Laying the BRICS of a New Global Order Kornegay, Francis A., Bohler-Muller, Narnia, 2013-10-20 The contributions in this compilation on the emergence of a new global order through BRICS serve to illustrate the complexities inherent in the creation of such a coalition alternatively referred to as a grouping association or forum with each country differently situated geo politically as well as ideologically and culturally and in some instances even in conflict with one another in matters of regional peace and security The fact that there are important commonalities of converging interests amongst others the status of emerging economic powers and the furtherance of South South cooperation as well as reforming global governance cannot and should not hide complexities and contradictions These are clearly apparent both within and between the BRICS countries These diversities are also clear from the varied perspectives of the chapter authors in this compilation which is why we have assembled this collection relatively loosely as a means of expressing our intellectual and analytic convergences and divergences within and across BRICS Each chapter contributor writes from a different discipline country and regional perspective and it is this diversity that enriches the debate and conversation As such there remains enormous room for debate on the subject matter of this book and the diverse contributions open up the parameters of the debate even further The aim is to ensure that scholars commentators and practitioners continue to engage critically with theory and practice related to global multilateralism and BRICS in particular Constructing Global Order Amitav Acharya, 2018-03-22 Examines how ideas of sovereignty and security from the non Western world contribute to order and change in world politics

China's Grand Strategy and Australia's Future in the New Global Order Geoff Raby, 2025-05-14 The US dominated world order has been replaced by a multipolar order but its closest allies such as Australia seek to retain American primacy adding dangerously to heightened geopolitical competition between the dominant and the ascendant power China Where the first great power shift of the twenty first century was across the Pacific from the United States to China the next great power shift is now underway from Russia to China Putin's invasion of Ukraine has depleted Russia of its power and influence across Eurasia while China's continues to grow As China consolidates its power across Eurasia it can turn to project power globally just as the US did at the turn of the last century when it cemented its power over the western hemisphere Diplomatically Australia is forced to navigate an increasingly unfamiliar world where the guarantor of its security is no longer the sole dominant power while China remains its most important economic partner Is Australia agile enough to walk the fine line of supporting US primacy in the Asia Pacific while providing a bulwark against

China's ambitions In China's Grand Strategy and Australia's Future in the New Global Order Geoff Raby believes something has to give and unpacks the ramifications for Australia **The Coming New World Order** Thomas J. Mueller, 2015-04-02 This book proposes a step by step blueprint for a better world There is a storm brewing on the horizon A new world order is coming based on all the trends and global pressures that is facing mankind today The question is who's world vision is going to prevail and lead us into the 21st century and beyond Will it be based on Man's vision and his world ruling government that has only produced war or God's vision and Christ's world ruling government that is guaranteed to produce lasting peace The outcome to this vital question and struggle will either bring on the Apocalypse or the prophesied Millennium It is our choice and we need to decide soon before we hit a point of no return Prophecy says the Kingdom of Man is going to face off with the Kingdom of God on the Plains of Megiddo in Northern Israel in the not too distant future for supremacy on earth if we don't heed the warnings and change our ways Our message therefore is simple Christ is returning shortly as King of Kings to establish a new political order His world ruling government of the Kingdom of God on earth His return can either be a forceful one or a peaceful one It is our decision Either way we need to decide soon and get ready for the Second Coming
