player in global diplomacy This volume written by some of the leading experts in the field tracks China s extraordinary transformation from the establishment of the People s Republic of China in 1949 through the Great Leap Forward the Cultural Revolution and the death of Chairman Mao to its dynamic rise as a superpower in the twenty first century The latest edition of the book includes a new introduction and a seventh chapter which focuses on the legacy of Deng Xiaoping the godfather of China s transformation under his successors Jiang Zemin and Hu Jintao Chinese Foreign Policy Thomas W. Robinson, David L. Shambaugh, 1995 This study of Chinese foreign policy is intended for academics and graduates of Chinese studies and of international relations international economics and those interested in decision making theory

Law and Justice in China's New Marketplace Ronald C. Keith, 2001-01-11 Law and Justice in China s New Marketplace provides the first comprehensive multidisciplinary analysis of the jurisprudence and related law underlying the contemporary Chinese transition to the socialist market economy New pluralized jurisprudence has moved beyond Marxist class analysis to consider a new balance of values relating to economic efficiency and social justice in the marketplace and yet the interior debates and perspectives concerning these values are virtually unknown in the Western scholarly literature By analysing the changing Chinese approach in law to the adjustment of social interests in the context of profound economic change Law and Justice in China s New Marketplace provides a unique reference tool It outlines the new vocabulary of market jurisprudence and law and examines new legal thinking on rights protection with reference to widely ranging and often hot internal debate over human rights property law and procedural or judicial justice

 Christopher Daase, 1993 历史学季刊, 1993 Historical Abstracts, 1998 *The Communist Judicial System in China, 1927-1976* Qiang Fang, 2025-10-01 Drawing on hundreds of newly released judicial archives and court cases this book analyzes the communist judicial system in China from its founding period to the death of Mao Zedong It argues that the communist judicial system was built when the CCP was engaged in a life or death struggle with the GMD meaning that the overriding aim of the judicial system was from the outset to safeguard the Party against both internal and external adversaries This fundamental insecurity and perennial fear of loss of power obsessed the Party throughout the era of Mao and beyond prompting it to launch numerous political campaigns which forced communist judicial cadres to choose between upholding basic legal norms and maintaining Party order In doing all of this *The Communist Judicial System in China 1927-1976* Building on Fear fills a major lacuna in our understanding of communist era China **University of California Union Catalog of Monographs Cataloged by the Nine Campuses from 1963 Through 1967: Subjects** University of California (System).
